ADVERTISE[illegible]

AT the *Angel* and *Crown* in *King-ſtreet*, [illegible] next door to the Ally that leads into *Ironmonger-lane*,

The ſick may have advice for nothing.

And approv'd medicines at reaſonable rates, ſuch as have been found by many years experience ſucceſsful to admiration, in the cure of *Fevers*, *Agues*, *of the Cholic*, *Griping in the Guts*, *Bloody Flux*, *Vomiting and Looſneſs*, *of Coughs*, *Chin-Coughs*, *Worms*, *Rickets*, *of the Jaundice*, *Scurvey*, *Rheumatiſm*, *or Pains and Lameneſs in the Limbs*; *of many of the Diſeaſes peculiar to Women*; *of the Itch*, *Running of the Reins*, *not always got by Women*; *of Swellings*, *Ulcers*, *or Scabs*, *occaſion'd by the French Pox*, *and the like*. And it may be truly affirm'd, that in almoſt every Pariſh in and about the City of *London*, many of the inhabitants of all ranks have been cur'd by theſe medicines, in the uſe of which, with the bleſſing of God is ſuch aſſurance of ſucceſs, that if theſe diſeaſes have not been render'd incurable by ill management, and other accidents the cure of them ſhall be undertaken according to the following propoſals:

1. A certain time ſhall be agreed upon for the cure of the above-mention'd diſeaſes before they are undertaken.

2. The ſick ſhall know at firſt what the medicines will coſt that are neceſſary for their cure, tho' they ſhall pay for them only as they uſe them.

3. Whatever is receiv'd for medicines of them as they uſe them, ſhall be faithfully return'd, if the cure be not perfected within the time prefixt.

4. That they may be ſure of having either their money or their health reſtor'd, they, or their friends for them, ſhall have a Note, if they deſire it, under my hand and ſeal, with what witneſſes they pleaſe to it, for the performance of theſe propoſals.

☞ *'Tis very well known, that many other diſeaſes have been frequently cur'd at the* Angel *and* Crown *in* King-ſtreet, *near* Cheap-ſide; *ſo that the ſick may as probably find relief there, in moſt diſeaſes, as any where elſe; and indeed* J. Pechey *that has practis'd there ſeveral years, has Authority, and an ample Teſtimonial of his ability to practiſe Phyſick, from the Colledge of Phyſicians in* London.

David Perronet, Surgeon, his *Universal Dentifrice*, Or General Remedies against all Distempers affecting the Teeth and Gums in Old or Young,

Which may be had at any time, with printed Directions for the Use of them, at my House in Buckeridge-street, *between* Dyot-street *in* Bloomsbury *and St.* Giles's-Church, *at the* Blue *and* White Ball, *the* Surgeons-Sign *being likewise over my door:*

WHereas there is no vexatious Illness more common and frequent than the *Tooth-Ach*, for which there are various Remedies, but very few that prove serviceable; and likewise considering the many Accidents which daily happen by drawing them, as well as the Inconvenience in the loss of them, I thought fit to give this Information, that I have a sure and speedy Remedy for the Cure of the worst of *Teeth-Aches*, such as be hollow and rotten: For, be they never so raging, or of long continuance, this Remedy presently cures it, by killing the Worm in it, or dispersing the sharp Humours that cause it. *Price One Shilling.*

Another Remedy which absolutely cures any eating Ulcers, or Scurvy in the Gums, and fastens loose Teeth to admiration, tho' never so shaking, and that in a few times using. *Price One shilling.*

My *Salt of Cloves*, which wonderfully cleanseth and whitens the Teeth, and preserves them and the Gums from Putrefaction or Decay. *Price Six-pence.*

Lastly, Considering the many fatal consequences hard breeding of Teeth causes in little Children, some falling into Fevers, others into Convulsions, and many into the Grave by it, I have such an absolute Remedy, that being applied to the Gum, (tho' never so sore, inflamed, and swelled) it presently appeaseth the Anguish of it, and instantly removes all other Disorders occasioned by it.

I further inform the Publick, that I *let Blood*, as cheap and safe as any of my Profession. But what I would particularly say is, That I do make use of an excellent Foreign Method for Bleeding, *viz.* The observing of proper Times for it, except there be an absolute necessity to do it out of hand. 'Tis common in this Country for People to use Bleeding either to prevent Sickness, or be cured of some slight Illness: In which case they mind nothing else but their own convenient Leisure, or when they can best spare a Six-pence or a Shilling for it, without any regard to what should chiefly be minded, I mean the Moon, which has undeniably no small Power over our Bodies: For as she is either well or ill disposed in her Course, so she influences accordingly the Temper and Humours of our Bodies, insomuch, that if you are let Blood when the Moon is contrarily posited to what it should be for your Case, you shall rather promote or advance a Disease, than prevent or lessen it, contracting thereby either a Palsie, Dropsie, Ague, or a Consumption: which last, I am confident, many Persons fall into, more by being let Blood at random, (without the Direction of knowing Phisicians) than by any other Cause whatsoever. 'Many other dangerous Diseases may be readily contracted by unwary Bleeding, and, I may say, a sudden Death has sometimes been the consequence of it: 'Tis at the best but by a great chance that any Benefit is received by it. Whereas Bleeding rightly managed, and proper Veins taken for the purpose, may prove of more service than a whole Months taking of Physick.

As I know the right Method of it, so I shall be ready to advise any Person when he or she should be let Blood, either for the Prevention, or the Cure of any Illness.

I have the more inlarged upon this Subject, that for want of a right Method People may not throw away their Lives, or at least make 'em uneasie and uncomfortable. Whosoever shall make a tryal of this way, will certainly find the difference to their no small Benefit and Satisfaction.

I desire you to keep this Bill by you, (by Reason of my Removal) that you may know where to

have Relief in the greatest of your Extremities being the last Bills I design to dispose of.

Hic est quem legis, ille quem requiris, tota notus in Urbe.

By His Majesty's Special License and Authority.

At the Blue-Flower-Pot *in* Great-Lincolns-Inn Fields, *in* Holbourn-Row, (where you will see, at Night, a Light over the Door,) *liveth*

Cornelius à Tilburg, Sworn Chirurgeon in *Ordinary* to the late King *Charles* the II. as also to our present Gracious Sovereign Lord King *William*, who for several years past have cured many Thousands of People of the most dangerous, stubborn and chronick Distempers, by giving wholesome and faithful Medicines, according to the Strength and Constitution of the Patient, and the Nature of the Distemper or Disease. My hours are from 8 till 12, and from 2 till 9 at Night. And for the Conveniency of those that desire privacy, they may come through the *Red Lyon-Inn*, between the two *Turn stiles* in *Holbourn*, which is directly against my Back Door, where you will see the Sign of the *Blue-Ball* hang over the Door.

I dispose of my famous *Orvietan*, either Liquid, or in Powder, what Quantity or Price you please.

*** This is that *Orvietan* that expell'd that vast quantity of Poyson I took before K. *Charles* the II. for which His Majesty presented me with *A Gold Medal and Chain.*

I cure the *French*-POX, with all its accidents; as th *Running of the Reins*, *Shankers*, *Buboes*, *Swellings in the Groin* or *Cods*, (with that Privacy, that the neareſt Relation shall not perceive it) and all without *Mercury.*

And for the satisfaction of all those who have been sporting in the Garden of *Venus*, and in seeking for Pleasure have met with a *Clap* or *Gonorrhœa*, I do pro-

miſe to cure them in 8 or 9 days time, or deſire nothing for my Pains, which is as much as to ſay,

NO CURE, NO MONEY.

And for thoſe that are ſo bad, that their Diſtemper requires a cloſe Confinement, I have Conveniencies to accommodate thoſe that deſire it, and require nothing for Diet, Lodging, or Medicines, till the Cure is performed. This being the propereſt Seaſon in the whole Year to Extirpate or root out all Diſtempers in the body.

I perform all Manual Operations, as the *Stone in the Bladder* or *Kidnies*, by cutting, or by particular Medicines, without cutting. I Recover and give Sight to the Blind, by taking away all *Films*, *Specks*, *Spots*, and by couching of *Cataracts*. I reſtore Sight in a moment. I cure *Hare-Lips* in 6 days. The *Cancer*, or *Noli me Tangere* in the Breaſt, or any other part of the Body.

I cure the *Rickets* in young Children, and make the *Lame* and *Bed-rid* to walk. I fortifie the cold Nature of Men and Women, and make the latter capable of Conception.

I have alſo a rare Art to cure ſuch as cannot *hold their Water*. I cure *Deafneſs*, if curable. I cure *Vomiting*, *Riſing of the Vapours*, *pain in the Milt*, *Stitches in the Side*, and all *Scorbutick Diſtempers*. I cure *Ruptures* or *Broken Bellies*, either in Men, Women, or Children.

*** My wonderful *Eye-Water*, fam'd thoughout the City for ſtrengthning and reſtoring decayed Sight: You may have from *Five Shillings* the Bottle, to what Price you pleaſe.

☞ As I have a great Secret to help Conception, ſo I have a powerful Medicine to prevent Miſcarriages in Women, tho' they have Miſcarried 6 or 7 times, as can be teſtifi'd by ſeveral *Perſons of Quality*.

I give my Judgment upon *Urine* in all *Diſtempers*.

I could mention Hundreds of Patients that I have cured; but this being but a ſmall Bill, I have omitted 'em: And make no doubt, but this Famous City is ſufficiently ſatisfy'd in the Ability and Care of

Your Friend and Servant,

Cornelius à Tilburg.

A Present and Effectual Remedy for the TOOTH ACH.

AS the many and Insignificant *Preparations* which have hitherto been expos'd have evidently prov'd ineffectual, so I question not but 'twill be somewhat difficult to evince the World, that an Effectual one is at last found out. The Experience I have had of this upon Thousands, does at length persuade me to believe it Infallible, even in the most violent *Pain*, whether it proceed from *Rotten Teeth*, *Stumps*, *Worms*, &c.

It performs the Cure after such an excellent Method, and is so innocent and safe a Composition, that the Nicest Lady may use it without Offence.

☞ That incomparable *Water*, which, by Experience, is found to be the only effectual Remedy in curing the *Scurvy* in the *Mouth*, cleansing the

Teeth and *Gums* from all *Filthineſs* and *Putrefaction*; is very beneficial in *Rotting, Decaying Teeth*, faſtens *Looſe* ones, cauſes a *ſweet Breath*, and totally deſtroys thoſe little *Worms* that breed in the *Root* of the *Teeth*, which frequently are the cauſe of the *Tooth-Ach*. 'Tis alſo good to Whiten the *Teeth*.

Theſe Remedies never loſe their Virtue.

At the Angel *and* Crown *in* Baſing-lane, *being the Second Turning on the Left Hand in* Bread-ſtreet *from* Cheap ſide,

LIves a *Phyſician*, a Graduate in the Univerſity of *Oxford*, and a Member of the College of Phyſicians in *London*; who has a Pill prepared with wholſom Ingredients, and is of [illegible] great Virtue, that it ought not to be concealed, when ſo many Dangerous and *Stopping* Medicines are daily uſed for the *French Diſeaſe*. For this Pill cures the *French Diſeaſe* and *Running of the Reins* ſafely, without leaving any ill Dregs in the Body, and relieves all the Parts and Senſes, when they have formerly ſuffered Damage by poyſonous Medicines and the uſe of *Mercury*; and *certainly prevents the ſinking of the Noſe, and loſing the Palate.*

At Mr. *Brett*'s, an Apothecary, at the Upper-end of *Preſtcot-Street*, in *Goodmans-Fields*, *London*,

Liveth a Chirurgion,

WHO infallibly *Cures* all ſorts of Squint, or Blear Eyes, in a ſhort time, without Pain or Danger, in either Age or Infancy, tho' of long *Continuance*; which ſaid Infirmity, very much Prejudices the Sight, and Disfigures the Beauty of the Perſon. Tho this Deformity happens by *Convulſions*, or contracted by Habit, or any other Accident whatſoever, he performs the *Cure*; and that too with ſuch Eaſie, Safe, and Inoffenſive Medicines, that a Child of Twelve Months old, may receive the Benefit without the leaſt Uneaſineſs. He not only reduces their Eyes to a regular Motion, but alſo Strengthens the Opticks, and improves the Sight to a far greater Perfection He is always at Home in a Forenoon, to attend on his other Buſineſs in Phyſick and *Chirurgery*, and every Afternoon is at Leiſure to wait on thoſe that ſhall have occaſion for him, at their own Houſes.

The Sick may have Advice for nothing.

THough the World is daily peſter'd by unskilful Pretenders to Phyſick, who infatuate the People with their Printed Papers, wherein they pretend to perform Matters beyond Reaſon, as well as their own Capacities; yet it ought not to render the Skilful and Judicious unworthy of eſteem, though they make themſelves known by Printed Bills, after the ſame manner.

There is a Gentleman lately come from beyond the Seas, who has made Phyſick his Study and Practice in moſt parts of *Chriſtendom* for many Years; in which time by the Bleſſing of God, he has diſcover'd ſome Secrets in Medicine, in the uſe and application of which, he never fails to be ſucceſsful.

He undertakes to cure any Perſon of the *Dropſy*, though left off by others, or of never ſo long a ſtanding, in the ſpace of three Weeks, without Tapping, or obliging the Patient to undergo any manner of uneaſineſs. He has an infallible Remedy (under God) for all ſorts of *Agues*; let them be of what ſtanding or continuance ſoever, he will ingage to cure them at the third Fit; they ſhall after once taking of the Medicine, find a Declination in the firſt following Fit, and an abſolute Cure at the third. He likewiſe is ſo ſucceſsful in the Cure of the *Tiſick*, that let it ſpring from what cauſe ſoever, he can aſſure (with the Bleſſing of God) to cure them in a very ſhort time, though they were born with it. He has likewiſe a Cordial prepared for Children, for the Prevention as well as Remedy of all ſorts of *Convulſions* in the Bowels; being alſo very good to be given in any other Sickneſs, but excellent in this. He has alſo an extraordinary good PILL, which infallibly cures the Twiſting of the Guts, by which he has done many marvellous Cures, never failing of ſo effectual an Operation as to diſcharge the Body of thoſe coſtive Crudities which are the occaſion of the Guts twiſting. He fails not to cure all other Diſtempers with as much expedition, and as reaſonable as can be poſſibly expected.

He lives in *Broad-ſtreet*, near *London-Wall*, at the Sign of the Hand and Golden-Hammer: His Hours are from Nine till Twelve in the Morning, and from Three till Eight in the Afternoon.

This Diſtemper if neglected will produce a far Worſe, as *Chancres*, *Buboes*, continual Pains in ſeveral parts of the Body; eſpecially the *Shoulders*, *Legs* and *Shin-bones*, and that chiefly at Night. It will likewiſe cauſe the party to Break out in many places of the Body, chiefly in the Head and Privities, with a Dulneſs, Wearineſs, and ſuch a general Indiſpoſition of the whole Body, that the Patient doth not know how to expreſs it, or what he aileth. All theſe Diſtempers and Simptoms, he doth promiſe with the Aſſiſtance of Almighty God, to Cure, as Honeſtly, and at as reaſonable Rates as the degree of the Diſeaſe and other circumſtances will permit: the Publiſher hereof being much a Stranger in theſe Parts, and ſo void of Acquaintance: and having lately taken up his Reſidence in the place above mentioned, hath taken this way of making himſelf and his Qualifications known to the World. OR,

Hope and Help for the Short-breath'd, Conſumptive, &c. By a precious *Lung Balm*, or *Balſamick Syrup* for the *Breaſt* and *Lungs*, and *Pectoral Lozenges* for the ſame,

THan which, there is nothing in the whole *Series* of Medicine more directly appropriate, or more *kindly* and *effectually* operative upon all the parts contain'd in the Capacity of the Breaſt, and *Organs* of *Reſpiration*. They eaſe the *difficult*, and enlarge the *ſtraitned* Breath. They Cure *Conſumptions*, and even *Ulcered Lungs*; Inveterate *Coughs*, which moleſt the neceſſary *Repoſe* of the Night, and *Buſineſs* of the Day. They are an admirable Remedy for *Pluriſies*, and all *Pains* and *Stitches* in the Sides. They help the *Spaſmodick Cough* (vulgarly call'd the *Chin Cough*) in Children. They wonderfully prevail againſt *ſpitting* of *Blood*, and *purulent* corrupt *Matter*, which often waſte the whole Body even to a *Skeleton*. They intercept and take off thin *Rheums* and *Diſtillations* which fall upon the *Lungs* and *Throat*, help *Hoarſneſs* and *Wheezing*. And, in a word, they are the moſt ſovereign *Remedy* for whatſoever (either in *matter* or *quality*) do annoy or diſeaſe the *Lungs* or *Breaſt*.

The Uſes are as follow.

The one is your *Guard* in the *Night*, the other your *Companion* in the Day [illegible] of the *Lung Balm* two Spoonfuls when you go to Bed; [illegible] *Conſtitution* may take three or four, a *Child* one, [illegible] quarter of a Spoonful. The *Lozenges* you muſt have ever with you [illegible] take them very often, and let them diſſolve in your Mouth, and ſwallow them as they diſſolve. Thus by this eaſie and conſtant uſe of the two great *Reſtoratives*, all the aforeſaid Diſeaſes are kept under, and by degrees wholly vanquiſhed, and the languiſhing Body findeth in them relief and ſtrength.

AN ADVERTISEMENT,

Concerning that Excellent Pill,

Of the Late Eminent and Worthy

Doctor Trigg,

Of *Tower-Wharf*, called by him,

The Golden VATICAN-PILL,

Famous for the Cure of moſt Diſeaſes in either *Sex*.

Reader, Be not ſo injurious to thy Self, as preſently to commit this Paper to the Worſt of Offices; it deſigns thy Good, therefore firſt Read (three Minutes performs the Task) after which, uſe thy diſcretion.

THis excellent Medicine the Dr. made his Refuge, for the good of his Patient, in the moſt Eminent danger that could befal him, and which proved ſo ſucceſsful in Curing; that it raiſed his Repute to that height as Rendered him the Envy, and procured him the Hate of the moſt Eminent Practitioners (a Truth ſo well known, that it needs no proof;) Though I muſt confeſs he did not always Adminiſter it as a Pill.

This as his own Manuſcript bears witneſs, he Eſteemed and found moſt Eminent, in the Cure of the *Scurvey*, *Dropſie Jaundies*, *Worms of all* kinds; all Diſeaſes of the *Breaſt* and *Lungs*; all Infirmities proceeding from Putrifaction; all Obſtructions of the *Liver*, *Spleen Meſentery* and *Pancreas*; all violent Pains in the *Head*; all Gripings in the *Guts*; Strengthens the *Stomach*, hinders Indigeſtions, from which Originally ſprings moſt Diſeaſes in our Bodies; Purges the whole Maſs of Blood, Corrects all Crudities, which are the True and Natural Parents of all Rhumatiſms, and the *Gout* it ſelf: Effectually carries off thoſe Dregs left in moſt Bodies, after the ſuppoſed Cure of the *Ague*, which if Continued would prove worſe than the *Ague* it ſelf. It is no leſs powerful to prevent the Ill Effects of Large and late Evenings Draughts, carrying off all that's hurtful to Nature.

And that too, with that gentleneſs, and in ſo ſmall a Doſe, that no publick Medicine doth the like, without giving the leaſt offence to the *Stomach*, Griping the *Bowels*, or hindering the leaſt Buſineſs.

Theſe and many more Vertues, he from known Experience (againſt which *Ariſtotle* ſays, no Argument ought to be Admitted) Aſcribed to it, as may be ſeen at Large in the Book given with the Pills, which Book is to be had *gratis*, at the places where the Pill is Sold.

This moſt Excellent PILL is a Cheap Medicine, Small in its Doſe, Certain and Gentle in its Operation, and Durable in its Subſtance.

I. It's a Cheap Medicine, for that Twenty of them coſt but Two Shillings, and Half the Number Half the Price.

II. Small in its Doſe, for that Two of theſe PILLS are enough to be taken at a time, in the moſt ordinary Conſtitutions.

III.

III. Certain and Gentle in its Operation, for that (contrary to moſt other Medicines) it never offends the Stomach by cauſing Sickneſs, nor afflicts the Bowels with violent Gripings, and turbulent Purgations, but operates with that Gentleneſs, (and yet with certainty) as is almoſt inviſible and inſenſible, leaving the Patient always at liberty to follow his occaſions without the leaſt interruption; and which is further to be noted, never leaves the Patient's Body bound, after its Operation is over.

IV. Durable in its Subſtance, for that it will keep its Virtue many years, even the Age of Man. It may be conveyed to any Plantation, without the leaſt danger of Decay.

Theſe Pills are made up in Tin-Boxes, and ſealed with the Doctor's own Seal, obtained from his Widow for that purpoſe; to teſtifie that this is no Counterfeit, but the Right Golden Vatican Pill.

A friendly and ſeaſonable Advertiſement concerning the Dog-days, by Nath. Merry Philo-Chim.

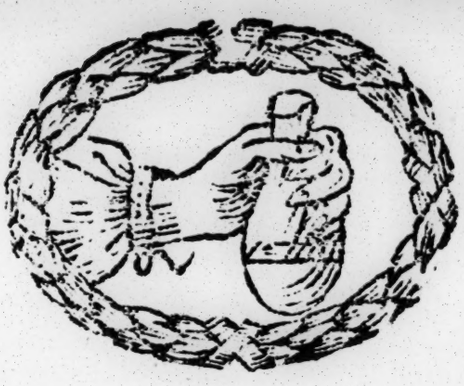

IN regard there are many that periſh in and about this City, *&c.* through an evil Cuſtom, ariſing from a falſe Opinion, *That it is not ſafe to take Phyſick in the Extreams of Heat and Cold, or in the Dog days*; and ſome exclude Old People, Women with-child and Little Children, from the uſe of Medicine; which is as much as to ſay, That God hath ordained no Medicine for ſuch Times and ſuch Ages, which would be abſurd to imagine, ſeeing we know there is no Time, Age, nor Diſeaſe, exempted from proper, homogenial, and eff. ctual Means (with Gods bleſſing) only againſt Death there is no Medicine, the time of which to us is uncertain. From the aforeſaid Miſtakes many labour under the tyranny of their Diſeaſes, till the Cataſtrophe end in Death (before the time come which they have alotted for their Cure) which might by timely and ſuitable Remedies be prevented. It's granted

pro confeſſo, that there is a ſort of *Dogmatical Medicines* that is unfit to be exhibited in thoſe times, and are not innocent at any time, being impregnated with venemous beams, which by their virulent hoſtility invade the Vital Oeconomy of the Body. But you may have Archeal or Vital Medicines, truly adapted for all times; being diveſted of their Crudities and Heterogene Qualities, by a true ſeparation of the Pure from the Impure, and impregnated with beams of Light, which give their influence and refreſhing glances upon the Vital Faculties, expels Venoms, alters Ferments; co-unites with Nature, and reunites its powers to their due Oeconomy: and ſuch Medicines being moſt natural and moſt powerful in the moſt deplorable Diſeaſes, being timely taken are moſt effectual, and are no more to be omitted at any time than Foods; and are altogether as ſafe.

Such Medicines I have alwayes by me faithfully prepared by my own hands. which you may have of me at reaſonable rates, at the *Star* in *Bow-lane*, next door but one to the *Half Moon Court*. My hours are from 8 in the Morning till 6 in the Evening.

An Approved Physician of above twenty five Years Practice, by the advantage of so long Experience in this City, you cannot but think me a Person capable of composing Medicines to perfect the worst of Cures: The Operation of which being so excellent by Stool and Urine, do effectually cleanse the whole Body, which undeniably is the most secure and certain way of curing the Running of the Reins, or Issue from the Yard, with Heat of Urine, which may be got by a Strain, or by Weakness, as well as by Women, (quickly Cured) where the Issue or Running is foul, by a venemous Matter attracted, with scalding pains in making Water, pricking and painful standing of the Yard, these Medicines Cure effectually, leaving no Relicks or Dregs behind: but being stopt before a due Cleansing of the Parts affected, by the poysonous use of *Mercury*, with other irregular Medicines, too frequently ariseth Swellings and Soreness in the Groin, Cods, and Yard, *&c.* and often proves destructive by infecting the Body in general with the POX; All Pains and Scabs in the Head, Face, or other Parts, Ulcer in the Throat, Palate, or Nose, or any Clap whatsoever, are Cured with that great Success, by the use of my Never-failing Medicines, that all the Heat of Urine is immediately abated, the poysonous Cause throughly cleansed, and the great danger of the POX assuredly prevented, with that ease and safety (Directions observed) that the Patient may follow his Occasions without danger of Relapse, as hath been throughly proved, to the great Satisfaction of Thousands of Persons.

OF a Powder which is a moſt ſafe and ſpeedy help for the **Stone** and **Gravel**, and thoſe Miſeries which attend them, as pain in the *Back*, ſtoppage of *Urine*, *Cholick*, *&c.* of which, in ſhort, take this Impartial Account.

In the extreameſt Fit of the *Stone* or *Gravel*, it takes off all pain in an hour or two's time; procuring freedom of *Urine*, and being duly continued, it either diſſolves the *Stone* into a Slime, or brings it away in ſmall Fragments; it alſo preſently eaſeth the *Cholick*, and clears the *Kidneys* of *Gravel*.

It is indeed a Medicine of great Efficacy, and of a moſt gentle and friendly Quality, without any *Stupefaction*, *Corroſivety*, or *Hoſtility* to *Nature*: And from the Experience of many Years, I can faithfully recommend it for an effectual Remedy in theſe Diſeaſes, having ever found it to anſwer expectation when duly uſed.

But for ſuch as are ſcrupulous of any farther Charge than may ſerve their preſent neceſſity, I dare affirm, there is nothing more ſpeedy to give them Relief; and be it for that only, it is ſufficiently worth their Expenſe.

But thoſe that are deſirous of Cure, and to that end will continue the uſe of it, (with God's Bleſſing) may obtain their deſire in ſhort time, and need not be expoſed to the hazard of Cutting, which often proves more fatal than the Diſeaſe.

The price of this Powder is Six-pence a Doſe, *and is to be had at my Houſe in* New-Queen-Street, *the third Door from* Windmil-Street, *above the* Hay-Market.

The Gentlewoman who lived in *Red-Lyon-Court*, is now removed to *Racket-Court* near *Fleet-bridge*, the third Door on the Right-hand,

WHo hath a moſt excellent *Waſh* to Beautifie the Face, as many of the greateſt Quality can teſtifie: Its Virtue is to take out all manner of Wrinckles, Freckles, Pimples, Redneſs, Morphew, Sunburn, Yellowneſs, or any other accident, cauſed too often by Mercurial Poyſonous Waſhes: It alſo plumps and ſoftens the Skin, making it ſmooth and tender as a ſucking Child. In a word, the Young it keeps always ſo, and the old it makes appear fair and Young even to a Miracle, there is nothing of Paint relating to it, neither hath any Perſon the ſecret but my ſelf, having (with much difficulty) obtained it of a great Lady at *Paris*, which is now dead, who ſold it there to the Queen and Court for above Twenty thouſand Piſtols in one Year. You may have from half a Crown to five Pounds the Bottle. She can furniſh you with all ſorts of delicate Pomatums, White pots that cannot be compared with, and alſo an admirable Powder for the Teeth, which makes them as white as Snow, & a Water to waſh the Gums, which preſerves from all *Scorbutical Humours*, & cures where it is already come. She has alſo an admirable Spirit for the *Scurvy*, which being taken one Spoonful in a Morning, and another at Night, certainly cures it, tho' the Patient were broke out all in Blotches, and never ſo far gone. Another excellent Remedy againſt that cruel Diſtemper called the *Stone*, and Ulceration of the *Kidneys*, and a moſt pleaſant Diet drink which cures the worſt of *Conſumptions*, tho' the Patient have been left off by others in a Month or ſix Weeks time at fartheſt. She has alſo great skill in all manner of ſore Eyes, or any cold or hot Rheum, cauſed by the *Small-pox* curing the black or white *Cataracts*, tho the Patient have been ſtark blind. And alſo a moſt delicate Oyntment to anoint the Face ſo ſoon as the *Small pox*, begins to dry, which certainly prevents all Scars or Pits, as alſo a moſt excellent Secret to prevent Hair from falling, cauſing it to grow where it is wanting in any part of the Head, and can alter any Red or Gray Hair to a moſt delicate light or dark Brown which will continues for ever without any ſoil or ſmooting. She alſo ſhapes the Eye brows, taking off the uneven Hair, and making them perfectly beautiful, without any pain, and makes low Foreheads as high as you pleaſe, taking off the hair ſo that it ſhall never come again. You may have in the ſame Houſe all manner of Cordial waters, and a moſt delicate Paſt to ſmooth and whiten the hands, with a curious red Pomatum to plump and colour the Lips, which keeps them all the Winter from chopping, and a Plaiſter to take off Hair from any part of the Body. She cures alſo any ſorts of *Agues*, removing the cauſe, ſo that the Patient ſhall never need to fear a Relapſe, but will be more healthful all their Life after; with ſeveral other rare Secrets in Phyſick, not fit here to mention; which if any perſon deſire to be ſatisfied in they may ſpeak with her every Day in the Week, from 10 in the Morning till 8 at Night. She has alſo an excellent Remedy for Barrenneſs in VVomen.

In *Petty-France Weſtminſter, at a houſe with a black dore* and a Red Knocker, between the Sign of the *Roſe* and *Crown* and *Jacobs-well*, is a *German* who hath a Powder which with the bleſſing of God upon it, certainly cures the Stone, and hath in thoſe that have deſigned to be cut for it: it wonderfully diſſolves great Stones in the Kidnies and Blader, and brings them away by Urine, with much eaſe and ſafety, as many in and about this City to their great comfort can, and will ſufficiently teſtifie. This Powder, will keep its Virtue, by Sea, or Land, many years.

He likewiſe Infallibly cures the Rickets (if curable) otherwiſe he will not undertake them, and ſince many pretenders in and about this City, have by Irregular Methods deceiv'd people of their Mony, without the leaſt performance (the too frequent Practices whereof are great pity.) If any perſon of known Integrity will affirm that upon following their directions the cure is not perfected they ſhall have their Mony returned Therefore be not unwilling to come for help but ſuſpend your Judgment till you have try'd, and then ſpeak as you find.

WHereas formerly the Sick could have advice (at the *Angel* and *Crown* in *King. Street* near *Cheapside*) in the afternoons only. Now for the greater eaſe and benefit of Patients, there will be conſtant attendance there every day from nine in the morning 'till twelve, and from two in the afternoon 'till ſix.

Perſons of all ranks may have advice on ſuch terms as are ſuitable to their abilities, they themſelves being judges, nothing having been at any time peremptorily demanded of any one of thoſe many thouſands that have apply'd themſelves for advice.

The medicines are faithfully prepar'd and diſpenced to the Poor at very low rates, and to them advice is freely imparted for nothing.

It is well known that in this Kingdom is Living an Experienc'd and able Physitian Dr. Peter Maris, *who by the Blessing of God has in his Travels through five Kingdoms done several all miraculous Cures in the secrets of Nature, and many Cures here in* London *since his coming over when left by others; He removes or prevents all Diseases and Distempers incident to the Bodies of Mankind.*

I Have often with good success remov'd these Distempers following, and others too tedious here to name, *viz.* Dropsies, Rumatism, and Consumptions, Agues, and Feavours, Black and yellow Jaundice, All Fainting Swouning and Convulsion-fits, Chollick, Stone and Gravell, Excessive Vomiting, All violent pains and diseases of the Head, rising of vapours, foulness of Stomach, ill digestion, Scurvey, Scabs and Itch, Green sickness and other distempers peculiar to Women.

As also all distempers in the Eyes, all violent *Rhumes*, and several sorts of *Cataracts*, which I help in a quarter of an hour & restore Sight in a moment. I do not put in my bills the names of those whom I have cured (as many do) but before you come under my hands, I will give satisfaction, what miraculous cures I have done in the Eyes here in *London*.

I perfectly cure the *Morbus Gallicus*, or *French Pox*; therefore I kindly persuade you, that you would be careful of your own health, now being the best time of the whole year; this Malady being so various in all its symptoms, and lodgeth sometimes in the Head, Shoulders, Arms, or Legs, *&c*, so that you may go under a lingering Captivity for a Twelve-month, or longer, before you know your own oppressor; therefore as soon as

you perceive theſe marks, neglect no time, I will prevent the evil from breaking forth, and reſtore your miſery to perfect Health.

Thoſe therefore that have receiv'd any hurt or harm, need to take dilligent care how the danger doth appear, *viz.* by pricking pains in making Water, Running of the Reins, ſwelling of the Cods or Groin, Gleeting, Buboes, Ulcers in the Throat or Palat, Scabs in the face, *&c.* all which are forerunners of the *Pox*, and If not well and ſpeedily cured, will certainly turn to that Miſerable *Alamode* Diſeaſe.

Let all thoſe who languiſh under that Miſerable diſtemper (the *Pox*) not be daunted, for tho it were got into your Bones and Marrow, and you left of by Ignorant Pretenders who oftener ſpoil then cure, I will ſo gently and perfectly cure you that you ſhall be as ſound as a new born child, and never in danger of a Relapſe, and ſo private that no perſon; nay the Wife or Husband ſhall not be able to perceive your being in Cure. And if any Perſons find themſelves not able to take Medicines inwardly, I have a new Invention to Cure them in a ſhort time by an outward Smoak, never before known in *England*. And for better Aſſurance, if I do not cure you according to my Promiſe I will give Bond, or other Security to reſtore your money Double.

If any one ſhould chance to have it ſo far gone, and could not be cured going and ſtanding, I have Extraordinary conveniencies in my own houſe for the Entertainment of any Patient, if neceſſity requires it.

But if any one lives diſtant from this place, they need not come up to me, for I can give them ſuch Illuſtrious Medicines and infallible directions, that they may cure themſelves, except they cannot go and ſtand with their illneſs.

If any Perſon that is Ill ſend their Urine to me, I will ſatisfy them of the Nature of their diſtemper, and give them Remedies for the ſame.

I have a ſpeciall Remedy alſo for *Broken-Bellies*, or *Ruptures*; for any Perſons either Men, Women or Children, particularly at this time of the year, and a perfect Cure for it.

My Lodging is in High-Holborn, *between* Great *and* Little Turnſtile, *next doar to Old King* Charles's *Head at the Two white Poſts and Golden-Ball.*

SAlvator Winter, an *Italian* of the City of *Naples*, Aged 98 Years, Yet by the Blessing of God, finds himself in health, and as strong as any one of Fifty, as to the Sensitive part: Which first he attributes to God, and then to his *Elixir Vitæ*, which he alwayes carries in his pocket adyes, and at Night under his pillow; And when he finds himself distemper'd, he taketh a Spoonful or two, according as need requireth. First, It is good for all sorts of Catarrhs, pains in the Head, Lethargy, any sort of Sore Eyes, for dimness of sight, hardness of Hearing, stinking Breath, Scurvy in the Mouth or any other part of the body, Tooth-ach, sore Throat, for all sorts of Coughs, old or new, Consumption, Weakness, and pains in the Back, Oppression of the Heart, Obstructions of the Stomach, Running of the Reins, *French POX*, stoppage of the Urine, Palsies, *Sciatica*, all *Burnings* and *Scaldings*, the Gout, the Stone in the Reins or Bladder, *Worms* in Men, Women and Children of any sort whatsoever, Fainting or

Falling

Falling Fits, Fits of the Mother, Convulsion Fits, all Rotten ulcerated *Sores*, and *Gangrenes*, although they be never so bad, and have been given over by others, are Cured by me.

Small Pox, *Measles*, *Plague*. It is a present Remedy for the *Griping of the Guts*, Feavers of all sorts, Dropsies, Tympany; *Ruptures* in Old or Young, which have been given over by many, have been cured by me. And in brief, for all other Infirmities incident to Humane Bodies, as well Internal as External; for this *Elixir* hath such force and vigour, that if it were possible it would revive the dead, were it not a *Secret* reserved to God only.

In the Use of this *Soveraign Remedy*, it may seem hot inwardly, or outwardly being applyed, which occasions some persons to say it is too hot; but I will assure you, it is cooling and refreshing in a hot distemper, and warmeth in a cold; having by my long Study and daily Experience, reduced it into such a *Methodical* and *Philosophical* Order, there being *Sixty two ingredients* in the Composition of it, one correcting the other, and in the Circulation they are so exactly tempered, that it makes a most *Incomparable Liquor*: so that it is a general Cure for all Diseases incident to Men, Women and Children, using it according to the Printed Book I give with it.

I need not say much in the praise of it, there being Thousands in divers parts of *Europe*, and particularly of this Kingdome can testifie what *Miraculous Cures* it hath perform'd to great Admiration. For brevity sake, I shall only produce one, The *Most Learned and Honourable*, of *Worthy Memory*, Sir *Kenelm Digby* did highly Commend it, and styling it in his Book, *The Miraculous* Elrxir Vitæ, *which never doth harm, but assuredly doth good.* The Occasion of setting forth these Bills, is, Because a general Report goes, *That I am dead being of so great an Age:* But such Persons as have occasion to make use of me, shall find me at my House at the Sign of St. *Paul's* Head in *New Kings-street*, between *Long-Acre* and St. *Giles in the Fields*, near *Covent-Garden*, *London*.

In Holbourn *over against* Southampton-Square, *at the* Coffin *and* Child, *against the* Watch-house, *next Door to the* Suger-Loaf *and* Role, *where you will see the* Golden-Ball *hanging over the Passage Door, liveth* Anne Laverenst *a* German *Gentlewoman.*

BEing but very lately arriv'd in this Kingdom, and so consequently a Stranger, I could not propose a better method to make my self known, than by this Printed Paper, without which; I might for some Years have remained unknown to you; and so consequently incapable of imploying that Talant which Heaven hath bestowed on me, for all your benefits and good. My Parents before me were so far Skill'd in the Art and Knowledge of Physick that they have remov'd the most dangerous Distempers, and have seldom or never fail'd wholsomly to assist Nature in the discharge of her duty. From them I receiv'd the great Knowledge and Experience that I now profess, and question not but (by the Blessing of God) I shall be able to Cure any Distemper incident to Woman-kind: A few of which I shall here give you an Account.

First, I cure all Women or Maids of the Suffocation or rising of the Mother, which may be occasioned through any rotten Substance, or through a Corruption in Nature, or by an Imposthumation in the Womb, which may be easily discern'd, for there oftentimes proceeds a great Dizziness in the head, Anguish of Heart, an Inclination to Vomit, much rising and tumbling in the Belly, from whence oftentimes proceeds very fatal Accidents, as Barrenness, Impostumes, Inflamations of the Lungs, an unusual Paleness, and shivering in the Limbs, Collick, Strangulion; Obstructions, Wringings, and Tertians of the Guts, *&c.*

Secondly, I cure out-sinking, down-falling, out-hanging of the Matrix, that is when the Ligaments or Strings that bind the mother fast to the body, removes from its place either by bearing or Childbed, violent [illegible] heavy

in 14 or 20 days, I artificially return to its proper place, which I challenge any Perſon to do but my ſelf.

I alſo cure Women or Maids that are ſubject to Vomiting, and take from them, the quivering and ſhaking, occaſion'd by the ſame Infirmity. I alſo cure hard Bellies, ſwell'd as with Child, or as if troubl'd with the Dropſie. There is yet another ſort of Sickneſs, when the Melancholly is not cleans'd and taken away, it occaſions grief and heavy thoughts, nay ſometimes Ragings, and an ill mind towards themſelves and others. I cure the *Piles* or *Hemorhoids* in the Fundament, all Warts, Excreſcences, or ſurperfluous fleſh in the mouth of the Bladder or womb.

I alſo cure Ruptures or Burſten-Bellies either in Women or Children; nay though they have had it many years. I take the Stone from Women and Maids, without cutting; which no Woman (except my Mother) did before me. I have alſo an approv'd Remedy for a pain in the Loyns, or ſmall of the Back, whether proceeding from Gravel or Child-bearing, As alſo a pain in making water, or thoſe that cannot hold their water, but are troubled with a conſtant leaking or droping as they go, let it proceed from what cauſe it will. I drive away all Gouty pains in the Joynts; nay tho' your Arms and Legs were grown crooked through a contraction, or ſinking of the Sinews; nay though you have kept your Bed for many years, by the bleſſing of God, I don't doubt but to relieve you. I cure many ſad Accidents in the Eyes, as Spots, Specks, Pearls, Water-ſinkings, hot and violent *Rheums*, and many more too tedious here to relate. I alſo cure the Morbus Gallicus or French Pox, with all its Symptoms, and dangerous Effects, with eaſe ſpeed, and ſecreſie; nay, tho tamper'd with and almoſt ruin'd by others I dare preſume few has arriv'd to the perfection in this Cure as my ſelf. There are many other Cures in Women, I ſhall conclude with this, that I correct all Vices of the *Matrix*, and refreſh all the weak Faculties of the Body, by this means rendring a Woman capable of Conception, that before was Barren, this is the beſt time of the year for all cures.

Thoſe that are not able to come to me, let them but ſend their Urine, and on ſight thereof, I will reſolve them what their Diſtemper is, and if cureable will perform it at a reaſonable rate, but if not cureable, will plainly and honeſtly tell them, that they may not be defrauded by others.

If any Perſons troubled with Diſtempers, whether through weakneſs, or that the nature of the Diſtemper requires a cloſe Confinement to their Chambers, if deſired they may be Lodg'd at my Houſe, and accomodated with all things neceſſary at a reaſonable Rate.

My *Hours are from Eight in the Morning till Twelve at Noon, and from Two till Nine at Night.*

Salvator Winter *Junior*, *The Exact and True Operator of the most Famous and Miraculous* Elixir Vitæ, *so well known and approved on for the Cures of Multitudes of this City of* London *and famous Kingdom of* England.

THis Noble *Elixir* being an excellent preventing and Life-preserving Remedy, be the Distemper never so Chronical: so speedy a Reviver of the Spirits, and Restorer of decayed Nature, that it vanquisheth whatever unnatural, destructive, and health-opposing Matter it shall meet with in the body of Man, be it from what cause or in what part soever; for it purifieth the whole body by its renovating quality and in short time radically extirpates and drives out the Disease, and in its place constitutes a healthful body, as hath been proved by many thousands in *England* and several famous Forraign Countreys and Cities where I have travelled. My Father aged 98 years, yet enjoys his perfect health, which, next to the blessing of God, he attributes to this *Elixir Vitæ*, having always a bottle of it in his pocket, drinking a spoonful thereof 4 or 5 times a day; snuffing it very strongly up his Nostrils, and bathing his Temples; thus by prevention, he fortifies his vital Spirits.

An

An infinite number of persons now observing the like Method, enjoy a wonderful Benefit, as preventing Distempers, restoring and preserving them in perfect Health: It curing all sorts of Catarrhs, pains in the Head, Lethargies, Apoplexies, Epilepsies, Convulsions, with all other Distempers that usually afflict the Head, as difficulty of Hearing, Noise in the Head and Ears; Diseases in the Eyes and Teeth: It is also effectual in opening all obstructions of the Stomach, Liver, and Spleen, expelling venoms offending the same: Curing Agues and Feavers of all sorts: Coughs old and new; Consumption, weakness and pains in the Back; Venereal Distempers, though never so virulent; stoppage of Urine, Palsies, Sciatica, the Gout, the Stone in the Reins and Bladder, Worms of all sorts in Men, Women and Children, Fainting and Falling Fits, Fits of the Mother, Rotten Ulcerated Sores, and Gangrene; Small Pox, Measles, Fluxes of all sorts, and a present Remedy for the *Griping of the Guts*, Dropsies, Timpany: And in brief for all other Infirmities incident to humane Bodies, as well Internal as External: For my *Elixir* hath such force and vigor, that it hath revived great Numbers of People supposed to be dead. This Sovereign Spirit may seem hot, being inwardly or outwardly applied, which has occasioned some to say it is too hot. But I assure you, there being 62 Ingredients in it, which so evenly correct each other, that it is cooling and refreshing in a hot Distemper, and warmeth in a cold: And which is worth your Notice, The most Learned and Honourable Sir *Kenelm Digby* did highly commend it to the World, Stiling it in his Book, *The miraculous Elixir Vitæ.*

JAMES WASSE, Senior,

Citizen and Surgeon of *LONDON.*

HAving had about Forty Years Experience of the Benefit of the following Medicine to the Bodies of Men, Women and Children, which Medicine

hath

have of late Years much Improv'd & Uſed in the Courſe of my Practice in and about the City of *London*, as alſo in places beyond the Seas; and being now Infirm by Age, and no tcapable of doing my Accuſtomed Service to Mankind, I am Retiring into the Country for my Health; and therefore I have Reſolved to Publiſh it.

The Virtues, Uſe, and Doſe of Waſſe's *ELIXIR.*

THIS Noble Medicine has been by the great Induſtry and Pains of the Author brought to that Perfection, that no Medicine hitherto made, has Anſwered the Ends of this Compoſition. It gives immediate Eaſe to ſuch as are Troubled with *Gravel* of any ſort, proceeding either from the *Bladder* or *Kidneys*; and this not by a forcible Diuretick quality, as is commonly uſed in ſuch Caſes, (which debilitates Nature, and is attended with other great Inconveniencies) but by a gentle Liquor, which removes the *Gravel* by degrees, and carries it thro' the Paſſages with the greateſt Eaſe.

This Spirit alſo brings away ſeveral ſorts of foulneſſes or Sediments, which ſometimes are Forerunners, ſometimes the Concomitants, and very often the Cauſes of *Gravel* and *Stone*. Theſe are brought away, and Perceived in the Urine in Forms reſembling fine Bags, ſome Stringy, ſome Swimming in the Urine, and ſome ſubſiding to the Bottom

Bottom of the Pot. Theſe are eaſily broken by Agitation, and diſſipated by Heat in a Urinal; and tho' theſe, not being Inveterate as the *Stone*, are not ſo much heeded, yet do they often fret the Urinary Paſſages, and very often breed Ulcers in the Bladder, if not timely removed; but they are eaſily diſlodged by this Noble Spirit, without Corroſion, and brought away in a few days time without Pain.

And tho' theſe foulneſſes are by the uſe of this Medicine in a great meaſure removed, and the Body reſtored to a good State of Health, yet upon taking Cold, or Irregularity in Meats and Drinks, &c. the ſame Indiſpoſition may again return, and then the ſame Medicine muſt be Repeated; for as long as the Slimy matter, and Subſtance continues in the Kidneys or Bladder, the Body will Labour under an Indiſpoſition.

When the Diſtemper is inveterate, and the large Stone, or Quantities of ſmaller Stones are lodg'd in the Neck of the Bladder, or fix'd in the Kidneys, the Medicine will not be ſo ſpeedily effectual as in other Caſes; for it will require ſome time firſt to diſſolve or diminiſh them, and afterwards to bring them away; for this Medicine diſſolving the Stone by gentle & eaſie degrees, & not by a violent force, the larger the Stones are, the longer they are in Diſſolution, and Paſſing the the Urinary Veſſels; and thoſe who are T bled with the Inveteracy of this Diſtemper, not think much to be ſome time under

ſince it is done with ſo much Eaſe, and in ſo effectual a manner.

This Excellent Elixir is not only prevalent in fore mentioned the Caſe, but alſo in the *Cholick*, by Ezpelling Wind, Correcting and Evacuating thoſe Bilious and Acrimonious Humours that are the Cauſes of this Painful and Dangerous Diſtemper.

By its inſenſible Penetration into the Joints of the Body, it frees the Limbs from the exquiſitely Painful Diſtempers of the *Gout*, and *Rheumatiſm*; for it is of ſuch a ſearching Virtue, that it will reach any Evil that has violently Seized the Limbs and Nerves, and will Co-operate with Nature to free the Body from any Diſtempers Generated therein. In the *Gout* and *Rheumatiſm*, when they have ſingly taken Poſſeſſion of the Body, they are in a ſhort time removed by this Medicine; but when they are accompanied with the *Stone*, and have more or leſs ſeized the Stomach, it requires a greater Time, and a Repeated Uſe of this Liquor.

It is an Antidote againſt all Contagious Diſtempers, either on Ship-Board or on Shore, cauſed by the Corruption of the Air, by bad Proviſions, or any means whatſoever. It is good in Calentures, and other Diſtempers incident to Sea-faring Men, and ſuch as reſide in our Foreign Plantations. It procures Reſt, and yet there is no Opiate in its Compoſition, and in an extraordinary

dinary manner extinguiſhes Thirſt: It will not offend the weakeſt Stomach; nor be Unpleaſant to the moſt curious Pallate. It cheers the Heart, and ſupports the Spirits from ſinking. It not only removes the aforeſaid Diſtempers, but is a great Preſervative to Health.

It is a great Purifier of the Blood. It is good in Surfeits, and proper to remove ſudden *Colds*. It is very Uſeful for Virgins Afflicted with Obſtructions, which are the Cauſe of continual Hectick Feavers, and produce a *Pale* and Unhealthy Countenance.

The DOSE is,

FOR a Grown Perſon two Spoonfulls at Night, going to Bed, and three in the Morning, in half a Pint of Small-Beer or Ale, two or three times a Week; but in extremity of pain in *Gout*, *Stone*, or *Cholick*, at any time of the Day or Night, encreaſing the Doſe to four or five large Spoonfuls. For Children in the Month, Troubled with *Convulſions*, occaſion'd by *Gripes*, from Ten to Twenty drops in a Spoonful or two of Small-Beer or Water, Sweetned with Sugar. For a Child from ſeven Years Old to Ten, a Childs Spoonful; and from Ten Years of Age and upward, a large Spoonful or two, according to their Age and Strength.

For Worms of all ſorts in Humane Bodies, to be

be taken in a greater or leſſer Quantity according to the Age and Conſtitution of the Patient.

For Agues, to be taken in its full Quantity three Fits Succeſſively.

For the Dry Gripes in the *Weſt-Indies*, to be taken in its full quantity Night and Morning, or oftner, till it Perfects the Cure.

Note, This Medicine being of a Spirituous Nature, and Refined from all Impurities, will retain its full Force and Vertue for many Years, and endure any Climate whatſoever, without impairing its Efficacious Operation, and therefore may be carried to the *Eaſt* as well as *Weſt-Indies*.

Price Three Shillings the Half Pint, with Printed Directions.

WHo by the bleſſing of God on his great Study, Travels and Experience, hath at laſt attain'd to that which many of our Forefathers of the ſame Profeſſion have ſought for, but never ſo compleatly found, as (God be praiſed) he hath, and has had wonderful Succeſs in the Cure of the Diſeaſes following, *viz.*

He cures Ruptures or broken-bellies, in Men, Women or Children infalliibly. He would not have you think he aims at high Prices, or makes it his buſineſs to get great ſtore of Money: No, in truth, he is none of thoſe; he will give you to underſtand his Terms, (which are very reaſonable) before he undertakes you, that you may not be cheated.

This is his Agreement with all his Patients that are afflicted with the aboveſaid Diſtempers; He takes no money for his Trouble or Medicines till a quarter of a Year after the Cure is perform'd, and they have left off their Truſſes or Bands: And then as a reward for the ſame, requires the ſum of Fourty ſhillings, for thoſe who are not able Thirty ſhillings. And for thoſe that have no money, and deſire it for Gods ſake, he will cure *Gratis*.

He carefully, and with great Expedition, cures all Internal and External Diſtempers; all Vapours, Giddineſs, or ſwiming of the Head, Fainting fits, Noiſe in the Ears, Deafneſs, Dropſie, Yellow-Jaundice, Scurvy, Rheumatiſms, cold flegmatick ſtomachs, windy and tedious Coughs, ſpitting of blood, flowing of the Gall, Melancholy, Madneſs, Pluriſie, Wind and Chollick, Palſie, all pains or aches of the limbs, or any part of the body, Lameneſs, ſhrinking or contraction of the Nerves, or ſinews, Bloody-flux, ſtoppage of Urine, and ſuch as cannot hold their Water, pains in making of Water, voding of blood ulcers in the Womb and bladder, together with many other Diſtempers not hitherto diſtinguiſh'd by Name. He hath cured ſuch when given over by others as incurable.

He likewiſe cureth Women and maids of many Infirmities; as the Green ſickneſs, ſtoppage or overflowing of the courſes of nature. He alſo helps the whites and weakneſs of the

back and other Distempers of Women. He hath a great secret to help Conception; likewise a powerful medicine to prevent miscarriage, although you have miscarried five or six times before.

He also cureth the *French-POX*, with all its Accidents, as the Running of the Reins, shankers, Bubo's or swellings in the Groin, after a new method, and in a short time, without baths or stoves, as also without *Mercury*, which many times prove destructive to the Patient. And for the satisfaction of all those who have been sporting in the Garden of *Venus*, and in seeking for Pleasure, have met with a *Clap* or *Gonorrhœa*, if they come to him, he promiseth either to cure them in 9 or 10 days, or will have nothing for his pains, which is as much as to say,

No Cure, No Money.

He cureth all Ulcers in the Throat and mouth, Palate and Nose, though never so bad, and left of as incurable by others.

He is also an excellent Oculist, able to cure, not only the Cataracts, but (by the blessing of God) restores them to sight, in a Quarter of an hour, who have been blind above Twenty Years, and perfectly cures them, if curable, in 8 or 9 days time at farthest.

He hath likewise an incomparable Eye-Water, for curing all distempers in the Eyes, and for strengthening and restoring the decaying sight of People of what age soever. You may have this excellent Water of him, from five shillings the bottle, to what price you please.

If any person, troubled with any Distemper whatsoever, incident to the body, will bring or send him their Urine, he will be very ready and willing to tell them, whether their Distempers be curable or not.

Therefore defer not the Time but come to him before it is too late, and your Distempers have taken too great Root, and then he doth not question but to Cure you, let your Distempers and Maladies be what they will.

He could mention Hundreds of Patients that he has cured, whose names he has here omitted; and make no doubt but this famous City is sufficiently satisfy'd in his Ability.

He is to be spoken with at the Sign of the *Crown* and *Golden-Ball* on *London-Bridge*, where is a free Entry next door to *London-Bridge* Coffee-House near St. *Magnus-Church*: without further Enquiry from 9 to 12 in the morning, and from 2 till 9 at night.

THere is lately arriv[illegible] this Kingdom, a Perſon, who by long Practice and Experience, hath attain'd to the Art of Printing of Calicoes and Linnen, for Gowns, Peticoats, Beds, Quilts, Window-Curtains, Aprons, or Childrens Frocks, in the Right and True *Indian* Stane; with ſuch during and laſting Colours, That no Perſon, by a true Method and Care in Waſhing, will or can impair.

I need not demonſtrate the many advantages that Perſons will receive by this manner of Printing; but let every Body be their own Judge of thoſe variety of Figures and Colours.

The Printing *French* Quilting for Peticoats, or large Works for the outſides of Beds, ſo nearly reſembling Stitching or Wrought Work, that moſt Perſons, at firſt ſight, ſhall take the ſame to be done with a Needle.

Alſo the Printing and Damasking Silks, Stuffs, Anterines, and Sattenets, either in Colours, or Flowers of Gold and Silver.

Likewiſe the Sprigging of Muſling or Ribons for ſhort Aprons; with variety of Borders either for upper or under Peticoats, Curiouſly Compos'd in ſo ſmall a Compaſs, that they are highly approv'd of by moſt Perſons.

Alſo Waſtcoats for Gentlemen, Printed upon Holland or fine Linnen, in the nature of Needle-work, which is both Beautiful and Serviceable.

If any Perſons living in the Country be deſirous to have any of the aforeſaid Works, let them but ſend what uſe they are for, ſhall have them well done, and return'd by the ſame Carrier, or by whom they ſhall order.

Note, *The true Method of Waſhing of Printed Calicoes, in proper Liquors, and Glaſing them, ſo as to preſerve them in their firſt Beauty and Luſtre, is perform'd next door but one to the* Dial *in* Fetter-Lane, *over againſt* New-ſtreet *end,*

A Remedy that Cures all Fevers in general, it never failing once in a Hundred inſtances, and of all that have fallen under my Care, I do declare, I never had one but what Recovered, which I am ſure no Practitioner in Phyſick, throughout *London*, can ſay the like. It cures the moſt Malignant or Spotted Fever, in a ſhort Time; they ſeldom keep Bed above four *Days*, intermitting Fevers or Agues, tho' of ſeveral Years continuance, *viz.* Quotidians, Tertians and Quartans, which Remedy cures tho' (the Quartan or Fourth Day Ague is) called the Scandal of the Phyſician.

For the Wind Colick in Bowels or Stomach, a Cordial Water which far exceeds all Medicines for pleaſantneſs and profitableneſs; but if it is a Billious Colick, which you will know by this not curing, then I have Pills will effect the Cure.

Papers of Powder for the Worms of all ſorts, which brings away the Slime that breeds them, with the Bags they are ſometimes inclos'd in. I ſhall give you a few Symptoms, by which you may know whether Old or Young are troubled with Worms, tho' the latter are ſeldom free. *viz.*, *Squeamiſhneſs*, *Vomitings*, a *Sower Breath*, *Teneſmus*; a *Swelling of the Belly*, and ſometimes a *Dog Appetite*, *Dry Coughs*, *Shiverings*, *Fevers*, theſe are a few Symptoms amongſt a great many.

Papers of Powders for the *Green Sickneſs*, or *White Fever*, (and all Obſtructions) which if not taken care of in Time, very often ends in a *Conſumption*. The *Green Sickneſs* or Obſtructions, are ſometimes occaſioned by Worms, as I have Experimentally found, therefore not to be cured but by them that can cure the former effectually.

Lately Arrived.

WHo has often with good Succeſs remov'd all Diſtempers Incident to Women kind, I could not propoſe a better Method to make my ſelf known, than by this Printed Paper, without which I might for ſome Years have remained unknown to you, and ſo conſequently incapable of of imploying that Talent which Heaven hath beſtow'd on me, for all your benefits and good. My Parents & Husband were ſo far Skill'd in the Art and knowledge of Phyſick, they have remov'd the moſt dangerous Diſtempers, and have ſeldom or never fail'd wholſomely to aſſiſt Nature in the diſcharge of her duty. From them I received the great Knowledge and Experience I profeſs and queſtion not, but (by the Bleſſing of God) I ſhall be able to cure any Diſtemper incident to Woman-kind: A few of which I ſhall here give you an Account.

Firſt, I cure all Women or Maids of the Suffocation or riſing of the Mother, which may be occaſioned through any rotten Subſtance, or through a corruption in Nature, or by an Impoſthumation in the Womb, which may eaſily be diſcern'd, for there oftentimes proceeds a great dizzineſs in the Head, anguiſh of Heart, an inclination to Vomit, much riſing and tumbling in the Belly, from whence oftentimes proceeds very fatal Accidents, as Barrenneſs, Impoſthumes, Inflammations of the Lungs, an unuſual Paleneſs, and ſhivering in the Limbs, Cholick, Strangury Obſtructions, Wringings, and Tertians of the Guts, *&c.*

Secondly, I cure out-ſinking, of the Mother, that is, when the Ligaments or Strings that bind the Mother faſt to the Body, removes from its place, occaſioned either by bearing of Children, violent Coughing, heavy work artificially return to its proper place before they go out of my Room, and Cure in 14 or 20 days, which I challenge any perſon to do but my ſelf.

I alſo cure Women or Maids that are ſubject to Vomiting, and take from them the quivering and ſhaking occaſion'd by the ſame Infirmity. I alſo cure hard Bellies ſwell'd as with Child, or as if troubl'd with the Dropſie. There is yet another ſort of Sickneſs, when the Melancholly is not cleans'd and taken away, which occaſions grief and heavy thoughts,

I alſo cure all Ruptures or Burſten-Bellies either in Women or Children; nay, though they have had it many years. I take the Stone from Women and Maids, without cutting, which no Woman (except my Mother) did before me. I have alſo an approv'd Remedy for a pain in the Loyns or ſmall of the Back, whether proceeding from Gravel or Child-bearing. As alſo a pain in making water, or thoſe that cannot hold their water, but are troubled with a conſtant leaking or dropping as they go, let it proceed from what cauſe it will. I drive away all Goury pains in the Joynts, nay, though your Arms and Legs were grown crooked through a contraction or ſinking of the Sinews, and though you have kept your Bed for many years, (by the bleſſing of God) I dont doubt but to relieve you. I cure many ſad Accidents in the Eyes; as Spots, Specks, Pearls, Water-ſinkings, hot and violent Rheums, and many more too tedious here to relate. I alſo cure the *Morbus Gallicus* or *French-Pox*, with all its Symptoms and dangerous Effects, with eaſe, ſpeed, and ſecreſie; nay, though tamper'd with and almoſt ruin'd by others. I dare preſume few have arriv'd to the perfection in this Cure as my ſelf. There are many other Cures incident to Women, but I ſhall conclude with this, That I correct all Vices of the *Matrix*, and refreſh all the weak Faculties of the Body, by this means rendring a Woman capable of Conception that before was Barren.

Thoſe that are not able to come to me, let them but ſend their Urine, and on ſight thereof, I will reſolve them what their Diſtemper is, and if curable, will perform it at a reaſonable rate, but if not curable, will plainly and honeſtly tell them, that they may not be defrauded by others. If there be occaſion for a private confinement, they may be accommodated, at my Houſe.

☞ If any Gentleman has any Diſtemper not fit to be diſcourſt of to a Woman, he may ſpeak to my Son, who hath practis'd Phyſick above Twenty Years with good ſucceſs. He hath great Experience in curing any Venerial and all other Diſtempers, and can accommodate with Diet and Lodging all the time of their cure. I deſire you to keep this Bill by you, by reaſon of my removal.

My Hours are from Eight in the Morning till Twelve at Noon, and from Two till Seven at Night.

The Sovereign Julep.

I drive away all Gouty Pains in the Joynts, nay, tho your Arms and Legs were grown crooked, or thro' contraction, or ſhrinking of the Sinews, nay, tho you have kept your Bed for many Years, by the Bleſſing of God, I don't doubt but to relieve you. I dare preſume few have arriv'd to the perfection in this Cure as my ſelf.

There are many other cures in women: I ſhall conclude with this, that I correct all Vices in the *Matrix*, and refreſh all the weak *Faculties* in the body: by this means rendering a Woman capable of conception that before was *Barren.*

I cure Out-hanging of the Matrix; that is, when the Ligaments, or Strings that bind the Mother faſt to the body, remove from their Place, occaſion'd either by bearing of children, violent *Coughing*, heavy work, in 14 or 16 days; I artificially return it to its proper place; which I challenge any *Perſon* to do but my ſelf.

Thoſe who are not able to come to me, let them ſend their Urin, and on ſight thereof, I will reſolve them what their Diſtemper is, and if curable will perform it at a reaſonable Rate; but if not curable, will plainly and honeſtly tell them, that they may not be defrauded by others.

for the benefit of the *New Hospital*, to be erected in *Dublin*.

By Authority of their Excellencies the Lords Justices of *Ireland*.

497

TO be drawn in the City of *Dublin* for 25000 *l.* according to the following Table, and to be performed with Balls after the manner of the *Greenwich* Adventure, which was adjudged by all to be the best method that ever was used to prevent fraud or deceit in the managers thereof, and gave the greatest satisfaction to all the Adventurers.

By the encouragement it has hitherto met with, there is no reason to doubt its being drawn full in *December* next without further delay.

The Undertaker hopes that no Adventurer will be discouraged, because it is to be drawn in *Ireland* for if it be objected, that the Undertaking being performed there, they cannot see it drawn, and the Trustees being strangers to them, they may doubt the fairness of the performance, and whether they may receive their Prizes, if so fortunate to get any: To obviate which, 'tis answered, That the Trustees are so well known by most Merchants in the 3 Kingdoms, to be persons of great Estates, and unquestionable Honour and Integrity, that there is no room to doubt their justice, nor have the *English* Adventurers so much reason to question its being done in *Ireland*, as the *Dutch*, the *French*, and other Foreigners, had those in *England*, who freely remitted great Summs to be adventured in that for *Greenwich* Hospital, and are now the greatest Adventurers in this, without questioning the credit of the Undertakers, or the fairness of the management; and 'tis certain, that not one Adventurer in an hundred, was ever present at the drawing of any in *England*, but depended on the justice of the Trustees.

They have, for further satisfaction, empowred one of the Undertakers of the *Greenwich* Adventure, to deposit such money as shall be received there, in the Bank of *England*, to answer the payment of their Prizes in *English* Money, who will also be present at the drawing thereof, in behalf of the *English* Adventurers, and will take care to send over corrected Lists in print of every days drawing, to be published in *London*, and engages to see the Prizes punctually paid at the Bank, as those were in the said *Greenwich* Adventure.

There being therefore no reason left to doubt of justice, all persons are desired to be expeditious in taking out the remainder of the Tickets, that the drawing may be effected accordingly.

Such as are willing to subscribe, may enter their Subscriptions at the Undertakers Office, at *Marcos Chappel* Porch *Cheapside*, near the Bank, at Mr *Harrisons* Goldsmith in *Cheapside*, and at Mr *Packles*, Notary Publick in *Popes Head Alley* in *Cornhil*, paying down only 2 *s.* in the pound, and keeping the rest in hand, till notice be given in the publick Papers of Drawing.

And for the convenience of all those that are so desirous to Adventure in Partnership, a certain quantity of Stock of Tickets that remain uncut are divided as following, *viz* Every 5 *s.* Ticket contained in the said quantity, is divided into 5 equal parts, which are made into small Tickets at 1 *s.* each. So that every one that takes out a single 1 *s.* Ticket, is entituled to a 5th part of the benefit that arises with the 5 *s.* Ticket, from which it was cut, as appears plainly by the Books of Tickets so divided as aforesaid, by which the advantage to each Adventurer is; That by taking out 10 single 1 *s.* Tickets, out of 10 several 5 *s.* Tickets he has a 5th share in all the benefits that arise in the said ten several 5 *s.* Tickets from which they were cut.

Note, That every Receiver is accountable to the Adventurers, for what Money he receives, till they pay the money into the Bank of *England*.

Stoughton's **Elixir Magnum**

497

☞ Pray Read this Bill thorough, there is something New added.

Stoma- chicum :

Or, The Great Cordial Elixir for the Stomach, ſo often mentioned in the *Gazette*.

Of a delicate Flavour, and pleaſant (tho' bitteriſh Taſte) not purging, but Cordial only. *Price* 1*s.* a *Bottle*.

TO be taken Fifty or Sixty Drops, more or leſs as you pleaſe, in a Glaſs of ſpring water, Beer, Ale, Tea, Mum, Canary, White-wine, with or without Sugar, a dram of Brandy, *&c.* as often as you pleaſe; but eſpecially in a Morning Faſting. 'Tis moſt excellent in Tea, in Wine very pleaſant and proper; and in Beer or Ale makes the beſt Purl in the World, and Purl Royal in Sack, giving all of them a fragrant Smell and Taſte, far exceeding Purl made with Wormwood, and now uſed by moſt to Drink in their Wine at Taverns, inſtead thereof; that being ſo hot and drying, ſpoils the ſight, dulls the Brain, and dries up the Blood; beſides, it hinders vigour and ſprightlineſs. This *Elixir* having the Quinteſſence of all the Ingredients of the bitter Draught (ſo much in uſe) in it, with many other excellent Stomachicks, Alexipharmicks, and Antiſcorbuticks, brought into ſo ſmall a quantity, as that Fifty, or Sixty Drops is a Doſe; you may make it your ſelf (in an inſtant) in any of the aforeſaid Liquors; but Tea and white-wine beſt, or wine & water together, by much Surpaſſing the common bitter Potion in pleaſantneſs and Vertue: Its certain Vertues are theſe ſix, and almoſt never failing. 1. It procures a ſtrong Appetite, and helps Digeſtion, by fortifying and ſtrengthening the Stomach, expelling all wind out of it, and Bowels, and wholly takes away the Loathing, Sickneſs, and Nauſeouſneſs thereof, eſpecially after a Surfeit, or hard Drinking, diſpoſing alſo to briskneſs and Livelineſs; quickly carrys off the Effects of bad Wine, *which* too many Dye of. In ſhort, it Rectifies the Stomach from almoſt whatſoever Cauſe, pall'd, diſturbed, or weakned, and after a fit of Sickneſs, where the Stomach is weak, Appetite wanting, or Digeſtion bad, quickly brings it to rights, and for the Wind Collick in the Stomach, or Bowels, a double Doſe (given in any thing hot) gives Eaſe often in a minute. 2. It is an excellent thing in Hypocondriack and Hiſterick Vapours in Men and Women, & what accompanies ſuch, as ſick fits, ſinking of ſpirits, faintneſs, tremblings, Melancholly, *&c.* 3. Procures a ſweet breath. 4. Kills all manner of Worms in Children, and others. 5. It preſerves from Infection, by Corrupt Air, or contagious Diſtempers, exceedingly, becauſe it keeps the Blood in an even Temper, and will not ſuffer it to ſtagnate, corrupt, or putrifie, and if a ſudden cold, or ſurfeit be taken, ſudden illneſs, or infection be received, thro' unwholſome Foggs, or peſtilent Air, you have a *Medicine* excelling any other in this caſe, taking half a ſpoonful of it immediately in a large Draught of Ale, Mace-Ale, Poſſet-Drink, or any Liquid hot; go to Bed, and ſweat, it will certainly Expel it. 6. It is the beſt one pecular Medicine in the World for the *Scurvy*, eſpecially that attending *Seamen*, proceeding from thick foggy Air, groſs Feeding, or hardſhip, for it opens all *Obſtructions* or *Stoppages* whatever, cauſing a Free circulation in the Blood, and mightily Purifies the ſame: by much exceeding any plain Spirit of *Scurvy-Graſs*, which being ſo very hot and burning, inflames the Blood, and Liver; and is too hot for Nine perſons in Ten that uſe it; experience will ſoon ſhew the Difference. This Elixir has Cured ſeveral lately of Breakings Out all over the Body, and One (a perſon of Quality) judged *Lepreus* by Phyſitians in ſix weeks time; likewiſe the Dropſy, taken in Ale brewed only with *Dwarf Elder*, and *Broom* inſtead of *Hops*; and for the *Jaundice*, and *Green-ſickneſs*, ſeldom or never fails in fifteen or Twenty Days, eſpecially if taken in a ſmall Glaſs of Steel Wine, for the latter, and White Wine for the former, alſo being Purged once or twice before with ſome good proper Purge, that will Work well, and anſwer the ſame End; and ſo they muſt be in the Dropſy, and Jaundice, and other Ailments, and ſo in ſtoppages of the Stomach, if it be very foul, a Vomit, or ſuch a fit *Purge* or two being firſt uſed, you may Rely on the Succeſs of this afterwards; and in all Caſes that depends upon Obſtructions, or a foul *Scorbutick* Blood, it will certainly open the one and purify the other. I always keep by me, for my own uſe in practice (and did formerly propoſe to ſend down into the Country) proper purging pills to anſwer the ſame end effectually, and which I have found by 20 years experience will. But I found the Country Doctors and Practitioners Diſcountenance my *Elixir* the more for that reaſon, and that they might *not* do ſo, and ſpeak ſlight-

ingly perhaps of one of the best and most useful Medicines that ever was made, I have omitted it, and referr you to them for your purging Physick, but not to Mountebanks, & such Illiterate Fellows. This *Elixir* is as Necessary for all *Seamen*, *Souldiers*, or *Travellors* (who pass thro' different Climates, and oftentimes gross corrupt Air and Fogs) to carry with them, almost as their daily Food, were it only for those two Extrordinary Virtues of its being so great a Preserver against infections, and the *Scurvy*; being also as properly taken in a Dram of Brandy, as any thing for them at Sea: Besides, if your Wine or Beer be bad, it will so mend it, it shall do you no harm; and if wholly nought or scarce, *Thirty* or *Forty* Drops of this in a Glass of fair Water, with a little Sugar, makes a pleasant wholesome Liquor. It might save the Lives of thousands of Persons if it were taken into our Armies Abroad, and our Fleet at Sea, for the Calenture, Flux, Gripes, *&c.* That so many dye of, proceed from disagreeable Air, sudden Colds taken, Surfeits, Indigestion, and weakness of the stomach, and Bowels, against which no one Medicine in the Universe would be more Effectual, and it will keep its Vertues twice seven Years, and alters not in any Climate, if kept close stop'd. This is the *Elixir* that saved the lives of so many persons on Board a Ship at *Jamaica* after 7 or 8 dyed in 28 hours, as appears by Certificate under the Captains own Hand, Captain *Beesly* of the *Bonadventure*, as hath been Published several times in the Gazette, and Post-Man, & is by him recommended as of great use to Carry to Sea, and it being now so well known and experienced, few will go to Sea without it. Prepared only by *Richard Stoughton*, Apothecary, at the *Unicorn* in *Southwark* who alone hath the Receipt; and it was Contriv'd and Compos'd by me, and never from any Person, or out of any Book, so that none can know the same, or guess at above 3. Ingreedients at most, & there are 22. I solemnly protest; I have used it with great Success, and have set it forth these 15 years, none ever pretended to it, but it now having obtain'd a great Reputation throughout *England*, in *Scotland*, & *Ireland*, and the plantations beyond Sea. It is counterfeited by two or three Persons, who (like Drones) having neither Sagacity nor industry themselves to Contrive any thing for Publick Use, but would suck the sweetness of others Labours: Of such sort are some of our City, as well as Country Medicine Sellers; whom I hear pretend to make it, who know no more of it than the deceived Buyer. But I hope no Man of Sense and Ingenuity, and who would not be so served himself, will Encourage such Land Privateers; 'Tis so done particularly by one *Garrowye*, near the *Exchange*, who Sold it for me 7 or 8 years: But I have now removed mine from him, and he has not now the Right, nor any other can have, but from me, for the Reasons abovesaid; and that you be not deceived, pray ask for it by my Name, and mind the *Stampt* on the other side, for the Bottles are *Sealed* with the same on the Top, *viz.* My Name in a *Cypher*, and Round it in Words at Length, *RICHARD STOUGHTON*: If the Bottles be not (for the future) always *Sealed* with the same, and you have not such a paper as this *Stampt* with the same, with each Bottle. 'Tis a Counterfeit.

☞ If any Captain or Seaman, Bookseller, Statitioner, Shop-keeper, Coffee-man, or any keeping a Publick-House, wants any quantities to dispose of, or sell again, they may be Furnished (with good Allowance) by Letter, or otherwise: Many now selling 40 or 50 dozen a year some more.

It is much enquired after, and approved of beyond sea, especially in our plantations Abroad; as *Virginia*, *Barbadoes*, *New-England*, *Jamaica*, *Anteago*, *Maryland*, *Pensylvania*, &c. a few has been carried thither. I have no Correspondents my self, if any other Person will send it, I will give them Room for Good Profit, and doubt not but it will answer.

I am ſenſible that the Vulgar will not admit that there is any Cure for the *GOUT*: neither have they Reaſon, ſeeing there have been ſo many Pretenders which come ſhort. It is an Arcane which I had in *Germany*, from the Famous and moſt Learned *Baptiſta Van-Helmont*, of worthy Memory (whoſe Daughter I Wedded) and whoſe Præſcripts moſt Phyſicians follow. This *Elixir* extracts from all parts of the Patient's body, thoſe crude and viſcous humours, which are the occaſion of the *GOUT* in general, as *Arthritis*; or in particular, as either *Chiragra*, *Genogra*, *Sciatica*, or *Podagra*. If there be any amongſt you, willing to be freed from that Malignant diſtemper, (by the aſſiſtance of God) you ſhall receive a perfect Cure in very few days; firſt, by applying a *Balm*, being an External Topick, or Application, which gives eaſe to the violency of the Gout-pains in two hours, to the ſatisfaction and eaſe of the Patient, and admiration of Spectators; thwarthing that opinionated falſity *Nodoſam neſcit medicina curare podagram.*

I am not yet throughly resolved, whether to come down, or not; but, in the mean time, have thought fit to send down Mr. *Clement Blewton*, and Mr. *John Lemston*, Students in Physick, whom I have instructed in my way of practice,& do make use of my Medicines. *Thomas Gdored*, Esq. Deceased (was also of my instructing) who was so Famous in Curing the *GOUT*, and many other Distempers Chronick; unto whom his Majesty recommended a Patient of the *Falling-Sickness*, adding, that he was perswaded he could Cure him, and there followed an admirable Cure in one days Administration of Medicines: Of this, and several other miraculous Cures, there is a Book in Print, which is no idle Pamphlet, but Dedicated to the most Reverend Father in God, *Gilbert*, by Divine Providence, Lord Arch-Bishop of *Canterbury*. He used no other Medicines but what I taught him in Chymistry.

I could treat particularly of each Disease, and its symptoms, but am unwilling to burthen the Reader: VVe have several specifical Medicins for Diseases of the *Eyes*, *Head*, *Stomack*, *Jaundies*, *Feavers*, Morbum-Gallicum, *Consumptions*, *Griping of the Guts*, *Surfets*, *Melancholy*, *Spleen*, *Rickets in Children*, *Green-sickness*, *Fits of the Mother*; with all Diseases incident to VVomen; present ease to *Tooth ach*, without drawing; *Gonorrhea*, and weakness in the back, with other Diseases curable. VVe have Pills, both good and cheap, for purging the blood, fortifying the body against Distempers & ill Air, restoring the Spirits of those which decline by hard-drinking and Night-watching, which occasions Surfets, Dropsies, and many other Distempers; obtains a good Stomack where Appetite is lost. I could mention many more Virtues, but, for brevity, shall omit them, being you may have advice at any time; this being a good time of the year, neglect not your Health, since God hath been pleased to send a means.

It's needless to declare my Forrain-actions, and the many thousand Cures I have perfected in *London*. I Cured the Duke of *Buckingham* of an Ague, when all Physicians had left him: In a word, my Cures have been so many and wonderful, that his Majesty was pleased to send for me, and as a mark of his Royal Pleasure, gave me his Authority to practise in any of his Dominions, without any Controle. VVe are not come for Lucre of Gain, but, our opinion of doing Good to the Poor as well as others, was not the least motive that brought us hither; & since we are come down, thought it requisite to disperse a few of these Advertisements for the particular Informations of such as esteem their Health. If you bring a true relation of the Sick person's Indispostion, or his true Water, you may have proper Medicines for the Cure; we have so much Reputation that we shall not undertake more than we can Cure: As for the Poor, such as are Relieved by the Parish, if they come in season, we shall as readily assist them for Charity, as the Rich for Money.

The two Persons, aforesaid, do Administer my Medicines according to my Directions: I Live my self in the Strand, *London*; but you that are near this Town, need not give your selves farther trouble, but repair to the in where my Friends have Medicines, and instructed to perform any Cures, as well, as though I were present, in every particular: They may be spoken with, any hour of the day at the aforesaid place, where you shall find some of these Advertisements sticked up at the Door.

God save the King.

The Great and Wonderful Success and Virtue of CLARK's Compound SPIRITS of Scurvey-Grass

(both Golden and Plain) in Curing many Languishing and Grievous Distempers

Faithfully Prepared (by his Widow) according to his own Directions.

THis now some Years since Mr. *Clark* first Exposed this *Excellent Medicine* to Sale; And (blessed be God) it has largely Answered the End for which it was designed, viz. The *Health* and *Welfare* of his Countreymen. The Admirable *Vertues* of these *Spirits*, and that *Universal Welcome* they Meet with in the World, Occasion'd many *Counterfeits* to be published, but their *Shams* were quickly detected: And whereas they hoped to *Amend their Credits* by *Lessening mine*, they did but present to the *View of all honest Men* their *own Ignorance* and *Malicious Folly*. It is a Divine Maxim, *That every Tree is known by its Fruit*: So the surest Way whereby to judge of the Vertues and Intrinsick Worth of *Medicines*, is, by observing the *great Effects* that are Wrought by them, and the *Famous Cures* they perform. Therefore to demonstrate the singular Vertues and Efficacy of these *Compound Spirits of Scurvey-Grass*, I have Nominated some Remarkable Cures Performed by them, on the Bodies of several Persons, whose Names and Places of Abode, (as an Addition to Others printed in my former Bills) take as follows.

I. Mr. *William Mores in Hadley*, in the year 1694. hath Given my Spirits, both Golden and plain, a very great Commendation, having Cured him of several Distempers, when he was brought almost to Death's Door.

II. *Mary Jones* of *Thetford*, who had not been out of her House for the space of Five Years, after the taking but two of my Bottles, went to Church.

III. *Daniel Golded* of *Cranborough* near *Salisbury*, at first taking the plain Spirits found some Ease in that Tormenting Disease the Stone, and by the frequent Use of it afterwards, he was Totally freed from that troublesome Companion. Many in the same Town have been Cured of lingering Agues and the Tooth-ach.

IV. *John Hales* of *Barton* within four miles of *Nottingham*, almost Blind with a Defluction of Rheum; or salt Humour fallen upon his Eyes; and though after means had been tried to no purpose, was before he had quite taken the Sixth Bottle perfectly Cured.

V. A Child of Mr. *Disneys* in *New-Market*, being in a very deplorable Condition with Worms, insomuch that they thought him at Deaths door, Voided, (upon taking but once of these *Spirits*) a Worm of a prodigious length, and continuing taking of it a Week, his Body was clear'd of vast Numbers.

VI. *Elizabeth Martin* of *Boughton*, in the County of *Kent*, Widow, was taken with *Lameness in her Limbs*, *Pains in her Hips*, *Weakness in her Legs*, that she was forced to keep her Bed 8 or 9 Weeks, after this she was not able to go without Sticks, after a while her *Distemper* was taken to be the *Sciatica*, Oyntments and Plaister proper for that Distemper, but to no purpose, were applied by the Advice of a Woman: After this she had a Physician that told her she had the *Scurvey*; After Purging and Diet-drinks her Distemper not abating, I coming to Visit her, desired her to ask her Physicians Advice to take *Spirits of Scurvey-Grass*: He approved of it, I Helped her to two Bottles of both Sorts, she recovered her strength unexpectedly, that she was able to go two Miles, she was then Sixty years old, she is able to go to Market at this time and Carries great Loads.

VII. Mrs. *Ann Turner* near *Warrington*, was violently Tortured with the Tooth-ach but by holding a Spoonful of my plain Spirit in her Mouth, the Pain was Removed,

VIII.

VIII. A Gentleman (whose Name I am desired to Omit) had his Body by an Inveterate Scurvey overspread in manner of a Leprosie, was by taking my Spirits speedily Cured.

IX. *Richard Thomason* near *Burford*, who was brought very low with an *Asthma*, (or shortness or stoppage of Breath) making use of my *Plain Spirit*, it not only took away the Pain, but also gave him great Relief.

X. *Richard Sympson* near *Glocester*, was by my *Golden Spirits* eased of the *Stone*.

Lastly, *Robert Coblee of Long Stanton* near *Cambridge*, was in a languishing Condition for many years; He Spent a great deal of Money, but could get no Cure; All his Neighbours and Others that knew him, look'd upon Him as a dying man for a long time, but Hearing of the Spirit of Scurvey-Grass, he enquired of his Apothecary, who directed him to me, and took a Bottle of each, and presently found Help, and now is perfectly Cured, to the Admiration of all that knew him. This he hath often Attested to my Coresspondent.

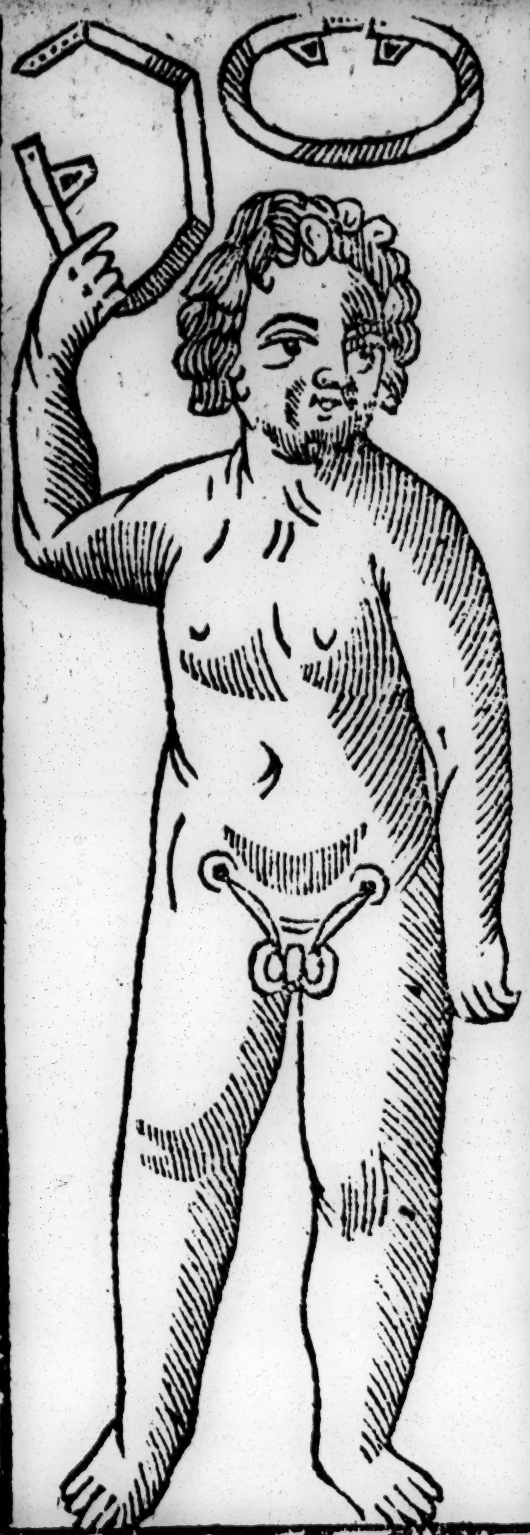

Many other Illustrious Cures I could Recite, would my Paper contain them, and might shew, That they *daily* get, not only *great Applause* with the *Vulgar*, but are also held in very *great Esteem* by divers *Eminent Physicians*, whose Names (for brevity sake) I here Omit.

These Famous Compound Spirits of Scurvey-Grass were first prepared and published by Mr. *Henry Clark*, about 30 Years ago, and though since Counterfeited by divers *Upstarts*, yet none of them ever knew the right and true Preparation. And though it hath pleased the Almighty to take to himself the said Mr. *Clark*, yet the said Compound Spirits continue to be truly prepared (by his Widow) at her Dwelling-House in the *Strand*; which Person chiefly Managed it for several years during his Life; and to whom he Communicated the True Preparation, and to no other besides; And finding his Continuance to be not long in this World, it was his Earnest Entreaty and Desire, That She would Continue *Preparing* the said Compound Spirits of Scurvey-Grass, *for the Good and Welfare of his Countreymen*, that they might not be *Lost* or *Adulterated*.

Therefore you may know, That the True Compound Spirit of Scurvey-Grass, (prepared by Mrs. *Mary Clark*, at her House in *Naked Boy Court*, near *Strand-Bridge*, by the May-pole in the *Strand*, and Sold by her Correspondents) are Sealed with her Coat of Arms, the *Three Swords* in *Fess*, to Prevent Counterfeits. Price 1 s. each Bottle, with Directions And are to be Sold by

Mr. *Henry Garway* at the Fruit shop at the South Entrance of the *Royal Exchange*, Mr. *J. Mayos* Printer, at the Sign of the *Printing-Press* against *Water-lane* in *Fleet-street*. Mr *Lawrence* Bookseller at the *Angel* in the *Poultry*. Mr. How, Powderman in White-gate-Alley in Bishopsgate-street. Mr *Spellers* Bookseller in Hand Alley in *Holborn*. Mr. *Hall* Coatseller in the Minories. Mr. *Foster* Toyseller, at the Hospital Gate in *West Smithfield*. Mr. *Goodfriend* Silver-smith in *Great Lincolns Inn Fields*, near *Little Turn-stile* in *Holbourn*. Mr. *R. Carew* at the Bunch of Grapes in *St. Katherines Dock*, Mrs. Bentley Bookseller in Covent Garden. Mr. Walbank Stationer in Greys Inn, Holbourn. Mr. *Gwillim* Bookseller in *Bishops-Gate street*. KNowing the great abuſes many have met with, languiſhing under this Allamode Diſeaſe, and for want of Cure have been totally Ruined; I have made it my Buſineſs in my Studies and *Practice*, to find out a means more Effectual than the common ways, which by God's aſſiſtance, with my Endeavours, I have attained to a moſt Expeditious, Safe, and Eaſie Method, by which I infallibly Cure the Venereal *Pox* or Clap, though never ſo far gone, or ſo long abuſed by others, and often Fluxed to no purpoſe; and if it has ſeized the Head, or other principal parts, attended with violent *Pains*, or Nodes, Swellings, Buboes, Shankers, or Ulcers, broke out in an hundred *Places*; I ſhall under God make a perfect Cure in a ſhort time, or ask nothing for my *Pains*.

But for the leſſer degree of this Diſeaſe, termed a Clap or Running of the Reins, I cure at firſt in ſix or ſeven days, by a ſafe and ſecret Method, diſtinct from all others, without denial of Buſineſs, or giving the leaſt ſuſpicion to any.

DWells a Physician, a Graduate in one of our own Universities, and a Member of the Colledge of Physicians in *London*, who has a Pill prepared with wholsome Ingredients, and is of such great Virtue that it ought not to be concealed, when so many dangerous and stopping Medicines are daily used for the *running of the Reins*, which being neglected or unskilfully managed, occasions Ulcers in the *Mouth, Throat, Palate, and Nose, Pains and Breakings out in many Parts of the Body.* This Pill Cures the *running of the Reins* safely without leaving any ill Dregs in the Body, and repairs all the Parts and Senses when they have formerly suffer'd Damage by *poisonous Medicines* and the use of *Mercury*, and prevents much Danger in Men and Women if they are taken two or three Mornings after 'tis feared any Injury has been received, and performs the Cure by expelling the Cause and not by stopping up the *Venom* in the Body as the Custom of some is.

These Pills are in Boxes, from one Shilling and Six-pence the Box, to two Shillings and Six-pence the Box, and so to five Shillings, and will be deliver'd to any Person with a Note of Directions. They may be taken in the hottest or coldest Weather and hinder no Business.

I cure speedily and safely, Ulcers in the Mouth, Throat, Palate, and Nose, and Breakings out in the Head and Face, and Pains in the Head and Limbs, with an outward Remedy alone, which is far more effectual than any inward Medicine whatsoever; and perfects the Cure when all things else fail.

BEing but very lately arriv'd in this Kingdom, and so consequently a Stranger, I could not propose a better method to make my self known, than by this Printed Paper, without which, I might for some Years have remained unknown to you; and so consequently incapable of imploying that Talent which Heaven hath bestow'd on me, for all your benefits and good. My Parents before me were so far Skill'd in the Art and Knowledge of Physick, that they have remov'd the most dangerous Distempers, and have seldom or never fail'd wholsomly to assist Nature in the discharge of her duty. From them I receiv'd the great Knowledge and Experience that I now profess, and question not but (by the Blessing of God) I shall be able to Cure any Distemper incident to Woman-kind: A few of which I shall here give you an Account.

First, I cure all Women or Maids of the Suffocation or rising of the Mother, which may be occasioned through any rotten Substance, or through a Corruption in Nature, or by an Imposthumation in the Womb, which may be easily discern'd, for there oftentimes proceeds a great Dizziness in the head, Anguish of Heart, an inclination to Vomit, much rising and tumbling in the Belly, from whence oftentimes proceeds very fatal Accidents; as Barrenness, Imposthumes, Inflamations of the Lungs, an unusual Paleness, and shivering in the Limbs, Cholick, Strangulion, Obstructions, Wringings, and Tertions of the Guts, &c.

Secondly, I cure out-sinking, down-falling, out-hanging of the Matrix, that is when the Ligaments or Strings that bind the mother fast to the body, removes from its place, occasioned either by bearing of Children, violent Coughing, heavy work,

in

in 14 or 20 days, I artificially return to its proper place, which I challenge any Perſon to do but my ſelf.

I alſo cure Women or Maids that are ſubject to Vomiting, and take from them, the quivering and ſhaking, occaſion'd by the ſame Infirmity. I alſo cure hard Bellies, ſwell'd as with Child, or as if troubl'd with the Dropſie. There is yet another ſort of Sickneſs, when the Melancholly is not cleans'd and taken away, it occaſions grief and heavy thoughts, nay ſometimes Ragings, and an ill mind towards themſelves and others. I cure the *Piles* or *Hemrhoids* in the Fundament, all Warts, Excreſcences, or ſuperfluous fleſh in the mouth of the Bladder or womb.

I alſo cure Ruptures or Burſten-Bellies either in Women or Children; nay though they have had it many years. I take the Stone from Women and Maids, without cutting, which no Woman (except my Mother) did before me. I have alſo an approv'd Remedy for a pain in the Loyns, or ſmall of the Back, whether proceeding from Gravel or Child-bearing, As alſo a pain in making water, or thoſe that cannot hold their water, but are troubled with a conſtant leaking or droping as they go, let it proceed from what cauſe it will. I drive away all Gouty pains in the Joynts; nay tho' your Arms and Legs were grown crooked through a contraction, or ſinking of the Sinews; nay though you have kept your Bed for many years, by the bleſſing of God, I don't doubt but to relieve you. I cure many ſad Accidents in the Eyes, as Spots, Specks, Pearls, Water-ſinkings, hot and violent *Rheums*, and many more too tedious here to relate. I alſo cure the Morbus Gallicus or French Pox, with all its Symptoms, and dangerous Effects, with eaſe, ſpeed, and ſecreſie; nay, tho tamper'd with and almoſt ruin'd by others. I dare preſume few has arriv'd to the perfection in this Cure as my ſelf. There are many other Cures in Women, I ſhall conclude with this, that I correct all Vices of the *Matrix*, and refreſh all the weak Faculties of the Body, by this means rendring a Woman capable of Conception, that before was Barren.

Thoſe that are not able to come to me, let them but ſend their Urine, and on ſight thereof, I will reſolve them what their Diſtemper is, and if cureable will perform it at a reaſonable rate, but if not cureable, will plainly and honeſtly tell them, that they may not be defrauded by others.

If any Perſons troubled with Diſtempers, whether through weakneſs, or that the nature of the Diſtemper requires a cloſe Confinement to their Chambers, if deſired they may be Lodg'd at my Houſe, and accomodated with all things neceſſary at a reaſonable Rate.

My Hours are from Eight in the Morning till Twelve at Noon, and from Two till Nine at Night.

And, for *further Satisfaction*, I here *inſert* the *Names* of ſome *Perſons*, who within theſe *Three Months* have received the *great Benefits*, as follow.

Madam *Graham*, living in *Duke's-ſtreet* near *Lincoln's-Inn Fields* next Houſe to the Arch, had, for a great while, a burning heat and weakneſs in her Eyes, that ſhe could not read great Print without a great deal of Pain; yet after uſing my Remedies but three times, ſhe could read the whole *Gazette* without any trouble.

Chriſtopher Plaſwick, living two Doors off the *Red Bull* in *Drury-lane*, aged near 70 years, was ſo Blind with a Black Pearl of about 14 years

years growth on the one eye, and a white Cataract on the other; ſo that he could ſee but a glimmering of Light with one Eye, and very ill with the other; yet, by the bleſſing of God, in leſs than three weeks, he came to ſee great Letters in a Book with his worſt Eye, and in a month was perfectly cured of the other.

Widow *Firth*, at the *Two Black-Poſts* in *Great Queen-ſtreet* near *Lincolns-Inn Fields*, her Son of about ſeven years old, had the *Kings-Evil* in one of his Eyes, and had tryed ſome able Phyſicians, and all Remedies imaginable; yet notwithſtanding all Endeavors, the Humor was ſo vehement, that he was not able to lift up his Eye, and had a Pearl growing upon it; yet it pleaſed God, that after uſing my Remedies ſix days, the Pearl was taken off, and his Eye perfectly cured.

Mrs. *Mary Gooderick*, living where Captain *Whitcomb* did, as you go to *Torrenham* Court, had for three Weeks time ſuch a vehement pain in her Head and Eyes, which were raw and thick, blood-ſhed, that ſhe could not ſleep; and had tryed the beſt Phyſicians and Oculiſts about Town, and could find no Eaſe: yet, by God's Bleſſing, my Remedies cured her in leſs than a week.

Mr. *Fox* a Taylor, next door but one to the *Queens-head* in *Shorts Gardens*, his Daughter of Three years old having a skin on her Eye and a thick Pearl upon it, inſomuch that ſhe was quite blind, and likewiſe a terrible Rheum and Blood-ſhed that ſhe could not reſt; yet it pleaſed God by the uſe of my Remedies all the skin and pain was taken away, and ſhe brought to her perfect ſight in Three weeks by me.

A Child at Nurſe, next door to Mr. *Hancocks* a Gardener, at the upper end of *Iſlington*, about Three years old, had a Pearl on her Eye, but after uſing my Remedies, in one week was perfectly cured.

I could inſert ſeveral others which I omit for brevity ſake.

A moſt curious, pleaſant Cordial, which is excellent for the *Stone* and *Gravel*, *Conſumptions*; for all *Fainting Fits* and *Vapors*, *Giddineſs* and *Swimmings* in the *Head*. It *purifies* the *Blood*, and by *ſnuffing* it up the *Noſe*, gives immediate *Eaſe*, although the *Pains* in the *Head* be never ſo *vehement*. It is admirable againſt the *Scurvy*, and is good for the *Stomach*. It helps *Digeſtion*, and is excellent againſt all *Peſtilential Fevers*. It drives out the *Meaſles*, and *Small-Pox*. It cures all *Cholicks*; And by rubbing any *grieved place* before a Fire, it takes away all *Aches*, *Pains*, and *Numbneſs* of the *Limbs*. It cures *Sore Throats*, and is an immediate *Remedy* for *Burnings* and *Scaldings*, if preſently apply'd.

BOWCHER's *Famous and most highly Approved Spirits of Scurvy-grass, both* Golden *and* Plain, *being the Best that ever were made, are Faithfully and Truly prepared by him, at the* Golden-Still *over-against the* White Hart Inn, *in the Burrough of* Southwark London: *And, for Satisfaction, any Person may smell it or taste it at the Author's House, for nothing, as above directed.*

THE *Plain Spirit*, incorporated with its fixed Salt, highly commendeth its self by its most Excellent Virtues, not only in curing the Scurvy, if not too far gone, but also preventing, and taking away the Cause of most other Distempers, by its curious Operation upon the Blood; it is excellent for fastening loose Teeth, and curing the Scurvy in the Gums, and preserves them from Rotting, turning Yellow or Black, procuring a sweet Breath to those who had a nautious one. It is good taken in *Epsom Tunbrige*, or any other purging Water; for it takes off their Crudities, and helps them in their Operation. It cures *Kibes* and *Chilblains*.

The *Golden Purging Spirit*, is of that excellent Quality, that, though a very small quantity will give a considerable Purge, yet it does it so pleasantly, that it leaves no manner of Offence to the Stomach, nor does it gripe the Bodies as most other purging Medicines do; besides it hath this singular Property, that it leaves no binding Quality behind, and for such Persons that accustom themselves to drink *Scurvy-grass-Ale*, I recommend them to these my Spirits, which, they will find, will have a better Effect upon them, and be more beneficial to their Healths, than a great quantity of muddy undigested *Scurvy-ale*; there is no need of Confinement to House or Dyet; the good Effects these my Spirits have had (by God's Blessing) on all that have used them, makes me not at all Question, but they will be sufficiently

ciently recommended without my Speaking; and I appeal to all ſuch if what I have ſaid be not the Truth.

VERTUES.

They are the only proper Medicine for People travelling by Sea or Land, curing the Scurvy with all its Spots, and Pains in the Limbs, or violent Pains in the Head, Dropſie, Stone, Wind-cholick, Gravel in the Kidneys, opening Obſtructions, and curing melancholineſs, Greenſickneſs, and cauſes a freſh and lively Complection. It expels cold Phlegmatick humours from the Stomach, thins tough Phlegm, and gives Breath in the greateſt Extremity, helping Digeſtion, and recovering a loſt Appetite, expelling Wind, and curing an unſavory Breath. It cures the King's-Evil, Scabs, Itch, and all ſalt humours in the Blood, and diſpoſes old Ulcers to a ſpeedy cure. It cures violent Surfeits, if taken in time. It deſtroys *Worms* ſtops Fits of the *Mother*, riſing in the *Throat*, and is an excellent Remedy for the *Tooth-ach*, and all other curable *Diſtempers*. It Purges more kindly than any that hath been yet made; and it is ſubject to no decay if ſtopt cloſe. With each Bottle will be given a large Paper, more fully ſhewing the vertue and uſe of theſe moſt Noble Spirits. Price 1s. each Bottle; and ſold by theſe Perſons following:

PILULÆ LONDINENSES. or,

The **London Pills**, *Directed and prepared by a Physician of many years standing in the College of Physicians in* London, *according to true Rules of Art, good for Prevention, as well as the Cure of all Diseases, wherein Purging is proper.*

BY the advantages of a Liberal Education in the University, and many years Experience in the practice of Physick in this City, the unprejudiced cannot but think me a person capable not only of detecting the innumerable mischiefs arising from Quacks, and their ill compounded and worse prepared Trash, but also of making Medicines far surpassing any that such Men can pretend to the knowledge of. Accordingly I have invented, and for some time published, for the benefit of the Publick, these Pills (the result of Reason and Experience) which have justly brought their poysonous and absurd Physick under a deserved disreputation, all that are wise now dreading to trust their lives with those Pretenders, by whom so many have suffered; since they have ample Assurance on *Whom* and *What* they may rely. For not only the meaner sort of all Ages, and each Sex, but people of Eminence both for their Rank in the World and their Parts, have found admirable success in taking these Pills.

They are and have been found successful in the Scurvy, Venereal Disease, Gout, Dropsie, *Coma*, Lethargy, *Carus*, Apoplexy, Palsy, Convulsion, Falling-Sickness, *Vertigo*, Madness, Catarrhs, Headach, Scald and sore Heads, sore Eyes, Deafness, Toothach, sore Mouth, sore and swollen Throat, foul Stomach, bad Digestion, Vomiting, Pain at the Stomach, sowre Belching, Colick, Twisting of the Guts, Looseness, Worms, all Obstructions of the *Pancreas*, of the Mesaraick Veins, of the passages of the Chyle, and of the Liver and Spleen, the Jaundice, Cachexy, Hypochondriack Melancholy, Green-Sickness and most Diseases of the Womb, Agues, Itch, Boyls, Rheumatism, Pains and Aches, Surfeits by eating and hard drinking, or by Heats and Colds (as some call them.) They are also good in taking the Waters. I would not advise them by any means in the Bloody-Flux, nor in continual Fevers; but they are good to purge after either of those Diseases is over, or to

carry

carry off the Humor aforehand. They muſt alſo be taken by Women with Child. Otherwiſe they are good for any Conſtitution, and in any Clime. They are durable many years, and good at Sea as well as on Land.

They are proper in the forementioned Diſeaſes at any time of the Year: And becauſe no people are ſo exactly temperate, as not to contract ſome ſuperfluous Humors endangering their Health, it is neceſſary, and prudent for them every *Spring* and *Fall*, to diſcharge thoſe Humors, tho' they feel nothing urgent in themſelves ſo to do, more than their provident care for Maintenance of their Health they then enjoy. And a Doſe or two of theſe Pills may probably enſure any ordinary Conſtitution for half a year.

But I think it Charity to caution you againſt ſome cobling Doctors, who having no Knowledge in the Earth, pretend to a great deal in the Stars: Do but read their Bills, and they will tell you their skill in Nonſenſe, and their Ignorance in Phyſick, notwithſtanding their boaſted Aſtrology. Believe them as little, who dare adviſe Women with Child to *take as many* of their purging Pills *as their Body will bear*, not regarding the Murther of Children.

Nor let their impudence move you any more than to Indignation, who having no reputation of their own, boaſt of Phyſicians approving their Traſh, but produce no Phyſician's name that does ſo: You may juſtly ſuſpect ſuch Mens Phyſick equally with their vain Aſſertions.

Moſt of theſe Mountebank-Doctors alſo that commenced in a Shop, being Vagrants from their Trades, provide feigned Letters of feigned Cures, as a Paſs for their poyſonous Mercurial Phyſick, from one Town to another, having no other Patent recommendatory to practiſe by, than the Fob of a Letter from ſome Country-Fellow, in commendation of ſome Phyſick which he never took. Theſe things being far remote from Ingenuity or Learning, I ſhall never trouble you with any ſuch.

Theſe *London* Pills are ſold in ſeveral Places in *London*, and at my Houſe on the Left-hand the Arch in great *Wincheſter-ſtreet* (where you may have Advice in all Diſeaſes; I being to be ſpoken with between eight and nine in the Morning, 1 and 2 in the Afternoon, and five and ſix in the Evening.) They are ſealed up in Tin Boxes, with a Serpent encircling the word [*SALUS.*] Their Price 2*s.* 6*d.* the larger Box, and 1*s.* the leſs, with ample Directions how to uſe them.

READ, TRY, JUDGE,

And Speake as you Find.

By Thomas Saffold, *an Approved and Licenſed Phyſician, and Student in Aſtrology, who (through God's Mercy, to do good) ſtill liveth at the Black-ball and old* Lilly's *head, next door to the Feather ſhops that are within* Black-Friars *Gate-way, which is over againſt* Ludgate-*Church, juſt by* Ludgate, *in* London.

Of him the Sick may have Advice for Nothing.

AND good Medicines cheap, ready prepared, fited to every Age, Sex, Conſtitution, and Diſeaſe (with Direction how to uſe them) by which, and God's aſſiſtance, he is able infallibly to cure any Diſtemper afflicting the body of man, woman or child, either inward or outward, of what name or nature ſoever, if curable. Let the ſick in all things obſerve *Saffold*'s directions. Likewiſe he teacheth *Aſtrology* in all its parts; and Calculateth Nativities exactly; alſo with great certainty Reſolveth all manner of lawful Queſtions, either of life, body, marriage, or eſtate, according to the Rules of *Chriſtian Aſtrology*, and twenty one Years Experience.

He doth very ſeldome or never fail to give any ſick, ſore or lame perſon, upon ſight of their true Urine, an exact account of the nature of any Diſeaſe afflicting any part afflicted, and whether it will end in health or death; and he will deal honeſtly and plainly with all people, and not deſire to take any body in hand whom he conceives to be uncurable. He hath moſt incomparable *Pills* to cure the *Scurvey*; the beſt, or at leaſt as good as any are in being; which he will ſell with plain Directions in print, how to uſe them to cure any Diſeaſe or Pain in the head, ſtomack, belly or reins, or in any other part of the body (if curable:) By Purging Pills at eighteen Pence the half Box, or three Shillings the whole Box, containing thirty ſix Pills. They may indifferent well be taken in any weather, but beſt in a temperate ſeaſon, without hindrance of buſineſs: And they will hold good ſome years; therefore they may be benificial to all people living either in the City or Country, alſo to Sea-men which travel to foreign Parts: They do not onely cure the *Scurvey* by opening obſtructions of the Spleen, and purging malancholly humours from the bloud in every vein, but they purge choler and phlegm too, open obſtructions of the Liver, ſweeten the Bloud, and help to give it its due circulation, they cleanſe the head, ſtomack, and belly, curing moſt diſeaſes that can afflict theſe parts; they open obſtructions of the Womb in women, and helps them to the benefit of Nature, or monthly Purgation. *Saffold*'s beſt *Pills* cleanſe the Reins, and are as good a Purge to cure a Clap,

Clap, *Running of the Reins*, or *French-Pox*, as any can be uſed; of which diſtemper he hath cured many men and women, and ſome children; with purging without hindering of buſineſs, in a little time, and for a ſmall charge, when they have been almoſt ſpoyled and undone by others, without Fluxing or uſing *Mercury*, with a pleaſant Diuretick Liquor, or never failing Cordial *Elixir*, at half a Crown the Bottle; which Liquor cureth all heat of Urine and Pain in making Water, alſo the *Scurvey*, *Dropſie*, *Agues*, *Stone* and *Gout*, as well as the *Running of the Reins*, *French-Pox*, or *Clap*: Many have been cured by his *Pills* alone, and ſome which could not take *Pills*, have been cured by his *Elixir* and *Diuretick Drink*, but ſuch as ſhall according to his directions take his beſt *Pills* one day, and his *Elixir* or pleaſant *Liquor* another day, will be the ſooner and ſurer well.

His *Pills* cleanſe the Body well by Purging, and his *Elixir* is an Antidote againſt the worſt of Deſtempers, helps to give the Blood its due circulation; is a very great Cordial, which wonderfully revives the Spirits, by comforting the heart, and fortifies the body againſt moſt diſeaſes, as well as cureth them.

There are not any *Pills* and *Elixir* in being more univerſally good againſt all Diſeaſes, than *Saffold*'s are. And they are cheap as well as truely good, being full as ſafe as your daily food.

Let none who are ſick or pained in the head, ſtomack, belly, or reins, or in any other part of the body, though never ſo bad, and given over by others, deſpair of a cure, before they have tried *Saffold*'s beſt *Pills* or *Elixir*; uſe the means, and pray to God for a bleſſing, who ſometimes by ſmall things brings great things to paſs, to the honour of his moſt holy Name.

For your better ſatisfaction, Read *Saffold*'s Book of Cures done, and Truths told by him, wherein are mentioned ſeveral perſons, who having experienced the ſame, have ſubſcribed their names and places of abode, as ſo many living Witneſſes of his Skill and Fidelity; one of which Books, any perſon may have gratis, either of him at his houſe before directed to, or of any of thoſe who ſell his *Pills* and *Elixir*, when they buy either of his *Pills* or *Elixir*: In which Book is a plain direction at large how to uſe theſe two Medicines, with ſome further account of their virtues. To prevent miſtakes, you are deſired to keep this Bill, and to ſhew it to your Neighbours and Friends; and let them know all people ſhall find him reaſonable, conſcionable and charitable; and that ever while he lives, he will remember that *Honeſty is the beſt Policy*; alſo he will obſerve that golden Rule of *Doing as he would be done unto*. He hath no need to ſet forth this Bill to tell of his Skill, onely he looks upon himſelf in duty bound to improve the Talent which Almighty God hath lent him, for the publick good. His *Pills* and *Elixir* within mentioned, with plain directions in print, how to uſe them to cure as aforeſaid, are for him ſold by Mr. *Edmund Millington*, who keeps the Swan Tavern at *Bromly* in *Kent*. In *Eſſex* by Mr. *Hugh Brown*, Shop-keeper, next the Bell at *Malden*. By Mr. *John Smith*, Bookſeller, near the Market at *Taunton* in *Somerſet-ſhire*.

Licenſed by Authority, according to Law.

Nendick's Popular Pill.

Commended by all People as have used it for the Scurvy: It has done so much good, and has been Experienced so many years, that you can hardly ask any one what Medicine is best for the Scurvy, or to carry to Sea, or for any Plantation, but you will be advised to take this pleasant Pill. Therefore it is deservedly so called, for the vertues it hath

To Cure that Popular Disease, the Scurvy.

It Purges gently by Stool and Urine, and Purges the Blood, which no violent Physick will do; this hinders no Business, and five small Pills is the Dose. This Pill is made by me *Humphry Nendick*, and by no other.

A Discourse of the Nature and Cure of the SCURVY.

IT is observable, some Diseases are familiar to some Nations, which others are altogether free from, as *Leprosie* very familiar among the *Egyptians*. Swelled Throats to the Inhabitants of the *Alpes*, the *French Pox* in some part of the *Indies*, so here our common Disease is the Scurvy.

THe *Scurvy* corrupts the blood, makes Obstructions, raising Vapours that cause Swimming & dizziness in the Head, makes the Body dull & heavy, causes swarthy Complexions, Flushing in the Face, worms black, loose and aking Teeth, sore and bloody gums, strong & stinking breath, streightness of Breast, difficulty in breathing, ready to die, sour belchings, waterishness of Stomach, weariness & weakness of the limbs, faint sweats towards morning, oftentimes the cause of barrenness in many.

Sometimes Spots red, blewish or purple appear in the Legs.

In some it is like flea bites, or itching with pimples, like stinging of Nettles; it causes windiness in the veins, pricking & itching in the blood. In many the *Scurvy* holds them with violent pains in divers parts of the body, in others again only wandring pains, heat, and twitchings up and down, in some it breaks out in Scurfy Tetters, dry Scabs in the Head, Face or body, Risings in the Flesh; sometimes in Running Sores.

When the *Scurvy* has got firm footing, 'tis the worst of all Diseases; it will be like the *Spleen* in some, as a *Consumption* in another, like the *Gout* in others, like the *Pox* in others, that many fear they are still bad, because they miss the right Medicine, not thinking they have the Scurvy.

THe *Scurvy* in short, is the undoubted cause so many linger & pine under so many tedious & difficult Diseases, that I affirm with able Doctors, that have lately seen the success of this pill in *England*, as also at the *Incurabile* in *Venice*. That no Medicine is like this pill to Cure the Scurvy, Green-sickness, Agues, Worms, or almost any disease.

CUres done upon the Scurvy, and how to take the Pills, is fully laid down in the Book of directions, which will be given unto any Messenger with a tin box of pills, Sealed with two Crosses the whole box of forty Pills is three shillings, the half Box of Pills is Eighteen Pence.

These Pills will be delivered to any Messenger at my own House, at the two Black Posts in *Bell-Yard* in Great *Carter Lane* near St. *Paul's* Church

THis Pill Infallibly removes all Aches and ſetled pains, diſcharges the Body of Wind and Water, brings away old Bruiſes and Surfeit; *This Pill works kindly.* Its an excellent Head purge, good for over-drinking, alſo for coſtive and hot bodies, *never leaves the body bound*, nor makes ſick, nor gripes unleſs it meets with ſome Obſtruction, or wind.

M. *Thomas* in *Salop* by two or three Doſes gave one the uſe of his Arm who could not lift a Cup to his mouth in ſome years before, another of a Swiming in the Head. In the Book given with the pills are many Cures.

This Pill Purges and cleanſes the Reins, cures Ulcers in the Bladder, Kidneys, or Womb, falſe Conceptions, daily diminiſhes the Stone. Cures barrenneſs, if from ſtoppage, foulneſs, or weakneſs of the Womb.

A Friend of Mr. *Filbridges* in *Oundle* troubled with Vapours, Wind, Stitches, bloody Urine & Gravel, and left by the Doctors, this pill cured.

A Woman who had ſpent all to get help for the Stone, bloody Urine & ſtoppages, was Cured by half a box of pills, by M. *Griffith* in *Cardigan*.

Mr. *Whetnal* Gun-ſmith in *Preſtaine*, that had not ſat upright, or gone out of his Chamber two years. This Pill laſts good ſeven years.

Mr. *Forſtal* in *Canterbury* Cured a Woman by my Pill who had been bed-rid with Diſeaſes above a year. The beſt Pill for the *Bath* or *Wells*.

This Pill is good for all Deſtempers in the Head, or Stomach.

SUch as *Spring* and *Fall* expect touches or Grudges of Diſeaſes they are ſubject unto, may perfectly cure themſelves, being *the beſt Pill to cleanſe the blood*, and keep off the *Scurvy*, now and then taking them, carries off the humour as Rots the Teeth, faſtens them, kills the Worms, mends the Gums and Breath, cures thoſe ſubject to Pimples, or breaking out: It prevents ſuch Evils as happen to Elder women when thoſe do leave them, and helps hurts taken by miſcarriages.

This is a true Bezoardick Pill, which cures Kings-Evil, Sore or Swellings, and clears the body of the *Foul Diſeaſe*, and inſtantly eaſes any ſharpneſs in urine, ſtumbling of the Reins, with ulcers, Shankers, ſwellings, ſoon cures or prevents a Clap, defending the blood from the Infection.

Purge with this Pill after the Small Pox, or any Fit of Sickneſs, or before you Let Blood, or if you come newly out of the Country, or from Sea. It cures all Heat, foulneſs of Blood, and groſs Humours.

The Half Box of Pills is Eighteen Pence.

BY His great Diligence and Study, hath lately found out ſome admirable Remedies, which was never yet made Publick in any of his former Bills: Theſe are therefore to Advertiſe all Perſons concern'd, that have either Weak or Dimm Sight, occaſion'd by Age or otherwiſe, and are oblig'd to wear *Spectacles*, He undertakes to bring them to ſee well without them in a Weeks time, altho' they have uſed them 20 Years before: He Infallibly Cures all ſorts of Sore Eyes whatſoever, otherwiſe demands no Money for his Pains. He takes off all Pearls. Pins, Webbs, Cataracts, both White and Black, and Skins of all kinds, growing upon, or ſettled in the Eye, and gives immediate Sight to thoſe that are termed Stone-Blind, where

the Visive faculty is not quite lost, and all by an outward Application: And to the end, that none may refrain coming to him, for fear of an unnecessary Expence, they are all hereby Invited to come and accept of a Tryal for nothing; and if in a quarter of an hour they do not find great Benefit, it's left to their Discretion to proceed or not.

If any Person, by Accident or Misfortune, looseth one of their Eyes, He can Artificially put in another, not to be discern'd by any one, without being informed of it before hand.

He hath likewise an admirable Remedy to prevent Miscarriage in Women, although they have Miscarried for five or six times before.

He likewise Cures all Vapours, Giddiness, or Swimming in the Head, or any Fainting Fits, and takes away all Pains and Aches in the Limbs, or any part of the Body; and immediately Cures the Griping in the Guts, although it be in the greatest extemity, only by an outward Application. And as this is the first time, that he has made use of this way of Advertisement for these particular Remedies, so he gives you to understand, that after these are disposed of, you must expect no more: Therefore, you are desired to keep these Bills, to the End you may know where to apply your selves in your Extremity.

If any Person that is Sick, send but their Urine to me, I will give them my Advice faithfully; and if desired, prescribe them such Remedies, as shall be suitable to their Distemper.

I Cure the *French Pox*, with all its Accidents, as the *Running of the Reins*, *Shankers*, *Buboes*, or swelling in the *Groin*, after a new Method, and in a short time, without Baths or Stoves, and without *Mercury*, which many times proves destructive to the Patient. And for the satisfaction of all those that have been Sporting in the Garden of *Venus*, and in seeking of Pleasure, have met with a *Clap* or *Gonorrhœa*, I promise to Cure them in six or seven days time, or desire nothing for my Pains; which is as much as to say, *No Cure, No Money.*

DWells a Physician, a Graduate in one of our own Universities, and a Member of the Colledge of Physicians in *London*, who has a Pill prepared with wholsome Ingredients, and is of such great Virtue that it ought not to be concealed, when so many dangerous and stopping Medicines are daily used for the *running of the Reins*, which being neglected or unskilfully managed, occasions Ulcers in the *Mouth, Throat, Palate, and Nose, Pains and Breakings out in many Parts of the Body.* This Pill Cures the *running of the Reins* safely without leaving any ill Dregs in the Body, and repairs all the Parts and Senses when they have formerly suffer'd Damage by *poisonous Medicines* and the use of *Mercury*, and prevents much Danger in Men and Women if they are taken two or three Mornings after 'tis feared any injury has been received, and performs the Cure by expelling the Cause and not by stopping up the *Venom* in the Body as the Custom of some is.

These Pills are in Boxes, from one Shilling and Six-pence the Box to two Shillings and Six-pence the Box, and so to five Shillings, and will be deliver'd to any Person with a Note of Directions. They may taken in the hottest or coldest Weather and hinder no Business.

I cure speedily and safely Ulcers in the Mouth, Throat, Palate, and Nose, and breakings out in the Head and Face, and Pains in the Head and Limbs, with an outward Remedy alone, which is far more effectual than any inward Medicine whatsoever, and perfects the Cure when all things else fail.

THeſe moſt miraculous Neck-laces being ſo well known, and approved of both in City and Countrey, the Virtues of the ſame being ſo large, thought fit as in duty I was bound to my fellow Chriſtians to Revive this worthy Annodyne, from the aſhes, which hath been advantageous to all Mankind, which hath uſed it, which occaſions me now to expoſe it to the publick ſale, and now are made twice better then ever, both in virtue and quality; being not much bigger in weight then a Nutmeg, abſolutely eaſeth all Children in Breeding and Cutting of Teeth without pain: And alſo Children that have ſo worn them, have been ſtronger at nine Months, then them of twelve, which can be affirmed by thouſands both in the City of *London*, and Countrys adjacent, beſides the great decreaſe of Children in the Bills of Mortality, in a manner not a tenth part of what formerly dyed in Breeding and Cutting of Teeth, ſince theſe was uſed; and are to be ſold for the publick good for five ſhillings each Neck-lace; with a Pill alſo given with it, which being given to the Child, as the Bill, which wraps the Neck-lace in can fully ſatisfie, that there is not one grain of Henbane in it; and it helps and relieves all Children that are troubled with windy Gripes, and acquaints you how to uſe it; which was never known before, by any but my ſelf: And alſo there is a Catalogue of many Children of Honourable and worthy Parents, and other ſufficient Houſe-keepers, who have had their Children in great extremity, which by wearing of this worthy Annodyne have found recovery of a ſudden, when there were little hopes of life, which is daily ſeen where they are uſed.

The Bills going with the Neck-laces, gives further ſatisfaction of ſeveral Diſtempers, prevented in a miraculous manner, to the admiration of their Parents, by wearing of them: and the beſt time to put them about a Child's neck, is when they be not paſt a month old, and to prevent Diſtempers at any time: And it is obſerved, that none have been troubled with the *Kings-Evil*, or *Falling-ſickneſs*, which have ſo worn them according to theſe Directions, and are to be ſold at ſeveral places here mentioned.

There is alſo Lozenges to be ſold for eight ſhillings a pound which abſolutely digeſts all Catarrhs, and helps any Cold or Coughs, or hoarſneſs, be they never ſo ill; and relieves the Stomach, and heals any ſoarneſs of the Lungs, and abates pains of the Head, which proceeds from Wind.

Theſe Lozenges are to be ſold, *viz.* where you find two *OO's* at the beginning of their Name.

WHo hath a moſt Excellent Waſh to beautifie the Face, as many of the greateſt Quality can teſtifie. Its Vertue is to take out all manner of Wrinckles, Freckles, Pimples, Redneſs, Morphew, Sun-burn, Yellowneſs, or any other Accident, cauſed too often by Mercurial Poyſonous Waſhes: It alſo plumps and ſoftens the Skin, making it ſmooth and tender as a ſucking Child. In a word, the young it keeps always ſo, and the old it makes appear fair and young even to a Miracle. There is nothing of Paint relating to it, neither hath any Perſon the ſecret but my ſelf, having (with much difficulty) obtained it of a great Lady at *Paris*, which is now dead, who ſold it there to the Queen and Court for above Twenty thouſand Piſtols in one year. You may have from Half a Crown to Five Pounds the Bottle. She can furniſh you with all ſorts of delicate Pomatums, whitepots that cannot be compared with, and alſo an admirable Powder for the Teeth, which makes them as white as Snow, and a Water to waſh the Gums, which preſerves from all Scorbutical Humours, and cures where it is already come. She has alſo an admirable Spirit for the *Scurvey*, which being taken one Spoonful in a Morning, and another at Night, certainly cures it, tho the Patient were broke out all in Bloches, and never ſo far gone. Another excellent Remedy againſt that cruel Diſtemper called the *Stone*, and Ulceration of the Kidneys, and a moſt pleaſant Diet-drink, which cures the worſt of *Conſumptions*, tho the Patient have been left off by others, in a Month or ſix Weeks time at fartheſt. She has alſo great skill in all manner of ſore Eyes, or any cold or hot Rheum, cauſed by the *Small-pox*, curing the black or white *Cataracts*, tho the Patient have been ſtark blind. And alſo a moſt delicate Ointment to anoint the Face, ſo ſoon as the *Small-pox* begins to dry, which certainly prevents all Scars or Pits: as alſo a moſt excellent Secret to prevent the Hair from falling, cauſing it to grow where it is wanting in any part of the Head, and can alter any Red or Gray Hair to a moſt delicate light or dark Brown, which will continue for ever without any ſoil or ſmooting. She alſo ſhapes the Eye-brows, taking off the uneven Hair, and making them perfectly beautiful, without any pain, and makes low Foreheads as high as you pleaſe, taking off the Hair ſo as it ſhall never come again. You may have in the ſame Houſe all manner of Cordial Waters, and a moſt delicate Paſte to ſmooth and whiten the hands, with a curious red Pomatum to plump and colour the Lips, which keeps them all the Winter from chopping, and a Plaiſter to take off Hair from any part of the Body. She cures alſo any ſort of *Ague*, removing the Cauſe, ſo that the Patient ſhall never need to fear a Relapſe, but will be more healthful all their Life after; with ſeveral other Rare Secrets in Phyſick, nor fit here to be mentioned; which if any perſon deſire to be ſatisfied in, they may ſpeak with her every day from Ten in the Morning till Twelve, and from Two in the Afternoon till Eight at Night.

She has alſo a never failing Remedy for Barrenneſs in Women.

For the *Scurvey*, *Pox*, and *Dropſie*.

THat the World may no longer be deceived by the falſe and ignorant Pretenders to Phyſick, of which this City has more than enough; I preſent to all the Ingenious the moſt Effectual Pills that ever Mankind yet proved or knew: Of which Pills the ever honoured Eſquire *BOYLE* was the *Author*. And as 'tis to be lamented that ſo many Thouſands ſuffer yearly by theſe Diſtempers, not knowing where to addreſs themſelves to honeſt able men, ſo the Publiſher humbly conceives 'twere pity, wondrous pity, to conceal or bury ſo precious a Remedy. True it is indeed that the world (for the ſake of a few notoriouſly ignorant *Phyſick Pedlers*) are ready to diſeſteem all Bills expoſed to view, but if men will ſtill continue in that humour, they may as well hate the *Scripture* becauſe ſomtimes the Devil takes an Argument from it: They may likewiſe condemn all Trade by Sea, becauſe ſome few ſuffer ſhipwrack. For which reaſon the Publiſher did for a long time decline all thoughts of printing, but being at laſt prevail'd upon by the unanſwerable perſwaſions of worthy men, he is to tell the world, that if they will avoid the horrid tortures of ill Cures, if they will ſhun the diſmal Effects of a *Clap*, the *Pox*, and its Concomitants, if they will diſappoint the irrecoverable diſgrace of the fall of the Noſe; in a word, if they will prevent the ſlaughter of the Body, and the rape of the Purſe, they may addreſs themſelves to a Phyſician learned in all Cauſes as well as this, at the *Gridiron* a Tallow-chandlers houſe without the Bars in *Whit-Chappel*; where thoſe Pills are to be ſold. The price is not great, the Doſe moſt grateful, and the Operation moſt effectual.

Pecunes Coſmeticks *for the Face.*

THere is now made that moſt Famous and well approved Water of Talk, and Pearl, the cleareſt and brighteſt of all Waters; and is of that Excellent Vertue for the clearing of the Face, that in a ſhort time will turn the Browneſt Complexion to a Lovely White. It takes away Freckles, Scurff, and Morphey, and makes the Skin ſmooth and ſoft, to Admiration; and is now uſed by moſt Perſons of Quality in *England*, it being of that Excellent Vertue, the longer it is kept the better it is. There is alſo Rare Waſhes, and Powders, and alſo Forehead pieces both Leather and Linnen: And an Excellent Water to make Hair grow; And an Excellent Oyntment that will take Hair off from the Forehead in a quarter of an hour, and an Excellent Red Lip Salve that heals all Sores, and Chops in the Lips; a moſt Excellent Water for all manner of ſore Eyes; an Excellent Powder for the Green ſickneſs, alſo an Excellent Powder of Talk, the beſt of all Powders for the clearing the skin, alſo Vizard Masks to be worn at Night; Gloves to be worn at Night, to make the hands Smooth and White; there are ſeveral ſorts of *Coſmeticks* that is not here mentioned.

You may be pleaſed to repair to the Green Ball, in Chiſwell-ſtreet, *turning up to* Bun-hill, *over againſt the* Artillery-Wall, *near to the Archer; being the firſt place where Preparations was prepared in* England: *Where liveth a* Gentlewoman *that will furniſh you wi.. the aboveſaid.*

MR. *Garret* the Apothecary in *Tower-Street* being lately Deceaſed, the ſame little Pots of *Pomatum*, with ſeveral other Arts for the Beautifying of the Face, are now to be ſold at the *Black Bull's Head*, an Apothecary in *Leaden-Hall-Street* over againſt the *Eaſt-India-Houſe*.

A Caution to the Unwary

'TIS generally acknowledged throughout all *Europe*, that no Nation has been so fortunate in producing such eminent Physicians, as this Kingdom of ours; and 'tis as obvious to every eye, that no Country was ever pestered with so many ignorant Quacks and Emperics. The Enthusiast in Divinity having no sooner acted his part, and had his *Exit*, but on the same Stage, from his Shop (or some worse place) enters the Enthusiast in Physick; yesterday a Taylor, Heel-maker, Barber, Serving-man, Rope-dancer, *&c.* to day *per saltum* a learned Doctor, able to instruct *Æsculapius* himself, for he never obliged Mankind yet with a *Panacæa*, an Universal Pill or Powder that could cure all Diseases, which now every Post can direct you to, though it proves only the Hangman's Remedy for all Diseases by death. *Pudet hæc opprobria dici*; for shame my dear Country-men re-assume your Reasons, and expose not your Bodies and Purses to the handling of such illiterate Fellows, who never had the Education of a Grammar School, much less an University.

Nor be ye so irrational as to imagine any thing extraordinary (unless it be ignorance) in a pair of Outlandish Whiskers, though he's so impudent to tell you he has been Physician to 3 Emperours and 9 Kings, when in his own Country he durst not give Physick to a Cobler.

Nor

Nor be ye gull'd with another ſort of Impoſtor who allures you to him with *Cure without Money*, but when once he has got you into his Clutches, he handles you as unmercifully as he does unskilfully.

Nor be ye impoſed on by the pretence of any *Herculean* Medicine, that ſhall with four Doſes at 5 *s.* a Dos, cure the moſt inveterate POX, a Diſtemper not to be eradicated (in the opinion of the moſt Learned in all Ages) with leſs then a renovation of all the humours in the whole body.

Theſe and the like abuſes (too numerous here to be mentioned) have induced me to continue this Publick way of Information, that you may be honeſtly dealt with, and perfectly cured, repairing to him, who, with Gods bleſſing on his Studies, and 20 years ſucceſsful practice in this City of *London*, hath attained to the eaſieſt and ſpeedieſt ways of Curing,

☞ If any Gentlemen or Ladies have been ſporting in *Venus*'s Garden, and fear they have received Damage, let them in time take two or three Doſes of theſe Pills, they will not only prevent Danger, but make the perſon more brisk and lively than at other times, for it is a famous Remedy in all other deplorable Diſeaſes.

And whereas others use *Mercury* in all their Physical Courses, which proves of dreadful consequence to their Patients; lest it should be thought, that while I rail against it, I use it my self, I here affirm, That if any Artist can make it appear I have the least of it in my Composition, I will be bound to give him 500 *l.* The whole Packet or Parcel contains two Doses of Purging Powders, a Glass of Elixir, and a Pot of Balsom, *price* 3 *s.* Many have been cured with one Packet, but two never fail. *All these Remedies hold good several Years, therefore convenient for such as go to Sea, or Foreign Plantations.*

5. Theſe *Family-Pills* are of excellent uſe for all travellers, Seamen, and ſuch perſons who live on bad diet, in ill airs, moyſt places, and near the ſea coaſt, and of ſuch as are given to exceſſive drinkings, and who cannot attend upon a cure, but are forced to go about their buſineſs; they may take them to ſea with them, (becauſe they keep their vertues many years, nor does the water ſpoyl them) the which will be found to ſtand them in great ſtead in all ſea-ſickneſſes, ſickly ſeaſons, Calentures, Feavers, Fluxes, Poyſons, Agues, Scurvys, Poxes, *&c.* which commonly afflict ſuch as go to Sea.

6. They give preſent eaſe, relief, and comfort, working gently by Urine and ſtool: they ſtrengthen the body, and agree with all conſtitutions; thereby curing moſt cureable diſeaſes, taking away all pains lameneſs and inward ſtoppages: They are an excellent head-purge for all diſeaſes in the head, as head-ach megrims giddineſs and Rheumy Eyes, beyond any medicin ever yet known: and for all ſuch as have ſpoyled their bodies by heats and colds, or hard-drinking, in their young days; more can ſcarſely be done by any medicine.

7. They cure the *Scurvy*, when it is grown ſo bad, as to become ſcandalous, ſo as that many people think it to be the *POX*: for the *Scurvy* often cauſes great pains in the head and noſe, ſhoulders and ſhin bones, with other pains all over the whole body, dulneſs and heavineſs, and reddiſh or blewiſh ſpots and breakings out in the skin, weakneſſe in the back and loyns, a bad ſtomach, and ſometimes loſſe of appetite, looſneſſe and ſoreneſſe of the teeth

throat,

throat, and mouth, a diſcoloured skin, with ſpots, ſtains, pimples, morphew and ſcurf, and a general weakneſs, and faintneſſe all over the whole body, inſomuch at laſt that it gets into the bones, and infects the very marrow of them; this cruel diſeaſe theſe *family pills* cure at a few times taking.

8. They purge by ſtool flegm, choler, and melancholy; they diſpoſe old Ulcers, Fiſtula's, running ſores, ſore-Breaſts, ſore-eyes, ſcald heads, Kings-evil ſores, tetters, ringworms, ſalt humours, ſcabs, or any other breakings out to a ſpeedy healing, by purging away the evil humors which feeds them.

9. They are an excellent help for all riſings, Vapors, cloggings, ſtuffings, gnawing or illneſſe at the ſtomach; for ſuch as grow too fat, purſie, ſweat or ſpit much, have coſtive or hot bodies, and for all ſuch as have loſt their complexions by the *Scurvy*, *Jaundice*, or green-ſickneſs; ſuch as are overtaken with lingring diſeaſes, growing worſe and worſe every year than other, with melancholy ſtoppages in the head and breſt, ſhortneſs of breath, and ill digeſtion, till ſuch time as they fall into dropſies, the Jaundice, Hectick feavers or deep Conſumptions, lingring and waſting away with dry coughs, wheeſings, faint ſweats and the like; theſe my *Family-Pills* carry off all thoſe diſeaſes the right way, by taking them once twice thrice or four times a month.

10. They are the only Pills now uſed, in the Cure of all the aforeſaid diſeaſes, not only in *England*, but in many forrein countries and Kingdoms, being cryed up, and prized above all other medicins whatſoever, inſomuch that in ſome hundreds of families, on moſt occaſions, they are their only Phyſick; (and from hence they came to be called *Family-Pills*) being known to be ſafe in operation; and certain in the end propoſed: for no perſon curable, troubled with any of the aforeſaid diſeaſes, hath failed of Cure, who has continued, (without delaying of time, or taking of other Phyſick) the uſe of theſe pills according to the directions aforeſaid.

11. With theſe my *Family Pills*, I have cur'd two hundred and twenty Perſons of the Scurvy; one hundred and twelve of the Dropſie; one hundred Eighty Six of the Green-ſickneſſe; one hundred twenty five of the Evil; one hundred and fourteen of the Headach; ninety ſeven of Worms; Eighty four of the Jaundice; ſeventy three of ſtinking breaths; beſides vaſt numbers of people, (which come dayly to me) of moſt other diſtempers, with the drops I cured one hundred and thirty of Conſumptions; one hundred fourty two of pain and weakneſſe of the back: and I have ſold them and cauſed them to be given away to above two thouſand perſons that have had agues, with a promiſe to all ſuch as bought them, that if they cured them not, they ſhould have their money again;

and

and yet never heard to this day, that ever they miſt the cure of one man, woman, or child; although I have uſed them upwards of 20 years. By uſing theſe pills and drops inwardly, and the balſam outwardly, I have cured above one hundred perſons of the Gout, ſome of which had gon on Crutches above a dozen years.

12. They cure the *Gonorrhœa* and ſharpneſſe of Urine, with all manner of *Diſeaſes Veneral*, although of many years ſtanding; all ulcers and ſtoppages in the reines, bladder and womb; they kill all ſorts of worms, cauſe a good appetite and a ſtrong digeſtion; taking away all ſwellings from the belly, Thighs, and Legs, being the beſt remedy known in the world for the Dropſy and Gout; taking away all manner of pains from the very bones, when no other means whatſoever will do. They diſſolve the Stone, and bring away ſlime, Sand, and Gravel cauſing thoſe to make water plentifully, which could not in many dayes before; this they have done in ſeveral hundreds to admiration. Many bed rid, and given over to all appearance, have unexpectedly met with a cure almoſt to a miracle; in ſo much that many learned Phiſitians, could not but admire at their Vertues.

13. The ſucceſſe and ſafety of theſe Pills, have brought them into credit and Eſtimation, almoſt through the whole world; forasmuch as they that take theſe, need not go under long, dangerous and chargable courſes of Phyſick, ſuffer by bad medicines, and be driven time after time from one Phyſitian to another.

14. Where the diſeaſe has been of long continuance, a perfect Cure cannot be expected in 5 or 6 times taking, in thoſe caſes take them in the largeſt doſe, and at leſt ten, fifteen, or twenty times, as need requires, omitting them ſometimes a day or two, as you ſee cauſe.

Laſtly, They may be taken without confinement to the houſe, or keeping within doors, nor is there any poſitive neceſſity to take broth or poſſet drink, or the like with them, as in other Phyſick, but as the patient pleaſes, being ſafe and gentle in their opperation, and fit to be taken by all perſons, from half a year old to threecore and upwards, at any time and ſeaſon of the year.

Or a CURE for

RUPTURES.

AT the first Door on the left Hand in St. *Brides Lane* over against the *Greyhound Tavern* Back Door in *Fleetstreet* liveth *John Taylor* Professor in *Physick*, who by long Experience, Study and Travel hath found out and doth prepare a Powder, which applyed internally, doth Infallibly give ease to, and Cure any manner of *Rupture* (though of never so long standing) in *Men*, *Women* and *Children*; the good success that the Author hath had in Curing many hundreds (with this *Powder* only, and an *Emplaister* applyed to the *Scrotum*, and *Mons Pubis*, which Outlandish pretenders hath left as Incurable, and have by him been made sound in six weeks time at most without hindrance in the least to their business) hath caused him for the Publick good thus to appear in Publick; but more especially for the good of the Poor, whose Purses will not reach to any considerable summ for a Cure: Here they may now have a Cure performed *Sound*, *Cheap*, and *Perfect*, and be delivered from the *Groanings*, *Rendings*, and *Miserable Torment* a *Rupture* produces; and to satisfie the World of his fidelity he maketh these Propolals following. As,

That he will undertake any person whatsoever and perform a Cure in a month or six weeks time at most, and his price shall be reasonable, and that they shall not hinder their business in course of their Cure, and those that have *Ruptures* shall be welcome to converse with him though they use him not.

That if so be the *Patient* thinks himself not cured he shall ask advice of any skilfull and honest *Chirurgeon*, and if he denies a *Cure* he will expect nothing for the *Medicines* received.

That if any will not agree on a *Cure*, they may have the *Powder* of him at two shillings the *Box*, and the *Emplaister* at one shilling, with Directions how to use it. He hath often known a *Rupture* of five years standing cured with six *Boxes* of *Powder* and two *Emplaisters*. He could subscribe the Names of several Eminent Persons which this *Powder* hath throughly Cured, but he admits not of that formal way but will give any one satisfaction from himself.

He is to be spoken with from Eight till Eleven in the Morning, and from Two till Six in the Afternoon.

It Cures a new Cough, or Cold, though never ſo violent, in three or four times taking; and old Ones it removes in a ſmall time. It takes off all Looſneſs, and Vomitings, and Surfeits, eſpecially after hard Drinking. The Meaſles, and Small Pox it brings out to Admiration. It is an Infallible Remedy for all windy Stomachs, and Windy Diſtempers, as the Co-

lick

Colick, Griping of the Guts in Men, Women, and Children; it is admirably comfortable to the Sciatical, and those that have Aches or Pains in their Limbs whatsoever. But for the Tooth-ach, I believe there is not the like Remedy, for in an Hour or less it gives ease, whether the pain be in a sound or rotten Tooth, in one or all the Teeth; not by stopping the Tooth, but by taking it inwardly, it dispels the Rheum that causes the pain; as yet it never fail'd me. The first Dose takes off the violent Pain, the next perfectly cures it. *Price* 1 *s.* 6 *d.* the Pot.

FEBRIFUGA:

OR an excellent Remedy for all sorts of Fevers and Agues, that in two or three fits infallibly cures the most violent Tertian or Quartan Ague. It abates Fevers in 12 Hours. *Price* 5 *s.*

EXUKIANO: Or the only Venereal Antidote without *MERCURY.*

BEing an easie course of Physick, of that admirable Virtue, as to expell all Venereal Malignities gotten by foul Men or Women: Never failing to remove all sharpness, or heat of Urine, in twice or thrice taking. It Cures all Ulcers and Fistula's in the Throat, Womb, or any part of the Body; if timely used, it flings off the Venom, and prevents a Pox. It never fails to cure the Whites and Weakness of the Back. And whereas all Pretenders in this manner offer you a single Medicine, as a Box of Pills, or the like, which they sell you for a small matter, to invite you to buy, tho to no purpose: I desire all People to ask at their leisure the most able and learned Practitioners, whether the Physick wherewith this Distemper must be cured, can be afforded for twice those Rates they set upon them? And whereas others use *Mercury* in all their Physical Courses, which proves of dreadful Consequence to their Patients; lest it should be thought, while I rail against it, I use it my self, I here affirm, That if any Artist can make it appear I have the least of it in my Composition, I will be bound to give him 500 *l.* The whole Packet or Parcel contains two Doses of purging Powders, a Glass of Elixir and a Pot of Balsom, *Price*, 3 *s.* Many have been Cured with one Packet, but two never fail. *All these Remedies hold good several Years, therefore convenient for such as go to Sea, or Foreign Plantations.*

They are to be Sold at my House, at the *Carv'd Posts* in *Stone-cutters-street*, between *Shoe-Lane* and *Fleet-ditch*: Where I am to be spoken with every Morning till Eleven, and from Five to Nine every Evening. Mrs. *Moore*'s a Salter, next Door to the *White Hart Inn* in *Southwark*. Mr. *James Neal*'s near *Redriff Stairs*. Mr. *Henry Barber*'s in *Ship-Alley* in *Well-Close*. *The Poor may have Advice for Nothing.*

At the Blew Ball *in* Great Knight-Rider-street, *by* Doctors Commons Back-Gate, *Liveth a Physician.*

WHO Cureth the *Venereal Disease* with all its Symptomes, as *Gonorrhœa*, or *Running of the Reines*, *Pain in the Head*, or any part of the Body; And in fine, let the Patients Condition be never so bad, if Curable, I perform the Cure, and have Cured some Hundreds of this Disease, when they have been left as incurable by other Physicians, and shall at any time undertake and perform the same, if the principal Parts and strength are not absolutely decayed and exhausted.

Observe, That every one that is a good Physician or Chyrurgion cannot Cure this Distemper, nor one of a Hundred that can Cure it safely, therefore take care of them that use Mercury, for the Effects of it are dangerous. I Cure any one although they have had the Disease twenty years, in a shorter time then can be expected, and I never use any Mercury. I Cure all Ulcers in the Throat and Mouth though never so bad, and prevent the Loss of Pallat or Nose, though almost perished.

I Request a favourable Construction on this publick Way of Practice; And as I mention no other Disease but the *Venereal Disease*, (which Disease for about ten years I have indefatigably studied to know and find out the nigh and safe Way of Cure,) and should utterly prætermit Appearing in print, only I see those daily Enormities Committed in the Cure of this Disease, which induces Me to this publick way of practice, and to prevent the Ruine of them that Labour under that violent Disease, the *POX* or *Gonorrhœa*, and do throw themselves upon many ignorant Out-landish pretenders, to the patient's utter Ruine both of Body and purse.

Scire est studere sine quo nemo potuit in Medicina aliquid agere, ut Medicorum Princeps dixerit; Sic provitas magna admodum Medicis fuit olim & continuanda, dum Scientia Medicinæ Hominibus nota erit Mortalibus, & absque solertia (maxima ex parte) nihil est faciendum, quod mihi Præceptum usque ad vitæ finem meæ erit.

Or a CURE for

RUPTURES.

AT the first Door on the left Hand in St. *Brides Lane* over against the *Greyhound Tavern* Back Door in *Fleetstreet* liveth *John Taylor* Professor in *Physick*, who by long Experience, Study and Travel hath found out and doth prepare a Powder, which applyed internally, doth Infallibly give ease to, and Cure any manner of *Rupture* (though of never so long standing) in *Men*, *Women* and *Children*; the good success that the Author hath had in Curing many hundreds (with this *Powder* only, and an *Emplaister* applyed to the *Scrotum*, and *Mons Pubis*, which Outlandish pretenders hath left as Incurable, and have by him been made sound in six weeks time at most without hindrance in the least to their business) hath caused him for the Publick good thus to appear in Publick; but more especially for the good of the Poor, whose Purses will not reach to any considerable summ for a Cure: Here they may now have a Cure performed *Sound*, *Cheap*, and *Perfect*, and be delivered from the *Groanings*, *Rendings*, and *Miserable Torment* a *Rupture* produces; and to satisfie the World of his fidelity he maketh these Proposals following. As,

That he will undertake any person whatsoever and perform a Cure in a month or six weeks time at most, and his price shall be reasonable, and that they shall not hinder their business in course of their Cure, and those that have *Ruptures* shall be welcome to converse with him though they use him not.

That if so be the *Patient* thinks himself not cured he shall ask advice of any skilfull and honest *Chirurgeon*, and if he denies a *Cure* he will expect nothing for the *Medicines* received.

That if any will not agree on a *Cure*, they may have the *Powder* of him at two shillings the *Box*, and the *Emplaister* at one shilling, with Directions how to use it. He hath often known a *Rupture* of five years standing cured with six *Boxes* of *Powder* and two *Emplaisters*. He could subscribe the Names of several Eminent Persons which this *Powder* hath throughly Cured, but he admits not of that formal way but will give any one satisfaction from himself.

He is to be spoken with from Eight till Eleven in the Morning, and from Two till Six in the Afternoon.

WITH ALLOWANCE.

IN

Frogmorton-Street,

AT the *Golden Ball* over againſt *Draper*'s Hall, between *Bartholomew* Lane and *Broad.ſtreet*, near the *Royal Exchange*, May be had of *T.C.* an approved Phyſician of long Practice, A pleaſant Drink which purges by Urine, at two ſhillings ſix pence the Bottle, with my Anti-Venerial Pills, which purge by Stool, at three ſhillings the Box. They will be delivered to any Meſſenger with Directions ſealed up how to take them. Secrets ſo excellent in operation, and ſo friendly to Nature, that in my conſtant practice, and great experience for Twenty Years, in this City of *London*, is well known to be the moſt ſucceſsful, both for preventing, and curing, perfectly and ſpeedily the *Venereal P O X*; A Diſeaſe deſtructive to the body of Man, if not timely and carefully prevented; It proceeds from a virulent, venemous Matter ſuckt into the body by a ſtrong attractive Faculty in time of Copulating with an unclean Woman, which excoriates the whole paſſage of Urine, and cauſes a foul ſtinking Iſſue, or Running; this Ulceration is the cauſe of ſcalding heat of Urine, pricking, and painful ſtanding of the Yard, and if neglected, and not carefully cured cauſes ſwellings in the Cod, Buboes, or ſwellings in the Groin, and infects the body in general with the *P O X*, as by an Ulcer upon the outſide of the Yard, called a Shanker, ragged Warts in the privy Parts, pains and Scabs in the Face, Head, or Neck, and ſometimes over the whole body, Inflammations and Ulcers in the Mouth and Throat. To prevent theſe dangerous Evils, be ſo kind to your ſelves, to be conſtantly provided with my Anti-Venerial Medicines, that Infallibly eradicate all poyſonous Matter and Steems that are contracted in the body, in as ſhort a time as can be

be expected. Therefore do not hazard your bodies with unskilful Pretenders, nor neglect your selves, to let it fix upon the bones, for then you must be confined; if you expect a Cure, which may be prevented by my never-failing Medicines, wherewith any new contracted *POX*, Runnings, or Clap of what kind soever, are all cured with that great Success, by the use of these excellent Cleansers, which operate so moderately by Stool and Urine, that all the heat of Urine is immediately abated, the poysonous Cause throughly cleansed, and the great danger of the *POX* assuredly prevented, and all Persons at what distance soever, either by Land or Sea, without giving cause of Suspicion to their neareſt Relations, may with ease, speed and privacy, free from Relapse, help themselves, Directions observed, without hazard either of Body, Purse, or Reputation, as hath been throughly proved, to the great Satisfaction of hundreds of Persons.

☞ If you have been concerned, and fear you have got any hurt, some few Dozes do certainly prevent it. Many are bashful, and loath to come to me, let such send the Particulars of their present Condition, and they may have Medicines sent them to perfect a Cure.

☞ This excellent Drink, and Incomparable Pills, which I here recommend, Reader, to your use, whether in health, or Sickness, in respect of their preparatiou, and operation, are not only effectual for the abovesaid Distemper, but are a sure Antidote against the Scurvy and Dropsies, and will prove as great an advantage to you, as any as yet you have met with, if timely used, and duely observed, according to Directions.

A Caution to the Unwary

'TIS generally acknowledged throughout all *Europe*, that no Nation has been ſo fortunate in producing ſuch eminent Phyſicians, as this Kingdom of ours; and 'tis as obvious to every eye, that no Country was ever peſtered with ſo many ignorant Quacks and Emperics. The Enthuſiaſt in Divinity having no ſooner acted his part, and had his *Exit*, but on the ſame Stage, from his Shop (or ſome worſe place) enters the Enthuſiaſt in Phyſick; yeſterday a Taylor, Heel-maker, Barber, Serving-man, Rope-dancer, *&c.* to day *per ſaltum* a learned Doctor, able to inſtruct *Eſculapius* himſelf, for he never obliged Mankind yet with a *Panacæa*, an Univerſal Pill or Powder that could cure all Diſeaſes, which now every Poſt can direct you to, though it proves only the Hangman's Remedy for all Diſeaſes by death. *Pudet hæc opprobria dici*; for ſhame my dear Country-men re-aſſume your Reaſons, and expoſe not your Bodies and Purſes to the handling of ſuch illiterate Fellows, who never had the Education of a Grammar School, much leſs an Univerſity.

Nor be ye ſo irrational as to imagine any thing extraordinary (unleſs it be ignorance) in a pair of Outlandiſh Whiskers, though he's ſo impudent to tell you he has been Phyſician to 3 Emperours and 9 Kings, when in his own Country he durſt not give Phyſick to a Cobler.

Nor

Nor be ye gull'd with another ſort of Impoſtor, who allures you to him with *Cure without Money*, but when once he has got you into his Clutches, he handles you as unmercifully as he does unskilfully.

Nor be ye impoſed on by the pretence of any *Herculean* Medicine, that ſhall with four Doſes at 5 *s.* a Dos cure the moſt inveterate POX, a Diſtemper not to be eradicated (in the opinion of the moſt Learned in all Ages) with leſs then a renovation of all the humours in the whole body.

Theſe and the like abuſes (too numerous here to be mentioned) have induced me to continue this publick way of Information, that you may be honeſtly dealt with, and perfectly cured, repairing to him, who, with Gods bleſſing on his Studies, and 20 years ſucceſsful practice in this City of *London*, hath attained to the eaſieſt and ſpeedieſt ways of Curing,

The RUNNING of the REINS, known always by an Iſſue from the Yard, and ſometimes by a ſcalding pain making water (not always got by Women) which if unadviſedly ſtopt frequently breaks out into

The POX, known by pains either in Head, Shoulders, Arms or Legs, and ſometimes by Scabs and breakings out, ſometimes only by a dulneſs and general indiſpoſition of the whole body, which he radically cures without fluxing or fear of relapſe, with ſuch eaſie Medicines, that the Patient may follow his occaſions, without giving cauſe of ſuſpition to his neareſt Relations. He Cures likewiſe

Agues, Conſumptions,
Dropſies, Obſtructions of Liver or Spleen,
Hypocondriac-Melancholy, Worms,
Stoppage of Urine, Convulſions, and Scurvy.

And has never-failing Remedies for
Griping in the Guts.
Fits of the Mother,
Piles, Jaundice, and other Diſtempers here omitted.

The Vertues of that Moſt Succeſsful PILL, Called

Nendick's Popular-Pill,

Which is deſervedly ſo called, for its Vertues againſt that POPULAR *Diſeaſe*, the SCURVEY.

IT is obſervable, ſome Diſeaſes are familiar to ſome Nations, which others are altogether free from, as *Leproſie* very familiar among the *Egyptians*, Swelled Throats to the Inhabitants of the *Alpes*, the *French Pox* in ſome Parts of the *Indies*, ſo in theſe Parts our common Diſeaſe is the *Scurvy*, which is bred from corrupt humours which ſtrangely taint and foul the blood, and fill the Veſſels with Obſtructions, raiſing Vapors that cauſe Swimming and Dizziueſſe in the Head, makes the Body dull and heavy, cauſes Swarthy Complexions, Fluſhing in the Face, Worms, black, looſe and aking Teeth, ſore and bloody Gums, ſtrong & ſtinking breath, ſtreightneſſe of Breath, Difficulty in breathing, ready to die, Sour Belchings, Waterineſſe at Stomach, Wearineſſe and Weakneſſe of the Limbs, Faint Sweats towards Morning, oftentimes the cauſe of barrenneſſe, ſometimes Spots red, blewiſh or purple are in the Legs.

In ſome it is like Fleabites, or itching watry pimples, like ſtinging of Nettles; It cauſes windineſs in the Veins, pricking and itching in the blood; In many the *Scurvy* holds them with violent pains in divers parts of the Body, in others only wandring pains; heats and twitchings up and down: In ſome it breaks out in Scurf, Tetters, dry Scabs in Head, Face or Body.

When the *Scurvy* has got firm footing, it's the worſt of all Diſeaſes, it will be like the *Spleen* in ſome, like a *Conſumption* in another, like the *Gout* in others, like the *Pox* in others, that many who have had it fear they are ſtill bad, becauſe they miſs the right Medicine, not dreaming they have the *Scurvy*

THe *Scurvy* in ſhort, is the undoubted cauſe ſo many do linger and pine under ſo many tedious and difficult Diſeaſes, That I affirm with able Doctors, that have lately ſeen the Succeſs of this Pill in divers parts of *England*, as alſo at the *Incurabile* in *Venice*. That no Medicine can be truſted in any diſeaſe like this Pill, becauſe it cures the Scurvy, which has obliged me to ſet down the Cauſes, Signs & Cure of this Popular Diſeaſe, the Scurvy.

THe Nature of each Diſeaſe, and how to take the Pills, is fully laid down in the book of Directions, which will be given unto any meſſenger with a tin box of Pills. Sealed with two Croſſes; the price of the whole box of forty Pills is three ſhillings, the half Box of Pills, is eighteen pence.

It is a pleaſant and ſmall Pill, five Pills being the Doſe.

What Cures have been done upon the *Scurvy*, *Dropſy*, *Evil*, *Agues*, *Worms*, *Stone* *Gripes*, *Pox*, and other Diſeaſes;

See in my Book given with the Pills *for ſatisfaction.*

This *Pill* is only Prepared and Publiſhed By me *H. Nendick*,

The Pills will be delivered to any Meſſenger at my Houſe, at the two black Poſts in *Bell-yard*, *in Carter-lane* near S. *Pauls* Church.

Cures wrought by these Popular-Pills.

THis PILL infallibly removes all Aches and setled pains, discharges the Body of Wind and Water, brings away old Bruises and Surfets; *this Pill works kindly*. Its an excellent *Head* purge, good for over-drinking, also for costive and hot bodies, never leaves the body bound, nor makes sick, nor gripes unless it meets with some Obstruction.

This pill at two doses brought from a person a bunch and one link of worms knotted, above five yards and a half long sent by M. *Dan. Treacher* in *Sarrat* near *Watford*.

A man 72 years old, all his body was swelled to his face, he had a great cough, spit blood, the flegm so clammy he could not get it out without help he was so weak; a few of these pills he had from Mrs *Atkins* in *Chard* recovered him, when his own Family and neighbours yielded him for dead.

A Childe could make no water that a Surgeon was to force a Passage, by the first Dose, Matter, Blood, and Gravel, came away with abundance of water, ask of M. *Moyes* in *Wisbech*.

A Woman who had spent all to get help for the Stone, bloodie Urine and Stoppages, was Cured to miracle by half a box of my Pills, by Mr. *Griffith* in *Cardigan*.

This Pill cured a woman in *Chard* left off by two Doctors, because the Scurvy had brought her into a hectick consumption, her breast swell'd so hard that one that used to draw breasts could not, but wished her to try these pills; a few doses brought down her breast, brought away an impostume that run out of her ears, cured her of an headach she always had; she has had a childe or two since, and is still very healthy.

SUch as *Spring* and *Fall* expect touches or Grudges of Diseases they are subject unto, may perfectly Cure themselves, being the best Pill to clense the blood, and keep off the *Scurvy* now and then taking them; Against all Heat and Foulness of blood, Dropsie, Jaundice, Spleen, weakness of the Back, or gripes. Use them to Purge the body after any Fits of Sickness.

This is a true Bezoardick Pill, which cures Kings-Evil, Sores or Swellings, and clears the body of the *Foul Disease*, and instantly eases any Sharpness in Urine Running of the Reins with Ulcers, Shankers, Swellings, soon Cures or prevents a Clap, defending the blood from being Infected by the Disease by this moderate physick.

The half box of *Pills* is eighteen pence.

To make the true Compound Elixir *of* Scurvy-Graſs, *and* Horſe-Radiſh.

TAke Horſe-radiſh roots, *ten pound*; Scurvy-graſs ſeeds, *eight pound*; Sea and Garden Scurvy-graſs, of each *ten pound*, Winter's Synamon, *four pound*: Bruiſe the Seeds, reduce the Bark to a groſs powder, Macerate the Herbs in a Marble Mortar, then Extract an *Elixir* (with an apt *Menſtruum*) according to the *Spagerick Art.*

Its Vertues.

THIS Compound *Elixir* far exceeds the common diſtill'd Spirit of *Scurvy-Graſs* or *Horſe-Radiſh* in Curing the *Scurvy*, *Dropſie*, *Stone*, *Gravel*, or any other Diſeaſe appropriated to either of them) becauſe it abounds with a Volatile, Mercurial penetravive Salt, and partaking more of the bitter property, makes it a greater opener of Obſtructions, and allayer of Sharpneſs, being prepared as this our *Elixir* is. For in common Diſtillations no Glaſs is able to retain the Volatile Salts and Tinctures of theſe Vegitables, when agitated by that force of Fire which muſt be uſed in all ſuch Diſtillations: Therefore all Vegetable Bodies, ſo prepared, looſe their Natural Gifts, and are no more the Medicine they were when at Unity in the Concret. And the better to inform the Reader touching the difference between ſuch Spirits, and an *Elixir* of Plants; Know, that an *Elixir* is an Eſſential, Seminal, Volatile, Balſamick Liquor (by ſome called the *Craſis* of a Plant) raiſed to a new or regenerate Life, after Putrefaction, in a proper Diſſolvent; and this ſeparated Purity I call *Elixir*: And ſuch Preparations as theſe are fitted for Natures reception, that the Vital Spirit (or Governour of Life in Man) may diſpoſe of them for thoſe great Uſes and Ends they were ordained, *&c.*

The USE *of this Excellent Compound* Elixir *of* Scurvy-Graſs *and* Horſe-Radiſh.

In Bartholomew-Cloſe, *at the Signe of the* Red-Ball, *with Two* Black Poſts *at the Door, near unto* Smithfield-gate, *lives an Expert* Operator; *who,*

BY the Bleſſing of God, in his many years Travels, and large Experience in Forreign Countries, hath attained to many Rare Secrets in Phyſick, by which he hath performed wonderful Cures on many hundreds of People: There never was more Pretenders to Cure the *POX*, than there is now: But Friends, have a care how you fall into the hands of ſuch Ignorant pretenders; for if they once but get you into their Clutches, they will uſe you as unmerciful, as they are unskilful. Therefore be not aſhamed to ſeek help in time; come to me; for the Diſeaſe is ſoon Cured by him that hath the right way (if you uſe him); for he is not one that cures a Clap by chance, or keeps you Phyſicking Months together.

He Cureth the *Gonorrhœa*, or *Running of the Reins*, if newly contracted, in a Week or Ten Days; but if Rebellious or Virulent *Sores*, Stinking *Matter*, *Sharp Pains*, or *Heat* and *Stoppage of Urine*, he Cures in Twenty Days at Fartheſt: *Hemorrhoids*, *Ragged Chaps*, and *Clefts* in the *Fundament*, Pockey *Swellings*, and *Buboes in the Groin*, *pains in the* Back, *with Nodes*, *Knots*, or *Exoſtices* on the *Head*, and *Shin-bones*; alſo *Scabs*, *Itch*, *Puſles*, *Tettars*, *Ring-worms*, or Breakings out of the whole Body: All which he can Cure without Fluxing or Sallivating, although never ſo bad, as many by good Experience can well teſtifie, that in three Weeks or a Month at fartheſt, have been reſtored by his *Never failling Pills*; which are ſo faithfully prepared; that the tendereſt Patient

Patient may take them, and go about their buſineſs, without loſs of time, or cauſe of ſuſpition to their neareſt Relation, or danger of Relapſe. He likewiſe Cures the *Stone in the Riens*, or *Bladder*, with much eaſe. This *Pill* is the true *Antidote*, againſt the *Scurvy*; The *Scurvy* is the cauſe ſo many Diſeaſes are long growing, and ſteal upon People, then prove hard to Cure; ſuch lurking Diſeaſes, few are ſenſible at firſt, but now and then taking a Doſe of theſe *Pills*; might prevent their coming, and procure Health: for that Medicine which will Cure the *Scurvy*; will reach any Diſeaſe. A Doſe or two of theſe *Pills* commonly Cures any ſmall *Clap*, and keeps the Party from being Infected by the Diſeaſe.

Theſe *Pills*, the beſt and cheapeſt of all Phyſick, are three Shillings a Box, and 18 Pence a Box, Sealed up with Printed Directions how to uſe them; they are excellent good for Seamen to take to Sea with them; for they keep their full Vertue for Seven Years.

He Cures the *Griping of the Guts*, although never ſo violent, in half an hours time; and gives preſent eaſe in the *Tooth-ach*, in the greateſt extremity of pain.

He hath likewiſe a *Stone*, which makes black or yellow *Teeth* as white as Ivory, in half an hours time; a ſafe *Powder* that brings away all ſorts of Worms at once, in Children or others, and clears the Body to admiration; a *Water* which takes all *Kedneſs*, *Pimples*, or *Scabs* out of the *Face*, in two or three Days time, and leaves the Skin *ſmooth and clean*. *He Cures Agues of all ſorts.*

A Private Lodging may be had if Deſired. And his Houſe is ſo private, that no notice can be taken of your coming to him; And he will freely give his advice for nothing.

He is to be ſpoken *with from* 6 *in the Morning, till* 12, *and from* 2 *till* 10 *at Night.*

Cure for the Dogmatical Incurables, performed in Matter of Fact by N. Merry Philo-Chym.

All Subjects have their Excrements in them, and Excrements will make but bad Medicines. First cure the Subjects of their Diseases, and thou shalt happily cure thy Patients of their Sicknesses. All true Medicine is the incorruptible and undigestible part latent in their Subjects. Whence it follows that Excrements and Foods are no Physick, or very improper Medicines; hence a necessity of Seperation.

AT the *Star* in *Bow-lane*, next door but one to the *Half-moon-Court*, *Nath. Merry*, Student in Vital Physick, hath Dwelt about Eight years, who is well known to have performed many wonderful Cures in and about this City, not only in these Distempers following, but many more, which here is not room to insert; and doth frequently and constantly do the same: As Consumptions, Scurvey, Dropsie, Dolorous Pains in the Stomach and Bowels, and all Obstructions therein; Surfeits, Feavors, Agues, Coughs, Colds, Catarrhs, Astma's, that is when the Lungs be stufft, that a Man draws his Breath with difficulty and wheasing, the Green Sickness, wanting or abounding of the Terms in Child-bed or other ways; Sore Eyes, Sore Mouth, or the Scurvey in the Gums, Griping of the Guts, Hypocondriack Melancholly, the Stone, or Gravel in the Reins or Bladder, the Gout, Sciatica, the Whites, Obstructions of the Liver and Spleen, the Jaundice, Fits of the Mother, Timpany, Kings Evil, French Disease, *&c.* Leprosie, Palsie, Madness, Pthisick, Melancholly, Megrim, Head-ach, Deafness, Tooth-ach, Cancers, Fistula's, Ulcers in the Womb or Bladder; many Occult Diseases, which no Physician can give a name to: I have cured such when they have been given over as incurable, by removing the primary cause or seeds of Diseases, by relieving Nature in its Center by Vital Rays, restoring lost Strength, and cheering the Vital Spirits, destroying all lurking Venoms or Poysons in the Body, by Archeal or Vital Medicines, Homogeneal to Nature, and capable of uniting with the Universal Natural Life, which is one in all things; and by no less than such Superior Commanding Medicines could many of the Cures that I have done about this Town be performed, some given over by Four or Five Doctors. Shortness of Breath, Faintness, Heart-burnings: All Pains in the Back and Limbs, though Venoms be settled there, Numbness of the Side. *&c.* Swellings, Imposthumes, Inward or Outward, in the Stomach or Head, *&c.* Epilepsie, Bloody Urine, Spitting of Blood, voiding Blood, Stoppage of Urine, general Pains, general Weakness, Pains in the Hemorroids, Spotted Feavors, Scarlet Feavors, *Contractio Neworum*, which I have cur'd when the Body hath been drawn double and fixt so; and the

Neck

Neck and Face drawn and fixt looking over one ſhoulder. I cure Swellings, Fiſtula's, Ulcers and Sores (old or new) proceeding from an inward cauſe , with inward means only (removing the primary cauſe) which will never ſubject to outward means ; nor is the Fountain deſtroyed by any thing but Fermental Medicines, which are indued with a wonderful gift capable of wiping away the Original Evil Source , by which means I have ſaved many Hands, Arms, Legs, Fingers, and Toes, from cutting off when they have been ready and ordered for Amputation, by the Vulgar way, and other ways pitifully cut, ſlaſh'd and mangled to the inraging and inflaming of Nature ; many have had Venemous or Virulent Reliques of Malignant Feavors, Agues, Small-Pox, Meaſles, *&c.* fallen into their Thighs, Legs Feet, Shoulders, Arms, Hands, *&c.* for want of Fermental Medicines , capable to ſubdue and deſtroy theſe Primary Evils in their Sickneſs : I have cured them in a little time (both after and before) they have been ſent by others into the Countrey Air for a Cure , which generally fails. Theſe and many more Diſeaſes , both Acute and Chronical , by Gods Bleſſing, I have and do conſtantly Cure, as is well known by many hundreds ; for they have not been done in a Corner, but have been evidenc'd publiquely in my Paper of Cures , Entituled , *Evident Satisfaction to the Sick*, &c. and other Writings, and can be infallibly proved by a multitude of Witneſſes, now living in this City, to any that are yet ignorant thereof : which Cures have been wrought by Medicines truly adapted, and naturally gifted with a Capacity to expel and correct Venoms, and cloſe with Nature centrally, by rays and beams of Light upon the Spirit of Life, which corrects the Diſorder of the *Archeus*, and re-unites its powers, correcting, healing, and reſtoring every Vital Faculty, to its due and natural Motions and Actions. All honeſt Chyrurgeons, Apothecaries and Doctors, that are not furuiſhed with ſuch Medicines, and make Conſcience of the Lives and Limbs of their Patients, may have them of me at reaſonable rates ; for the ſluggiſh obſolete Medicines preſcrib'd (I cannot ſay adapted) by the Ancients , without any previous ſeperation of the Pure from the Impure, for more ſimple or ſingle Diſtempers , hath done little or no good theſe many years. (*Paracelſus* ſaith they help not in the leaſt.) And how rarely any Diſeaſe is found without its variety of Complications, which require Medicines of a ſuperior Order to command them , ſuch as are diveſted of their dark Vails of Virulency and Crudities , and ſuitably Adapted (to the preſent Malignities and Obſcurities , Clouding the Light of Life) by their true Actives and Paſſives , and their proper Menſtruums and Mediums. I call God to witneſs I am Maſter of ſuch Medicines , prepared by my own hands , as the Cures that I have performed do prove , and is known to many, and may be known to all that are willing to be informed ; which Medicines any that need , may have them of me , at Reaſonable Rates.

My hours are from 8 *in the Morning till* 6 *in the Evening.*

The Vertues of that moſt ſucceſsfull Pill, Called Nendicks Popular-Pill.

Commended by all People as have uſed it for the Scurvy: It has done ſo much good, and has been Experienced ſo many years, that you can hardly ask any one what Medicine is beſt for the Scurvy, or to carry to Sea, or for any Plantation, but you will be adviſed to take this pleaſant Pill. It cures moſt diſeaſes, eſpecially any thing of Scurvy. Therefore it is deſervedly ſo Called, for the Vertues it hath

To Cure that Popular Diſeaſe, the Scurvy.

It Purges gently by Stool and Urine, and Purges the Blood, which no violent Phyſick will do; this hinders no buſineſs, and five ſmall Pills is the Doſe. This Pill is made by me *Humphrey Nendick*, and by no other.

A Diſcourſe of the Nature and Care of the SCURVY.

IT is obſervable, ſome Diſeaſes are familiar to ſome Nations, which others are altogether free from, as *Leproſie* very familiar among the *Egyptians*, Swelled Throats to the Inhabitants of the *Alpes*, the *French Pox* in ſome part of the *Indies*, ſo here our common Diſeaſe is the Scurvy.

THe *Scurvy* corrupts the blood, makes Obſtructions, raiſing Vapours that cauſes Swiming and dizineſs in the Head, makes the body dull & heavy, cauſes ſwarthy Complexions, flushing in the face, worms, black looſe and aking Teeth, ſore and bloody gums, ſtrong & ſtinking breath, ſtreightneſs of Breath, Difficulty in breathing, ready to die, ſour belchings, waterineſs at Stomach, wearineſs & weakneſs of the limbs, Faint ſweats towards morning, oftentimes the cauſe of barrenneſs in many. Sometimes ſpots red, blewiſh or purple appear in the legs.

In ſome it is like flea bites, or itching watry pimples, like ſtinging of nettles; It cauſes windineſs in the veins, pricking & itching in the blood in many the *Scurvy* holds them with violent pains in divers parts of the body, in others again only wandring pains, heats & twitchings up and down, in ſome it breaks out in Scurf, Tetters, Scabs, Head, Face or body. When the *Scurvy* has got firm footing its the worſt of all diſeaſes.

It will be like the *Spleen* in ſome, like a *Conſumption* in another, like the *Gout* in others, like the *Pox* in others that many fear they are ſtill bad, becauſe they [illegible] the right Medicine, not thinking they have the Scurvy.

THe *Scurvy* in ſhort, is the undoubted cauſe ſo many do linger & pine under ſo many tedious & difficult Diſeaſes, that I affirm with able Doctors, that have lately ſeen the ſucceſs of this pill in divers parts of *England*, as alſo [illegible] *Venice*. That no Medicin can be truſted in any diſeaſe like this Pill, becauſe it cures this *Popular Diſeaſe the Scurvy*.

CUres done upon the Scurvy, and how to take the Pills, is fully laid down in the Book of Directions, which will be given unto any Meſſenger with a tin box of pills Sealed with two Croſſes; the whole Box of Forty pills is three ſhillings, the half Box of pills is Eighteen Pence.

The Pills will be delivered to any Meſſenger at my own Houſe, at the two Black Poſts in *Bell-Yard*, in Great *Carter-Lane* near St *Pauls* Church.

Cures lately wrought by this Popular-Pill.

THis Pill Infallibly removes all Aches and ſetled pains, clears the body of Wind and Water, brings away old Bruiſes and Surfeits.

Mr. *Rob. Jackſon*, of *Jordanthorp* in *Norton* Pariſh in *Derbyſhire*, overrun with the Scurvy, loſt his Complexion, had great pains in back, Bowels and Sides by an old Surfeit, a violent Cough, ſpit blood, was left off by the Doctors. This Pill cured by purging out much clotted blood, and Matter like Leather and parings of Horſes hoofs, gravel and ſmall ſtones.

This Pill works kindly, nor makes ſick, nor gripes unleſs it meets with ſome obſtruction, or wind. It's an excellent Head purge, good for over-drinking, alſo for coſtive and hot bodies, *never leaves the body bound.*

This Pill is good for all Diſtempers in the Head or Stomach.

This Pill cured a woman in *Chard* left off by two Doctors, becauſe the Scurvy had brought her into a Hectick *Conſumption*, her breaſt ſwell'd ſo hard that one that uſed to draw breaſts could not, but wiſhed her to try theſe Pills; a few doſes brought down her breaſt, brought away an impoſtum that run out of her ears, cured her of an head-ach ſhe always had.

This Pill is a great purger and cleanſer of the Reins.

A Woman who had ſpent all to get help, for the Stone, bloody Urine, & ſtoppages, was cured by half a box of Pills, by M. *Griffith* in *Cardigan*.

The Pills are much uſed for the Urine at the *Wells* and at the *Bath*.

Mr. *Wheenal* Gun-ſmith in *Preſtain*, who had not ſat upright or gone out of his Chamber 2 years before. This Pill laſts good ſeven years.

SUch as *Spring* and *Fall* expect touches or Grudges of Diſeaſes they are ſubject unto, may perfectly cure themſelves, being *the beſt Pill to cleanſe the blood*, and keep off the *Scurvy* now and then taking them; it carries off the humour as rots the Teeth, faſtens them, kills the Worms, mends the Gums and breath. Cures thoſe ſubject to Pimples or breaking out, Cures Barrenneſs if cauſed by foulneſs, ſtoppage, or weakneſs of the Mother; alſo it prevents ſuch Evils as happen to elder women when thoſe do leave them, or hurts taken by miſcarriage.

This is a true Bezoardick Pill, which cures Kings-evil, Sores, or Swellings, and clears the body of the *Foul Diſeaſe*, and inſtantly eaſes any ſharpneſs in urine Running of the Reins with Ulcers, Shankers, ſwellings ſoon cures or prevents a Clap, defending the blood from the infection. Purge with this Pill after Small Pox, or any fit of ſickneſs, or before you be Lett Bleed, or if you come newly out of the Country, or from Sea.

The Half Box of Pills is Eighteen Pence.

A Doſe now and then preſerves the Body in perfect health, glads the Heart, ſtrengthens the Liver, creates a good Appetite, and in any Wearineſs, ſlight Surfeits, wandring Pains, Faintneſs, Dizzineſs, Vapours, Pain of the Stomach, Dulneſs, and Melancholy, one good Doſe ſeldom or never fails to Reſtore, which Thouſands know to be true. The Bottle contains three Doſes, Price One Shilling.

Tinctura Veneris, being the moſt ſafe, ſpeedieſt, and ſucceſsful Medicine extant in the Running of the Reins, Claps, *Gonorrhæa's*, Pox, and all Venereal Diſtempers, Dropſies, and Scurvies; which happy Secret was obtained during the Author's being in the Hoſpital of the *Incurabile* at *Padua*, and has with good Reaſon made him reject all the common ways practiſed in this Nation, and ſome others, by Fluxing, Vomits, or that common way of Curing by Purging Pills only, whether *Mercureal* or other ſorts, which beſides the tediouſneſs of the Cure, and trouble in taking ſuch Medicines, extreamly weakens the Body, by ſuch a continual rumidging in the Bowels, falling foul on the Aliment which ſuſtains the Body, and continually diſturbing the whole, inſtead of ſeizing (as it ought) only upon the Diſtemper; and commonly after all leaves behind Spots, Scurf, Scabs, Carbuncles, Head-ach, blackneſs of the Teeth, Leanneſs, if not a Conſumption, with a cold Moiſture, and loathſom ſtinking

of

of the Privities, which this absolutely Cures, with all Aches of the Limbs, with sharpness of Urine, pricking Pains, pain in Erection, and other Concomitants, by its Specifick quality, powerfully throwing forth the Malignancy by Urine, which all Artists must allow to be Genuine, making the Party as sweet as the young Child, rooting out the very dregs of any former Evils.

And for the ease of taking it, there is not the like; you can scarce feel the tast of it, and the Operation on the Body altogether insensible: You may Work or Play, Ride, Hunt, go where you please, by Land or Water, none can know you take Physick, it insensibly restoring all to a perfect sweetness and soundness of Body. This blessed Medicine is a great Secret, powerful Antidote, and so safe, that Milk to the Child is not safer.

Now perfectly to Cure your self, take every Night 40 drops, and every Morning 20, or 25 drops of it, not eating in 4 or 5 hours after; you must take it in a Dram of Anniseed-Water, Carraway, Brandy, or sharp White-wine; drop it first into the bottom of the Dram-cup, and you may Purge every fourth day with my Elixir as you see good; but I have cured divers, and given them but one Purge, and your own discretion will direct you; omitting the Tincture what days you Purge, and you will be infallibly, speedily, and insensibly cur'd.

Many Persons who have had the Running of the Reins some Years, taken an incredible quantity of Physick, spent many pounds and been miserably consumed by such Ignorant Pretenders, have with two or three Bottles of this Tincture been perfectly cured, and restored to Admiration; if a Clap be newly got, one Bottle never fail of a Cure; I have cured divers in eight days time, but a bottle of it is as much as you can spend in fourteen days. If you have any Sores, Scabs, Ulcers, Spots, &c in any place, two or three drops rubbed well on it, heals it so quickly, that 'tis astonishing: If you fear you have got harm, a *Dose* or two at the first prevents; it is also a great Relister, standing Centinel in the Body against any Contagion; which divers Girles and others know to be a great truth, who seldom, by reason they cannot live regularly, have any benefit, but are worse by Medicines which lay the Body open.

I do aver, the like Medicine is not publick, and if the Bashfulness of People in this *Disease* hindred not the imparting such a Medicine to others, it would give a bold stroke to extirpate this troublesome *Distemper* out of the Nation; many hundred have had the comfortable use of it, after tedious languishing in the hands of unmerciful, as well as unskilful Men in this *Disease*, by which the Poor have been made miserable; every one not knowing how he shall be screwed when once in some men's clutches. But here is perfect Cure for a very little. You may be happy if you make use of it; if you neglect it, 'tis your own fault: It is a Medicine will retain its Vertue some Years, and is superlatively good for those that use the Seas who cannot keep out of the Cold, and may be hasted away before a Cure is perfected or unhappily fall into dangers abroad. Avoid *Drinking* and Tipling, for that hinders; Work or Play is good. I have for the more ease ordered it to be Sold at these places hereunder mentioned, being Ale-houses, where you may go into a Box, call for a pint of Ale, and have it delivered by the Landlady, without the least Notice or Suspicion, Sealed up with my Cypher, and the *Directions*. Price Two Shillings

By Doctor *Vanforce*, out of Love to all, but Compassion to the Poor, who often suffer for want of Money. Give Glory to God.

AT the earneſt Requeſt of ſeveral Perſons of Quality, There is lately come to this Famous City of *London*, an Experienced *High German* Doctor, Eminent not only for his many Years diligent Study in that moſt excellent art, but alſo by his great Experience and ſucceſs in *Germany*, and other Kingdoms and Countries. He hath attained to that Expeditious, ſafe and ſure way of curing all manner of curable diſeaſes, in a ſhort time, to the great ſatisfaction of all ſorts of Perſons, and as a Reward of his Eminent Services, ſeveral Sovereign Princes, States and Magiſtrates (where he hath Travelled) have beſtowed on him their Teſtimonials, which he can produce to any that ſhall deſire to ſee them. And after having (by the Grace of God) perform'd many famous Cures in places beyond the Seas, he has been prevail'd with to come over hither, where he will be ready to aſſiſt with his advice and medicines, all ſuch as ſhall come to him for his Help.

He carefully, and with great Expedition, cures all Internal and External Diſtempers; all Vapours, Giddineſs, or ſwiming of the Head, Fainting fits, Noiſe in the Ears, Deafneſs, Dropſie, Yellow-Jaundice, Scurvy, Rheumatiſms, cold and flegmatick ſtomachs, windy and tedious Coughs, ſpitting of blood, flowing of the Gall, Melancholy, Madneſs, Pleuriſie, Wind and Chollick, Palſie, all pains or aches of the limbs, or any part of the body, Lameneſs, ſhrinking or contraction of the Nerves, or Sinews, Bloody-flux, ſtoppage of Urine, and ſuch as cannot hold their Water, pains in making of Water, voiding of blood, Ulcers in the Womb and bladder, together with many other Diſtempers not hitherto diſtinguiſh'd by Name. He hath cured ſuch when given over by others as incurable.

He likewiſe cureth Women and maids of many Infirmities; as, the Green Sickneſs, ſtoppage or overflowing of the courſes of Nature. He alſo helps the whites and weakneſs of the back and other Diſtempers of Women. He hath a great ſecret to help Conception; likewiſe a powerful medicine to prevent miſcarriage, although you have miſcarried five or ſix times before.

He cureth Agues and Fevers, by an inward application or 3 times taking.

He

He also cureth the *French-POX*, with all its Accidents, as the Running of the Reins, Shankers, Bubo's or swellings in the Groin, after a new method and in a short time, without baths or stoves, as also without *Mercury*, which many times prove destructive to the Patient. And for the satisfaction of all those who have been sporting in the Garden of *Venus*, and in seeking for Pleasure, have met with a *Clap* or *Gonorrhæa*, if they come to him, he promiseth either to cure them in 9 or 10 days, or will have nothing for his pains, which is as much as to say

No Cure, No Money.

He helpeth bursten and broken bellies, either Men, Women or Children, whether the Ruptures be in the Groin or Navel.

He cureth all Ulcers in the Throat and Mouth, Palate and Nose, though never so bad, and left off as incurable by others.

He is also an excellent Oculist, able to cure, not only the Cataracts, but (by the blessing of God) restores them to sight, in a Quarter of an hour, who have been blind above Twenty Years, and perfectly cures them, if curable, in 8 or 9 days time at farthest.

He hath likewise an incomparable Eye-Water, for curing all Distempers in the Eyes, and for strengthening and restoring the decayed sight of People of what age soever. You may have this excellent Water of him, and no other, from five shillings the bottle, to what price you please.

If any Person, troubled with any Distemper whatsoever, incident to the body, will bring or send him their Urine, he will be very ready and willing to tell them, whether their Distempers be curable or not.

And now seeing the *Spring* is already advanc'd, which is (undoubtedly) the best and propereſt season of the Year, for preventing Distempers, and removing settled maladies from the Body, he will be ready, according to the best of his Art and Skill, to assist every one that shall stand in need of him, in [illegible] their Healths.

He is to be spoken with at the Sign of the Golden-Ball *on* London-Bridge, *between Two Coffee-Houses, near St.* Magnus-*Church, over-against the Sign of the* Two Cats, *where there is an Entry leads to his Apartment, without any further Enquiry, from* 8 *to* 12 *in the morning and from* 2 *till* 9 *at night.*

In Bruges-Street *in* Covent-Garden, *over-againſt the* Kings-Play-Houſe *or* Roſe-Tavern, *where you will ſee the* Kings-Arms *Hang over the* Balconey, *Dwelleth*, Cornelius à Tilbourn, *the Famous* German *Phyſitian and* Operator, *Sworn Chyrurgeon to the late King* Charles *the* II. *And now Priviledg'd by Our Gracious Soveraign King* William, *who*

BY His great Diligence and Study, hath lately found out ſome admirable Remedies, which was never yet made Publick in any of his former Bills: Theſe are therefore to Advertiſe all Perſons concern'd, that have either Weak or Dimm Sight, occaſion'd by Age or otherwiſe, and are oblig'd to wear *Spectacles*, He undertakes to bring them to ſee well without them in a Weeks time, altho' they have uſed them 20 Years before: He Infallibly Cures all ſorts of Sore Eyes whatſoever, otherwiſe demands no Money for his Pains. He takes off all Pearls, Pins, Webbs, Cataracts, both White and Black, and Skins of all kinds, growing upon, or ſettled in the Eye, and gives immediate Sight to thoſe that are termed Stone-Blind, where

the Visive faculty is not quite lost, and all by an outward Application: And to the end, that none may refrain coming to him, for fear of an unnecessary Expence, they are all hereby Invited to come and accept of a Tryal for nothing; and if in a quarter of an hour they do not find great Benefit, it is left to their Discretion to proceed or not.

If any Person by Accident or Misfortune, looseth one of their Eyes, He can Artificially put in another, not to be discern'd by any one, without being informed of it before hand.

He hath likewise an admirable Remedy to prevent Miscarriage in Women, although they have Miscarried for five or six times before.

He likewise Cures all Vapours, Giddiness, or Swimming in the Head, or any Fainting Fits, and takes away all Pains and Aches in the Limbs, or any part of the Body; and immediately Cures the Griping in the Guts, although it be in the greatest extemity, only by an outward Application. And as this is the first time, that he has made use of this way of Advertisement for these particular Remedies, so he gives you to understand, that after these are disposed of, you must expect no more: Therefore, you are desired to keep these Bills, to the End you may know where to apply your selves in your Extremity.

If any Person that is Sick, send but their Urine to me, I will give them my Advice faithfully; and if desired, prescribe them such Remedies, as shall be suitable to their Distemper.

I Cure the *French Pox*, with all its Accidents, as the *Running of the Reins*, *Shankers*, *Buboes*, or swelling in the *Groin*, after a new Method, and in a short time, without Baths or Stoves, and without *Mercury*, which many times proves destructive to the Patient. And for the satisfaction of all those that have been Sporting in the Garden of *Venus*, and in seeking of Pleasure, have met with a *Clap* or *Gonorrhœa*, I promise to Cure them in six or seven days time, or desire nothing for my Pains; which is as much as to say, *No Cure, No Money.*

Theſe Pills are compounded of Wholſom Ingredients, and Cleanſe the Body when it has been damnified by Mercury.

They prevent much danger, if they are taken Two or Three Mornings, after it is feared any Injury has bin received.

They Cure the SCURVY, the moſt reigning Diſeaſe of this Kingdom.

They may be taken in the hotteſt or coldeſt Weather, and hinder no Buſineſs: They keep good many Years, therefore proper Phyſick for Sea and Country.

Theſe Pills are in Boxes, from 1 *s.* 6 *d.* the Box, to 2 *s.* 6 *d.* the Box; and ſo to *five ſhillings*.

I Cure Ulcers in the Mouth, Throat, and Noſe, and all the Symptoms of the *French* Diſeaſe, therefore let none deſpair of a Cure, tho' his Diſeaſe has bin of long ſtanding, and tho' he has bin almoſt ſpoyl'd by ignorant Pretenders.

To prevent Counterfeits, theſe Pills are only Sold at my Houſe in *Bazing-Lane*, where they will be delivered to any Perſon, with a Note of Directions.

At the Angel *and* Crown *in* Baſing-Lane, *being the ſecond Turning in* Bread-ſtreet *from* Cheap-ſide, *dwells* J. Pechey, a *Member of the College of Phyſicians in* London,

WHo has a PILL that he has found by many years Experience peculiarly proper for the Cure of the *French Diſeaſe*, and that certainly cures the Running of the Reins, and pains in the Head, Shoulders, Arms or Legs, Swellings, Scabs, Itch, or breakings out in any part of the Body.

Theſe Pills cure ſharpneſs and heat of Urine, and cleanſe the Kidneys and Bladder, and prevent much danger, if they are taken two or three Mornings after it is feared any Injury has been received, and cleanſe the Body when it has been damnified by *Mercury*, and cure the *Scurvy*.

Theſe Pills may be taken in the hotteſt or coldeſt Weather, and do not require any ſtrict confinement, and retain their Vertue many years. They are put in Boxes from 1 *s.* 6 *d.* the Box, to 2 *s.* 6 *d.* the *Box*, and ſo to 5 *s.*

☞ Having for about 20 years in my private Practice, experienc'd the wonderful Vertue of my *Cordial Elixir*, I now publiſh it, together with

with my *Pills*, that all that languiſh under the following tormenting and dangerous Diſeaſes, may be ſtrengthened and reſtored to Health thereby; and it may be truly affirmed, that by the uſe of this Medicine many thouſands have been cured of Vomiting, Looſneſs, Bloody Flux, Gripes, Collick, Gravel, and Stone, the greateſt pains whereof it eaſes in the ſpace of half an hour. It alſo cures the Rheumatiſm and Hip-Gout, and violent pains in any part of the Body.

I cure Deafneſs, Rheums in the Eyes, Burſten Bellies, Coughs, Shortneſs of Breath, Dropſies, Agues of all ſorts, Redneſs, or Pimples in the Face, Ulcers in the Mouth, Throat, and Palate, and all the Symptoms of the *French Diſeaſe*.

To prevent Counterfeits, my *Pill* and *Elixir* are only ſold at my Houſe in *Baſing-Lane*, where they will be deliver'd to any Perſon, with a Note of Directions.

J. *Pechey* Phyſician that lodg'd at the *Angel* and *Crown* in in *King-ſtreet* near *Cheapſide*, is removed to the *Angel* and *Crown* in *Baſinglane*, being the next turning beyond *Watling-ſtreet* in *Bowlane* from *Cheapſide*, on the right hand, and the ſecond turning in *Bread-ſtreet* from *Cheapſide* on the left hand; his houſe is near the paſſage in *Baſing-lane* that leads through *Red Lion Court* into *Watling-ſtreet*.

His hours for attendance at home are from eleven in the morning 'till three in the afternoon, at which time the ſick may have advice for nothing.

And approv'd remedies at reaſonable rates, ſuch as have bin found by many years experience ſucceſsful to admiration in curing *fevers*, *agues*, *ſmall pox*, *meaſles*, *colic*, *griping of the guts*, *bloody flux*, *vomitting and looſneſs*, *cough*, *chin cough*, *worms*, *rickets*, *jaundice*, *ſcurvy*, *rheumatiſm or pains and lameneſs in the limbs*, *rheums in the eyes*, *many of the diſeaſes peculiar to women*, *the itch*, *running of the reins not always got by women*, *ſwellings*, *ulcers or ſcabs occaſion'd by the french pox and the like*.

And it may be truly affirm'd that in almoſt every pariſh in and about the City of *London*, many of the inhabitants of all ranks have been cur'd by theſe incomparable medicines in the uſe of which with the bleſſing of God is ſuch aſſurance of ſucceſs, that if theſe diſeaſes have not been render'd incurable by ill management or other accidents, the cure of them ſhall be undertaken according to the following propoſals.

1. A certain time ſhall be agreed upon for the cure of the above mention'd diſeaſes before they are undertaken.

2. The ſick ſhall know firſt what the medicines will coſt that are neceſſary for their cure, tho' they ſhall pay for them only as they uſe them.

3. Whatever is receiv'd for Medicines of them ſhall be faithfully return'd, if the cure be not perfected with the time prefixt.

4. That they may be ſure of having either their money or their health reſtor'd, they, or their friends for them, ſhall have a note if they deſire it under my hand and ſeal, with what witneſſes they pleaſe to it for the performance of theſe propoſals.

And becauſe many of the diſeaſes above mention'd, neceſſarily require the Phyſicians attendance on the ſick at their houſes or lodgings, I will viſit them in any part of the City of London *in the day-*

time

time, for two ſhillings and ſix pence, and will ride to viſit patients in the City of Weſtminſter, *or in* Southwark, *or the Suburbs for two ſhillings and ſix pence a mile, the meſſenger that comes for me leaving the ſaid fee at my houſe, and the name of the perſon that ſends for me, and of the place of his or her abode.*

'Tis very well known that many other diſeaſes have bin frequently cur'd by *J. Pechey*, ſo that the ſick may as probably find relief in moſt diſeaſes at the *Angel* and *Crown* in *Baſing-lane*, as any where elſe.

My excellent purging Pills cure the ſcurvy, and dropſie, they purge the head, and cleanſe and ſtrengthen the ſtomach, for which they are highly to be valu'd, for from a foul and weak ſtomach proceed a great many diſeaſes, they purge the reins, and cure the running of the reins, they purge the blood, and cleanſe and ſtrengthen the breaſt, they are as good a purge as can be us'd in the french pox, and indeed they cure as many diſeaſes as any purging medicine can, they are put up in boxes, each containing eighteen Pills, price one ſhilling and ſix pence, with plain directions in print how to uſe them.

My Electuary for agues, certainly cures agues of all ſorts in the ſpace of a few days; and is a ſovereign remedy for that fever that accompanies conſumptions, commonly call'd the hectic fever, price two ſhillings and ſix pence.

Many ill men make it their buſineſs to reproach this publick way of practice, becauſe it thwarts their intereſt; but undoubtedly all perſons that are free from prejudice will readily approve it, if they that practiſe after this manner, are really qualifi'd for the employment they profeſs, and therefore for the Satisfaction of ſuch, I have thought it neceſſary to publiſh the following copy of a grant I receiv'd from the Colledge of Phyſicians in the year 1684.

KNow all Men, *That the Preſident, of the Colledge of Phyſicians with the conſent of the fellows of the ſame has (by* Authority from the King and Parliament*) examin'd and approv'd of, and elected into our Colledge, the skilful and honeſt man* J. Pechey, *maſter of arts in the flouriſhing Univerſity of* Oxford, *and we have granted him full power and authority to exerciſe the ſcience and art of Phyſick, according to the laws publiſh'd to this purpoſe, and moreover we have granted him the uſe and benefit, of all the profits, liberties, and privileges, which have been already, and may be hereafter granted us, by the authority aforeſaid, in witneſs whereof we have ſeal'd theſe preſents with our common ſeal, at our Colledge in* London *the twenty ſecond of* December, *in the year* 1684, *and in the thirty ſixth year of the Reign of King* Charles *the ſecond.*

THE firſt of theſe, is our Great *Stomach Pill*, whoſe *Primary intention*, is the Relief and Support of that Noble Part; And this it do's effectually, by carrying off from it, all ſuch groſs, foul, Putrid Humours, as Clog and Choke the Genuine Ferment of it; Pervert and deſtroy the Concoctive Faculty; vitiate the whole Maſs of Blood, and Nutricious Juices, and cauſe innumerable Diſeaſes, uneaſy Life, and untimely Death. Now to prevent and Remedy all theſe, this noble *Medecine* is prepared, which caries off ſuch ſupervacaneous Matter; Rectifies the Ferment of the *Stomach* and Concoction, and Raiſeth the very Foundation of Di-

ſeaſes, in order to a firm and laſting ſtate of Health, and is therefore call'd the *Stomach Pill.* Notwithſtanding which; the Vertue of theſe *Pills* are not confind to the *Stomach* alone, for, being of fine and ſubtile Parts, They in their working through the *Inteſtines*, penetrate and open the obſtructions of thoſe obſcure paſſages of the *Bowells* ſubſervient to the *Stomach*, which are call'd by *Anatomiſts, the firſt Ways*, the Meſeraic Veins, and thoſe of the Meſentery, *&c.* through which the Chyle and whole Maſs of Nouriſhment paſſeth, in order to the forming the Blood, and nouriſhing Juices, upon which the whole *Body* ſubſiſteth; moſt of which are of ſo fine a fabrick, that they are ſcarce diſcernable to the moſt curious Eye, and therefore obnoxious to ſuch obſtructions or ſtoppings, as cauſe a multitude of fatal Diſeaſes, which would afford Matter for a Volume; ſhould I under take to write a Hiſtory of them, which in truth, derive their original from the *Stomach* and *ways* ſo vitiated and perverted: For the Remedy and Rectifying of which, this excellent *Pill* is primarily adapted or fitted, with the utmoſt Induſtry and Art that can poſſibly be uſed: The operation of theſe *Pills* is after this maner, *viz.* If the *Stomack* be full and foul, they firſt unload it by a gentle Vomit or two, and then by eaſie and plentiful ſtools according to the Emergency of the Occaſion: Thence in their paſſage they take along with them all groſs matter that doth in any wiſe Obſtruct or Stop up thoſe Exile paſſages aforeſaid, of the Lacteals, Meſentery, Liver, Spleen, *&c.* and leave them open and free for the Current of an untainted Chyle, pure Maſs of Blood and Nouriſhing nervous Juice, which produce a firm and ſound Conſtitution, and conſequently an Eaſie and Healthy Life: Which as it is the juſt and proper Office of a good Medicine, ſo, it is of theſe Admirable

mirable *Pills*. The uſe of them is as followeth. The common Doſe to an Ordinary or Midle conſtitution is *ſix Pills*, of which take two at Night going to Bed, and four the next Morning; after the firſt Stool or vomit(when they work that way)drink a ſmall draught of Poſſet drink or thin Broth, or other warm draught as you have convenience, and the like after every ſecond or third Stool, eat nothing till noon, and then that which is of eaſy digeſtion. Strong Bodies may take Three at Night and Four or Five the next Morning: They who are of weaker Bodies may take One at Night and Three or Four the Morning following. Children of eight, ten or twelve years of age may take One at night and Two next day; And you are to obſerve this rule: To begin with a ſmaller doſe and increaſe the Number, as you find them moſt agreable to your ſtrength, and keep to That, which an eaſie obſervation will make familiar. I adviſe the firſt uſe of theſe *Pills* may be for three or four days, then twice a Week, and afterward once in a Week or Ten days, as you find occaſion. Price 1*s*. the Box.

The next *Medicine* is my *Grand Antiſcorbutick* call'd *Anima Cochleariæ*, or the *Soul of Scurvy Graſs*: Being a *Spirituous water* drawn by *Diſtillation* from *Scurvy Graſs*; (whence it hath its Name,) and from other *Hearbs* and *Materials*, which in their Nature are moſt properly Appoſite to the Cure of the *Scurvy* in all its Degrees and Symytoms. The Preparation of this Medicine is ſuch, as, that all the Ingredients contain'd in It, are by a *previous Fermentation*, and other neceſſary *Proceſſes* ſeparated from all their Groſs and Earthy ſubſtances, and thereby made very Subtile, Searching, Cleanſing, Opening, Sweeting, and Strengthning. It powerfully Aſſails and Totally Vanquiſheth this Reigning Diſeaſe, which Affects more or leſs, all Families, if not

Perſons. It entirely ſubdues its moſt Violent and Mortifying Symptoms, and renders the Whole Man, Vegete, Lively, and Active, which was before Incumbered with a liſtleſs Heavineſs, flying Pains, Aches, Soreneſs, and Univerſal indiſpoſition of Body, ſore *Mouth* and *Gums*, looſe *Teeth* and *Spots* in divers Parts, and many other, which are ſo well known to all People of This and other Northern Nations, that I need not be larger in the Deſcription of It. The uſe hereof is Eaſy and Pleaſant: Drink an ordinary Wine Glaſs of It in the Morning faſting, uſe moderate Exerciſe, either Walking, Riding, or following accuſtomed buſineſs at home or abroad, or other that may warm the *Blood* in order to a Quick Motion and Cooperation with the Medicine: Take another Glaſs, about Four or Five of the clock in the Afternoon, or Three or Four hours diſtant from Dinner, after the ſame Order, and another, an hour or two after a Light Supper, or before Bed time. Purge once a Week with the *Stomach Pills* before mentioned, and I will confidently aſſure any *Scorbutick Patients*, that by the uſe hereof, after this order preſcribed, for a few Weeks, that they ſhall find themſelves wholy freed and deliver'd from that Uneaſy and Troubleſome companion the *Scurvy*. Price 1 *s.* the Bottle of half a pint.

Our third Remedy particularly reſpects the *Breaſt* and *Lungs*, and is of two Sorts, the One our *Pulmoniack Lozenge* the Other is our *Alexiterial Balſamick Syrup*. Theſe in their Reſpective Operations doe effectually help all Infirmities of the *Lungs*, and *Breathing Organs*, which are *Coughs*, *Phthyſick*, *Aſthma* or *dificult breathing*, *Wheaſing*, *Inflation* (commonly call'd *Riſing* of the *Lights*) as alſo Excoriation or Soreneſs of the *Trachæa Arteria* or *Wine-pipe*, which often proceeds to *Ulceration* and *Conſumption*, properly ſo call'd (for every waſting of the Body is not properly

properly call'd a Conſumption, but that only which proceeds from the *Lungs*, the other is an *Atrophie*, as being the Effect of other Cauſes:) As alſo *Orthopnæa*, or Streight Breathing, and *Peripneumonia*, or Inflamation of the *Lungs*, which is ſtill attended with a *Feaver*, and often a *Pleuriſie*, which generally proves Fatal. Theſe with divers others which come under no denomination, are Diſeaſes of the *Lungs* and Organs of Reſpiration, cauſed either by Sharp deſluctions of *Rheum*, or a Salt ſerous *Catarh* falling upon the *Breaſt* as aforeſaid; or elſe Cold, Sriff, Viſcous Phlegm impacted in the Lobes of the *Lungs*, which doe variouſly affect Them, according to the Quantity or Quality of the Matter Offending, and alſo according to the Nature or Condition of the Parts Receiving and Containing ſuch preſent Matter fallen upon Them; which being Graduated and Exaſperated, by neglect of timely Remedies, cauſe a Weak and Languid *Body*, and generally a fatal Concluſion.

Now for a ſeaſonable Remedy, for Theſe and all other dire affects of the *Breaſt* and *Lungs*; You have theſe Excellent Medicines, properly Adapted, and faithfully Prepared, and always at Hand to give Relief in time of need, which are to be uſed as followeth.

The *Lozenges* are your Companion in the day, of which take about the weight of a large Shilling or more, in the Morning faſting, the like at 3 or 4 of the clock in the Afternoon, and laſt at Night: Theſe are times to be certainly Obſerved, at other times, as your Condition requires it; let them diſſolve in your *Mouth*, and ſwallow them by degrees, and the Effect will anſwer your deſire. The *Balſamick Syrup*, is your Guard in the Night when your Sleep (the great Refreſhment of Nature) hath been interrupted by *Coughing*, *Ratling*, or otherwiſe troubled; This takes off the *ſharp deſtillation*, *ſweetens* the *Hu-*

mours

mours, opens the *Stopping*, and gives you a Comfortable Repoſe, which mightily conduceth to your Recovery. Theſe Excellent *Medicines* thus uſed, will infallibly give Relief, and fully anſwer the Ends to which they are deſign'd, abating thoſe violent Symptoms, and ſoon repair the decayes which Nature hath ſuffered, and ſtrength will enſue to your abundant ſatisfaction. Take two Spoonfuls at night going to Bed, in a ſmall draught of burn'd Wine, Mace Ale, or Poſſet Drink. Young Children may take half a Spoonful, thoſe of more years, *viz.* about 10 or 12, a whole one or more as you ſee occaſion.

Note: That this Exellent *Alexiterial Syrup* is yet endued with more Vertues then are hither to mentioned, for beſide it's ſingular operation upon the *Breaſt* and *Lungs*; It hath it's *Alexiterial* Vertues in a high degree. It takes off the Violent Symptoms of the *Small Pox*, and *Meazles*, and being given before, or upon their coming out. It hugely aſſiſts Nature in this work, and makes them come out kindly. So alſo in all ſorts of *Feavers* it is of Admirable uſe, throwing off the Malignity and Fury thereof, keeps off a *Delirium*, or *Alienation* of *Mind*, cauſeth moderate ſweat abates thirſt, and carries off by the Eaſieſt operation imaginable, the whole Febrile Matter, and brings the *Body* to its Priſtine Temper. It alſo is a certain Cure for *Agues* taken according to direction, which in Acute Diſeaſes ſhall be particularly given to ſuch as ſhall make uſe of this Excellent Medicine.

Furthermore, It is a preſent Remedy in the *Griping of the Gutts*, whether with, or without a *Flux*, as alſo in the moſt ſevere fitts of the *Cholick*, in theſe two you may depend upon this ſingle Medicine for a certain Cure, never failing: Take it thus, Firſt, take a Clyſter, of a Pint of Poſſet drink, wherin a handful of *Mallows* and as much *Camomile* flowrs have been boyled and ſtrain'd, to which put a quarter of a Pound of courſe Sugar, when it hath wrought, take two or three Spoonfuls of this *Alexiterial Balſamick Syrop*, in a ſmall draught of clear *Poſſet* Drink go to Bed and lie ſtill in a gentle breathing Sweat (if it offers it ſelf,) and you will ſoon find Eaſe, and ſoon after Cure; which, if it be not finiſhed at the firſt doſe (as it ſeldom or never miſſeth) take it again about

ſix or eight hours after, and it will ſurely perfect it: The Price of the *Lozenges* is, a ſhilling the Paper of two ounces. The *Alexiterial Balſamick Syrup*, two ſhillings the Glaſs of four ounces.

Our fourth *Medicine*, is the *Tincture of Mars*, or *Steel*, a *Medicine* indeed! which never till now made its Publique entry; Though in my private Practiſe I have, in the tract of many Years; had ſuch high proofs, and demonſtrations of its Vertues, that I never mett with or heard of, any that exceeded it. It doth Wonders in *Diſeaſes* of *Melancholy*, and *Hypochondriack Paſſions*, tho to the degree of *Madneſs*. It gives a certain Cure in *Convulſions*, *Fitts of the Mother*, *Spleen*, and all *Flatuoſities*, or *Windineſs*, it is a Soveraign Remedy, and takes away the Original Cauſe of theſe *Diſtempers*. In all Female Sickneſſes It hath ſcarce its Equal, for it opens all *Obſtructions* of the *Womb*, and *Hypogaſtrick Veſſels*, and both in Women and Virgins, it works ſuch Effects, as where Nature is either too liberal, or too frugal in its benefits to the tender Sex, it reduceth thoſe Extreams to Moderation, after a ſingular maner: The uſe hereof is thus.

After three or four times Purging with our great *Stomach Pill*, and Bleeding where it is requiſite, take fifteen or twenty Drops of our *Tincture of Mars*, aforeſaid, in a Glaſs of White or Rheniſh Wine in a Morning faſting, they who cannot afford themſelves Wine, may take it in Beer, Ale, or other ſuch Liquor that may be had, that is not too thin and ſmall, uſe Exerciſe after it, Then about four or five, after Noon, repeat the ſame quantity, as in the Morning, uſe moderate Exerciſe, and take it again an hour or two before you go to Bed. Purge once a Week with our *Pills*, and by continuance of this Courſe for a few Weeks, you will find ſuch Effects as ſhall anſwer your utmoſt deſires.

Theſe *Medicines* are but few (four in all) But; their Vertues are ſo large and extenſive, that they take in the whole ſeries of Diſeaſes (generally ſpeaking) that infeſt Mankind, anſwering in all reſpects the whole Deſign of *Medicine*. And indeed, the whole Method of Practiſe uſed among the Phyſicians at this day, is comprehended within this narrow Circuit; Whil'ſt that numerous and pompous Train of *Waters*, *Electuaries*, *Apozems*, *Potions*, *Pills*, *Powders*, *Species*, *Extracts*, *Infuſions*, *Decoctions*, *Elixyrs*, *Tincture*, and Legions of others, have ſtill but a tendency to the ſaid end, and are at beſt but (according to the uſual Cant) ſuccedaneous, or rather circumſtantial in reſpect of theſe, or of this kind; and I may juſtly ſay Nauſeous and Incongruous.

Wherefore

Wherefore, in order to the regular uſe, and application of theſe *Medicines* I ſhall only add this Precaution.

That all Diſeaſes are of theſe two kinds; *Chronical* and *Acute*; *Chronical* are thoſe of long growth, and long duration, or continuance, ſuch as have their foundation ſecretly laid by a foregoing intemperate, or inconvenient way of living, and by ſlow degrees come to their ſtate, and continue for Months and Years to annoy and deſtroy the Body. *Acute Diſeaſes* are ſuch as are of ſudain Riſe, and ſoon determined, either in Life or Death, and thoſe are continual *Feavers Malignant* or *Peſtilential*, *Small-Pox*, *Meazles*, *&c.* Now, theſe later (*Acute Diſeaſes*) will require more particular Adviſe and Direction, (which I am alway ready to give,) in the menagement and conduct of their cure, and application of theſe *Medicines*, in order thereunto, which are of ſufficient Vertue and Power to performe it. The former, I mean thoſe *Chronical Diſeaſes* are immediatly in the Power of the Patient, by the due and timely application of the aforeſaid *Medicines*, according to the Rules and Orders here preſcribed; To which I beſeech God to give his Bleſſing, I have only this one thing to add by way of,

Advertiſement.

That in the *Venereal Diſeaſe*, in all the Branches and Degrees, from the firſt beginnings thereof (commonly known by the name of a *Clap*) to the highest & moſt Malignant Symptoms when grown to a confirmed and inveterate *Pox*. Theſe my *Stomach Pills*, together with a *Diet Drink* which I make for this uſe, are Prepared fully and entirely to Effect and abſolve the whole Cure. Though perhaps ſome external applications may be uſeful in Caſe of Inveterate *Ulcers*, which muſt be preſently cheked where a Part is in danger to be loſt, or ſpoiled, before the Diſeaſe can be Radicaly exterminated. And theſe are ſtill at hand to be had as occaſion requires.

And if any ſhall deſire to have their Names or Perſons conceal'd, they may (upon giving an account of their Caſe in Writing, have them ſent with that deſired ſecrecy.

Theſe things (Reader) which are here Candidly offered to your Help and Succour in all the Accidents and Emergencies of Sickneſs, ſhall be with all Faithfulneſs and Integrity performed at my abode, at the ſecond Houſe on the right hand in *Bolt* and *Tun* Court in *Fleet-ſtreet*.

Where are ſeveral Excellent *Cordial Waters* to be had, Particularly that moſt Delicious and Rich *Citron Water*, as Cordial and Comfortable in Vertues, as delightful in Taſt.

If any Woman be unwilling to ſpeak to me, they may have the conveniency of ſpeaking to my Wife, who is expert in all Womens Diſtempers.

I alſo cure Women and Maids that are ſubject to vomiting, and take from them the quivering and ſhaking occaſion'd by the ſame Infirmity. I alſo cure hard Bellies, ſwell'd as with Child, or, as if troubl'd with the Dropſie. *There is yet another Sort of Sickneſs when the Melancholy is not cleans'd and taken away, which occaſions grief and heavy thoughts; nay, ſometimes Ragings, and an ill Mind towards themſelves and others.* I cure the Piles or Hemorrhoids in the Fundament, all Warts, Excreſcencies, or ſuperfluous Fleſh in the mouth of the Bladder or Womb.

I likewiſe cure all Ruptures or Burſten-Bellies, either in Women or Children: nay, tho' they have had it many years. I take the Stone from Women and Maids without cutting. I have alſo an approv'd Remedy for a pain in the Loins, or ſmall of the back, whether proceeding from Gravel or Child-bearing: as alſo a pain in making Water, or thoſe that cannot hold their Water, but are troubled with a conſtant Leaking or dropping as they go, let it proceed from what cauſe it will. I drive away all Gouty pains in the Joynts, nay, tho' your Arms and Legs were grown crooked, or through Contraction, or ſhrinking of the Sinews, and tho' you have kept your Bed for many Years, (by the Bleſſing of God) I don't doubt but to relieve you. I dare preſume few have arriv'd to the perfection in this cure as my ſelf.

There are many other Cures incident to women: But I ſhall conclude with this, that I correct all Vices in the *Matrix*, and refreſh all the weak Faculties in the Body; by this means rendring a Woman capable of conception that before was *Barren*.

I Cure Out-hanging of the *Matrix*; that is, when the Ligaments, or Strings that bind the *Mother* faſt to the Body, remove from their Place, occaſion'd either by bearing of Children, violent Coughing, heavy work, in 14 or 16 days *I artificially return it to its proper place; which I Challenge any Perſon to do but my ſelf.*

Thoſe who are not able to come to me, let them ſend their Urine, and on ſight thereof I will reſolve them what their Diſtemper is, and if curable, will perform it at a Reaſonable Rate; but if not curable, will plainly and honeſtly tell them, that they may not be defrauded by others.

My Hours are from 9 till 12 in the Morning, and from 2 in the Afternoon till 7 at Night.

A Certain Sate and Private Cure for any Venereal *POX*, or *Clap* by a *Physician*, not us'd to make himself publick, nor had not now only to oppose the Ignorant, and prevent the Ruin of such as labour under this Disaster: I shall not use many Invitations rather leave you to make experience then speak as you find. In a word, Let your condition be never so bad distrust not, although you have been under the hands of several Doctors, and by the use of their Medicines grown rather worse than better, and though Fluxed several times to no purpose; nay, if you have languished under it several years, and are *Poxed* to that degree, that you are broke out in a Hundred Places, I promise faithfully (under God) to make a perfect cure in a reasonable time, or desire nothing for my Pains.

At the Angel *and* Crown *in* Basing-lane, *being the Second Turning on the Left Hand in* Bread-ſtreet *from* Cheap-ſide,

LIves *J. Pechey*, a Graduate in the Univerſity of *Oxford*, and a Member of the College of Phyſicians in *London*; who has a Pill prepared with wholſom Ingredients, and is of ſuch great Virtue, that it ought not to be concealed, when ſo many Dangerous and *Stopping* Medicines are daily uſed for the *French Diſeaſe*. For this Pill cures the *French Diſeaſe* and *Running of the Reins* ſafely, without leaving any ill Dregs in the Body, and relieves all the Parts and Senſes, when they have formerly ſuffered Damage by poyſonous Medicines and the uſe of *Mercury*; and *certainly prevents the ſinking of the Noſe, and loſing the Palate.*

Theſe Pills take away all Scabs in the Head and Face, and Pains in the Head, Arms, or Legs; and prevent much Danger, if they are taken two or three Mornings after it is feared any Injury has been received; and perform theſe Cures by expelling the Cauſe, and not by ſtopping up the Venom in the Body, as the Cuſtom of ſome is.

They cure the Scurvey, and keep good many Years, and therefore proper Phyſick for thoſe that are conſtrained to go into the Country, or to Sea, where they may with this Pill cure theſe Diſeaſes.

Theſe Pills *are in Boxes from* 1 s. 6 d. *the Box, to* 2 s. 6 d. *the Box, and ſo to Five Shillings; and will be delivered to any* Perſon *with a Note of Directions.*

They may be taken in the hotteſt or coldeſt Weather, and hinder no buſineſs.

☞ Having frequently publiſhed an Adverti-

ment in the *Flying-poſt*, and other Public Prints, That all Sick People, who will come to my Houſe in *Baſing-lane*, may have for Six-pence, faithful Advice in all Diſeaſes, and Plain Directions for Diet, and other things they can prepare themſelves, and Medicines at reaſonable Rates; and that I will Viſit any Sick Perſon in the City in the Day-time for 2 *s.* 6 *d.* and any where elſe within the Bills of Mortality for 5 *s.* and that if I am called in by any Perſon as I ride by in any of theſe Places, I will require but one Shilling for my Advice. I think it neceſſary to give further notice in this Bill, that I ride in a Calaſh with one Horſe, to the intent that ſuch as have not been formerly my Patients, nor of my Acquaintance, may upon this notice, be better able to know me as I paſs by.

Many Men make it their buſineſs to ridicule this Public Way of Practice, becauſe it thwarts their Private Intereſt, but undoubtedly all Perſons that are free from Prejudice (it being for the Public Good) will readily approve it, if they that practice after this manner, are really qualified for the Employment they profeſs.

Tryal of Skill

Of Three Great Artists.

THis Tryal of Skill
Of a threefold Sibyl
Is to shew Royal Blood safely how to spill.
Three Wise Men of late
Held a learned Debate
On a desperate Case of a Lamb o' the State;
Where each shot his Bolt;
And on the Result,
Did declare they opin'd the Distemper occult.
Tho' my Story be late
And thought out of date,
Great Acts it is always fit to commemorate.
Beau *H*——s fresh from School,
As a new sharpened Tool,
Was summon'd the first to appear in the Roll.
So *H*——s active and great
Ad omne parate,
Had κατ' ἐξοχὴν the dispensing of Fate:
And so leading the Dance
A la mode of *France*,
Without ever thinking, he directed the Lance;
But Hand over Head

Did attempt, and proceed
At all peradventure this Lamb for to Bleed.
By which ſage Advice
He was Bled in a trice,
To ſhew the Diſpatch of an expert Novice.
Now the Deed being done,
The grim Fact to atone,
Our Great Eſculape did fall in a Swoon:
Who by Sympathick touch,
Having acted too much,
Was affected himſelf: his Senſe it was ſuch.
And being put to Bed,
As one almoſt Dead,
Did order himſelf forthwith to be Bled.
Which ſhew'd he would do
As he'd be done unto;
To Bleed, as he Bled, whether needful or no.
And *Eroſtrate*'s great Name
Still living in Fame,
(Who did put the *Temple-Diana* in flame)
H——s only deſired:
By Ambition fired,
To get ſome Repute before he expired.
Next *Gibbons*, tho' muddy,
And always in Study,
(His Thoughts being quickned by a thing that is
Did ſtirr up his Muſe (Ruddy)
To Action and Uſe,
And approv'd all *H——s* had done at faſt and looſe.
And then adding his Mite,
His Directions did write,
And Bliſters, and Cupping, and Cordials endite.
But acting too faſt
With over-much haſte,
Growing qualmiſh, retired for needful Repaſt.

So

So *R—t—ff* coming next,
Tho' formerly vext,
Was perſwaded his Science to ſpend on the Text.
Having Wine for his Drink,
It did whet him to think,
Eſpecially ſeeing it was joined with Chink.
But the Fever malignant
Did puzzle Skill pregnant:
'Twas ſo very putrid and ſuper regnant,
That off o' the hooks,
You might gueſs by their Looks
They found nought could prevail that was in their Books;
And that the new Notion
Of Circulation
Afforded no Help againſt Putrification.
So, theſe Magi 's next part
Boldly was to aſſert,
That ſince he muſt Die, 'twas according to Art.
And now to find out
And bring it about,
The Mobb to perſwade and the Plebeian Rout,
He muſt be diſſected,
And with Care inſpected,
To report that all Parts were with Matter infected:
And avouch no Miſtake
Such Learning could make,
Three famous Epiſtles for three Doctors ſake
Muſt be publiſh'd in Print,
Up and down to be ſent,
Compoſed of Words without Argument.
That he Died of a Raſh
With eating of Traſh,
Which is a ſufficient Account for your Caſh.
But ſuch frail Excuſe
Is of no Force or Uſe,

(The Miſchief once done) Folks to diſabuſe.
Sure it was raſh, not good
Counſel to let him Blood:
So this new coined word is to be underſtood.
And Raſh is a Name
No Author doth claim,
But is true Modern Cant to cover a Shame.
By common Inſtinct
Almoſt all Men do think
The ſtirring this Matter hath made it to ſtink.
And Silence were better
Than from each a Letter,
To make an *Oyes* to ſmother the Matter.
To do Penance in Sheet
In ſome Caſes is meet,
And by Civil Law is eſteemed diſcreet:
But why our Phyſicians
On diff'rent Conditions
In a Sheet ſhould appear, to take off Suſpicions,
No Man can Divine.
But their Thoughts do encline
To believe it was Ignorance, Madneſs or Wine.
Some that have a Name,
Do publiſh their Shame,
Yet the ſtupid World ſtill trumpets their Fame.
Whom *Jove* reſerves for Fate
He doth infatuate,
In Town and Country, in Church and in State.
And why ſhould they not when 'tis Deceit they covet?
The World will be deceived becauſe they love it;

Fælix quem faciunt aliena pericula cautum.

A within *Black Fryars* Gateway, next Door to the Feather-ſhop you will find your old Phyſian, *J. C.* of 22 Years Practice, who now Invites all who have ſlipp'd in between the Thighs of *Venus*, and ſtained or ſpotted themſelves with the poyſonous Juice of the Thing; I will cleanſe them from all Defilement, and make them as white as Snow. ☞ *I am th Man* that have with much Induſtry in my *Spagyrick* Art, found out an *Admirable Secret*, by which I Infallibly Cure the *French POX*, or Clap, and in ſhort, free the Body of all venereal Poyſon without the Tireſomneſs of Phyſick, or multitude of Purging in a few days: The Method of curing is eaſie, and without hindrance of Buſineſs, which is Admirable to all Men. A pure wholſom Pill at 3*s.* the Box, of which 3 Doſes takes away the Malignity of any inveterate *POX*, and prevents as well as Cures it, (if taken in time,) it purifies the Blood, expels the Scurvy, and extirpates all Diſeaſes where Purging is requir'd.

THat moſt Renowned *Dutch* Operator, who lived in the Great City and Univerſity of *Leyden*, is come over into this moſt Famous Nation at the Inſtances of ſome Perſons of Quality that knew in what great Credit he lived in *Holland*, for the Cure of Men, Women, and Children that are Burſt or broken in the Navel, Groins, or any other private part; and alſo for ſeveral other Diſtempers very eaſily and ſpeedily: for he can do ſuch Cures, that there is not any Example of the like extant either in Books, or in the Memory of Men.

He Cures the Broken Belly in any Age, Conſtitution of Body, or Sex, let it be either Watry, Fleſhy, Windy, or Inteſtinal; for he hath Cured even thoſe that had all their Guts fallen into the Cods and could not be thruſt in by others, although they had hanged up the poor Patient by the feet, as if it had been an Ox, or a Calf.

Now for to let the World know his Integrity, and upright and honeſt dealing, he maketh this Agreement, That he will not have any money for his Pains and Medicines untill half a Year after that the Patient hath been perfectly Cured.

He

H[illegible]th an Excellent Rare Secret for thoſe that ha[illegible] got the Running of the Reins, or the *Morbus Gallicus*, in Engliſh the *French Pox*, by which many Families are ruined: This Diſeaſe hath ſeveral Symptoms; for ſometimes it will lye in the Head, Shoulders, and Bones, with violent pains: Sometimes it will break their Nights reſt after they are warm in their Bed: Other times it breaks out in Scabs, Tetters, Warts about the Head, Neck, or Privities. Other times it bringeth a general Weakneſs through the whole Body. All which he Cures ſo private and ſecretly, that the Wife cannot obſerve it in her Husband, nor the Husband from his Wife; and withall ſo perfectly, that it never breaks out again. This is ſufficient for thoſe that love their health, or have been ill handled by other Practitioners: for there are many to his knowledg and experience, that having a Running of the Reins, have been ſtopped too ſoon, and turned to the *French Pox*, and ſo wholly ſpoyled; but if they come to him, he will Cure them with very pleaſant, and ſafe Medicines.

☞ *Note.* If any Gentlewoman hath gotten a Rupture or any foul *Venereal Diſtemper*, or is ſubject to Obſtructions, and is aſhamed to diſcover her Diſtemper to him; they may ſpeak to his Wife, and ſhe ſhall relieve them very ſecretly.

Advice to Ladies, Gentlewomen, and Others.

The Doctor's Wife in *Dean's-Court*, Famous for the Cure of all *Female Diſtempers*, having left off for ſome time, for the ſake of her Health, now, through God's Bleſſing, is enabled to lend her Beſt Help to thoſe of her Sex.

BY almoſt Thirty Years Experience, and Practice at Home and Abroad, in *Germany*, *Spain*, *France*, and moſt other Parts of *Europe*; She hath attained to the Knowledge of the moſt Rare and moſt Effectual Remedies for the ſafe and ſpeedy Curing of all manner of Diſeaſes particular to the *Female Sex*.

Therefore, She has been prevailed with to uſe this way of Publication, that many Women, who, through Modeſty, are unwilling to let a Common Phyſician know their Diſtempers, may know where lives one of their Sex, by whom they may be help'd to a Private, Speedy, and Certain Cure.

All manner of Diſeaſes from whence *Barrenneſs* proceeds, have been, and may be, through God's Aſſiſtance, wholly removed by her. For

ſhe has made it her chief Buſineſs and Study, during her various long Travels, to attain to the Knowledge of the Beſt, Rareſt, and moſt Wonderful Secrets, which Art and Nature can afford for the Cure of *Barrenneſs* in Women; ſo that ſhe will at firſt ſight Reſolve them, whether they may ever have Children, or no? For as to thoſe whom God hath made *Barren*, none can make them *Fruitful*: But ſo far as any Obſtructions or Impediments may be removed by Art, She will undertake, with God's Bleſſing, to do it; inſomuch, that though a Woman ſhould have been 20, nay 25 Years Married, without having had a Child; yet, by the means of theſe innocent Medicines, ſhe may hope to be Bleſs'd with Children; as great numbers of VVomen, many of them of Quality, have Experienced, and will Teſtifie. For no Perſon has practiſed the Cure of *Barrenneſs* with ſuch extraordinary Succeſs.

She has alſo Remedies to prevent Miſcarriages. She perfectly Reſtores Nature to its due Courſe in a very ſhort time, with much Eaſe, and without the leaſt Danger.

She alſo Cures many Infirmities in VVomen, not fit to be mentioned here.

Laſtly, the full uſe of theſe Medicaments in every Diſeaſe mentioned, is contained in a little Book, which is alwayes given with them, where you may find directions at large. The price of a Box of Pills (containing five, ſix, ſeven, or more Purges) is Two ſhillings ſix-pence; the price of a Glaſs of our Purging Spirit, the ſame: the price of a Glaſs of Our Drops (containing ſix, ſeven, eight, or ten Doſes) One ſhilling ſix-pence: And of a Box of our Balſam, a ſhilling. READER,

WHereas about Four Months laſt paſt there was publiſhed a little Paper in theſe following words, *viz.* The Rich may command, be bowed unto and flattered for reward; but the Poor may intreat and be rebuked with a ſcornful look: therefore theſe are to give notice to all that are poor in City or Countrey, that are either Sick or Lame, may under God have Cure of the worſt of Diſeaſes curable for nothing; if they repair to the *Sun in Gutter-lane near Cheapſide, London, &c.* yet nothing without God. Since which there hath been many wonderful Cures performed by a *Chymical Powder*, called, *The Metallick Eagle*; the which Medicine and Cures hath given great cauſe of Admiration, and brought great reſort to the place and perſon aforeſaid: Now ſo it is, Some Practicioners of Phyſick and others, in hope to advance their reputation and mercinary profits, do pretend to have the ſame Medicine of their own preparation. Some of which perſons I could name, but ſhall forbear, until I find them farther to perſiſt, *&c.* But I do aſſure all perſons that none of theſe pretenders have or can have this Medicine, unleſs they buy it of me, as ſome do; the ſecret having yet not been made known to two perſons in the world beſides my ſelf; neither is it of that light moment, to be made common; for I believe there is not the like Medicine extant; unleſs the *Grand Medicine of the Philoſophers*, and I know not any that dares to pretend to have obtained that as yet. Thus I thought good to warn the innocent and detect the preſumptuous, that the world, as now it is tir- may no longer be deceived or impoſed upon. Farewel, your Friend *R. F. Philalethes.*

Quæ ducere oportet quo maximè natura. Vergit. eo ducere. Hip. Lib. 1. Aphor. 21.

f: 244

IN primis, You muſt take all at once, that is one ſealed Paper, in the pap of a roſted Apple, as big as an Haſel nut, before you riſe in a morning faſting, and within one hour after, drink ſome Poſſet-drink, or ſome broth made of freſh meat, or with freſh Butter, uſing the ſaid broth or Poſſet-drink 3 or 4 times in one hour, keeping your bed until noon that day, or warm in your chamber, at leaſt 3 hours.

2 Thoſe that are weak, or of feeble complexion, they muſt ſteep it from ſix of the clock at night, until 6 the next morning, in 4 ſpoonful of cold wine, drinking wine, and not the matter that remains in the bottom, uſing the broth, and keeping your bed as aforeſaid.

3 Half of it will be enough for children betwixt 7 and 14 years of age, and a quarter for thoſe that are between four and ſeven.

4 Note, that if the broth which is taken one hour after the remedy, not ſalted at all, then you ſhall vomit three or four times; contrariwiſe, if you take your broth well ſalted, you ſhall vomit little or none at all, for it will work all downwards.

5 For all kind of Tertian Agues, or other intermittent Feavers, it is an excellent Remedy, being taken at the leaſt 3 hours, or rather more, before the fits come, and your broth being not ſalt, cauſeth vomiting, being very good for it, eſpecally for Quartane Agues or Feavers, and alwayes in the morning faſting.

6 Likewiſe for the Falling ſickneſs and the Dropſy, uſing it once in a week for nine weeks ſpace.

7 Thoſe that are heavy-headed, giddy-headed, faint at the haart, or do want a ſtomack, be ſure it will be very good; the broth not ſalt.

8 Worms in all ſorts of people, either young or old, and bound in the belly; it will be very beneficial, being uſed with your broth ſalted.

9 It is moſt good, chiefly for preventing of Diſeaſes, uſing it in the Spring time, but you may uſe it at all times, obſerving the Rules of the ſecond and third Articles aboveſaid.

10 Thoſe that have Itches, Scabs, Morphews, muſt uſe it often, and thoſe that have had any carnal dealing with an unclean woman, muſt certainly uſe it, although it be twenty year ago; and ſo for women with unclean men.

11 All the operation of it is done in 3 hours; the which being ended, you may riſe from your bed, and go about your buſineſs; and thoſe that uſe only the ſteeping, or infuſion of it, they may keep the powder that remains in the bottom, for any other time, taking powder and all the ſecond time, without any more ſteeping.

12 This Remedy will keep good during the whole life of man, and generally it is good for fat and corpulent folks, to uſe it with ſalt broths after the receit, which cauſeth the operation downwards, contrary to lean folks: it cauſeth gentle and eaſie vomits, their both being not ſalted.

13 Note, that for a third daies Agues, you muſt have three of them to take, not every third day following, but every third one, in the day of the fit, but not in the fit, and in the morning ever before the fit.

14 Women with child muſt forbear the uſe of this Remedy, and Children that are two years of age, and thoſe that have had any bloody fluxes, or belly fluxes, or extream extraordinary cough.

A Certain, Safe and Private Cure for any Venereal POX or *Clap*, by a *Physician*, not us'd to make himself Publick, nor had not now, but to oppose the Ignorant, and prevent the Ruine of such as labour under this Disaster: I shall not use many Invitations, rather leave you to make Experience, then speak as you find. KNowing the great abuſes many have met with, Languiſhing under this Allamode Diſeaſe, and for want of Cure have been totally Ruined; I have made it my Buſineſs in my Studies and Practiſe, to find out a means more Effectual than the common ways, which by God's aſſiſtance, with my Endeavours, I have attained to a moſt Expeditious, Safe, and Eaſie Method, by which I infallibly Cure the Venereal POX or Clap, though never ſo far gone, or ſo long abuſed by others, and often Fluxed to no purpoſe; and if it has ſeized the Head, or other principal parts, attended with violent Pains, or Nodes, Swellings, Buboes, Shankers, or Ulcers broke out in a hundred Places; (I ſhall under God) make a perfect Cure in a ſhort time, or ask nothing for my Pains.

But for the leſſer degree of this Diſeaſe, termed a Clap or Running of the Reins, I cure at firſt in ſix or ſeven days, by a ſafe and ſecret Method, diſtinct from all others; without denial of Buſineſs, or giving the leaſt ſuſpicion to any.

I am to be ſpoken with by any hour of the Day, (except from 12 till 3) at my Houſe over againſt the ſign of the Water-Tankard *in* Northumberland-Alley *in* Fanchurch ſtreet, *near* Aldgate, *there being Pales before the Window.*

The VERTUES

Of that Well-known and Often Experienced

MEDICINE

Fletcher's Powder.

THis *Noble* and *Excellent Panacæa*, is ſo wonderful a Friend unto *Decaying Nature*, that whatever *Unnatural*, *Deſtructive*, and *Health-oppoſing Matter* it ſhall meet with in the Body of *Man*, be it from what Cauſe, Source, or Fountain it will, or in what parts ſoever (for it purifieth from Center to Circumference) it * doth by its renovating quality (in time) radically extirpate and drive out, and in its place conſtitutes a Healthful Body (as hath been proved by Thouſands in the City of *London*) having cured *Head-aches*, *Vertigoes*, *Appoplexies*, *Lethargies*, *Epilepſies*, *Convulſions*, with all other Diſtempers that uſually afflict the Head: as *Difficulty of Hearing*, *Noiſe in the Head and Ears*, *Diſeaſes of the Eyes*, *Teeth*, &c. Its alſo effectual in Opening all Obſtructions of the *Stomach*, *Liver*, *Spleen*, and all the Noble Bowels; expelling Venoms offending the ſame: by which it cures *Agues*, and *Feavers* of all ſorts. It powerfully cures that loathſome Diſeaſe *Ala mode d' Englettere*, with all its Symptoms. It cures the *Scurvey*, *Leproſie*, *Gout*, *Dropſie*, *Stone*. It reſiſts the *Peſtilence*, *Small-pox*, and *Meaſles*. It expels Poyſon, and hath done wonders upon thoſe Bodies which have been ſpoiled by *Mercurial Medicines*, too too often uſed (ſuppoſing therewith) to cure all foul and ſtubborn Diſeaſes.

* *Or the Spirit being aſſiſted by it.*

For this New and Now Reigning *Putrid Feaver*, attended

tended with Aguiſh Shiverings, Griping in the Guts, Vomitings, Giddineſs, Violent Pains in the Head and Limbs, *&c.* (the which Diſeaſe may in all probability terminate in a Plague, unleſs repentance pacifie the awakened Wrath.) This Medicine is excellent both for cure and prevention; and I dare and may boldly affirm, That no Man or Medicine hath cured ſo many of the aforeſaid Diſeaſe as this Powder; as Thouſands can witneſs.

A ſafer or powerfuller *Medicine* cannot be given for *Women*, it being an *Univerſal Remedy* for thoſe many Diſtempers that uſually attend their Weak, Unhealthy, Cold, and Moiſt Bodies; all which I ſhall not name, but commend it as a Wonder-working Powder to prevent Miſcariages in Women with-child; and when time of ſeparation is near, to cauſe ſpeedy and eaſie Delivery, and to eaſe the After-pains: And did all Women know what this Medicine hath performed in theſe Caſes, there is none but would make uſe of it at ſuch times, *viz.* both before the time of Travel, and after Delivery. In Virgins it ſpeedily takes away the Cauſe of the *Green Sickneſs*, and thoſe ill Habits of Body effects of Obſtructions, and cauſeth in them a Lively, Freſh, and Cheerful Countenance, *&c.* To Children it is a moſt Potent Preſervative, and cures them of *Convulſions*, *Falling-Sickneſs*, *Worms*, *Small-pox*, *Meaſles*, *Rickets*, &c.

It wonderfully diſpoſeth Wounds (both Internal and External) to Healing, and in ſhort time perfects the Cure; and for all Outward Wounds, taking this Medicine, you need only waſh the Sore Night and Morning with your Urine Warm, and bind it up to defend it from the Air. It cures all Swellings, Inflamations, and Pains of the Limbs. I have (without the uſe of any Outward Application) cured Cancerated Breaſts of long continuance; Gangrenous Tumours, Kings-Evil, and Fiſtula's to a wonder. In ſhort, this Medicine is ſo

great

great a Friend to Nature, that no Diſeaſe (the appointed time for Diſſolution being not yet come) is able to withſtand its power; for againſt all Diſeaſes there is a Remedy, but againſt Death none; but to this and all other (Good) Medicines, time muſt be given to manifeſt their Effects: For many raſh and inconſiderate People, hearing of a Good Medicine, will without doubt be deſirous to make trial of it, and will alſo imagine, that as ſoon as they have taken it into their Bodies (or at fartheſt within two or three days) that their Infirmity or Diſeaſe, of what kind or degree ſoever, muſt of neceſſity preſently vaniſh and be gone, without any the leaſt Sign or Relict of it remaining; which no ingenious perſon muſt or will expect: but according to the Nature, Radication, Habit, and Continuance of the Diſtemper; with the Age, Strength, and Conſtitution of Body, Nature co-acting with the Medicine, expect the deſired Effects in the Reſtauration of Health; which (by Gods Bleſſing and an orderly uſe of this Medicine in due time) will be found. Now this Powder at ſome times, and in ſome Bodies, may work by Vomit, Stool, Sweat, and Urine, eſpecially at the firſt taking of it; let not any therefore preſently imagine this to be a common Medicine, and ſuch Operations to be conſtant in all Bodies and at all times: No (rather) let them conclude (as juſtly and truly they may) ſuch Operations to proceed from great quantity of Diſeaſe Matter Nature was filled and obſtructed with, which would not eaſily be evacuated, without ſuch Operations well to be tollerated or born with, in reſpect of the great benefit they will reap by it, *viz.*) the preventing ſome greater miſchief, *&c.* to the truth of which I have had large experience; having known many on which it had ſuch Operations at the firſt, but by a continued and moderately repeated taking of it for (ſome time) by which their Bodies became emptied and freed rom that ſtubborn groſs Matter, they afterwards felt

not the leaſt trouble or manifeſt Operations, but if Nature makes a ſeparation by Vomit, Stool, Sweat or Urine (how forcible ſoever they ſeem to be at preſent) ſhe is never weakned but ſtrengthened, *&c.* all which proves the Medicine to be friendly.

But often doth this Excellent Medicine both prevent and cure a Diſeaſe without any of the before-mentioned Operations (as Experience teſtifieth) by keeping in Vigor, and pacifying (when enraged) the Vital Spirit in Man.

Therefore the higheſt and nobleſt way of Cure, is by ſuch Medicines as are exalted by Art to ſuch a degree of Purity as makes them fit to (pacifie or) bring to quiet the Natural Spirit.

For Preſerving or Reſtoring of Health, conſiſts not in taking of Poyſonous Purges, Vomits, Fluxing with *Mercury*, or Torturing the Sick with Bliſters, Cuppings, Iſſues, Bleedings, *&c.* to the end the Spirit being more enraged by ſuch eminent dangers immediately threatning the Life, in hopes (by that means) it may throw out what was offending before; but in keeping it from fury, if not already provoked, or otherwiſe pacifying, if enraged, as aforeſaid. And I appeal to all Ingenious Men, which of the two is the better Method; for whatſoever is not friendly to the Life, either ingendred within, or aſſumed from without, brings ſooner or later, the whole or part, into an inquietude.

Conſider, What is it that gives eminency to any one thing we eſteem as Excellent, and we ſhall find that it is the Purity of it; if we conſider then what we are ſpeaking of, *viz.* A Medicine to help Nature, we muſt alſo conclude its efficacy and excellency to proceed from its purity or purified Nature; then conſider what it is for, It is to help and reſtore Decaying Nature, or the Languiſhing Spirit in Man. Now this Spirit is the moſt ſubtile part of Man, therefore no way to be aſſiſted, but by that which is of purity and likeneſs with it (*viz.*) *Medicine*

of

of a Solar (or Gold like) Nature, made by Art subtile, penetrable, and capable by its splendent Beam to dispel those Mists in the Air which clouds and darkens the Sun of the Little World Man; and he that hath such a Medicine as this (which every Physician ought to have) needs not so much mind the uncertain Indications, Diagnosticks, and the like Verbal Impertinences, &c. which serves only for ostentation.

Now Courteous Reader, Consider whether this *Solar Powder* (which is so amicable to Nature, and cures Radicated Diseases by enlightning and enlivening the Natural Spirit, be the fitter Medicine to be used, or those common gross pretended Medicines which acts or works upon the Sound as well as the Sick, to the great injury of Mankind, &c. judge ye.

Thoſe that are troubled with any other Diſeaſes than thoſe afore-mentioned, either Internal or External, within the reach of Medicine, of what nature or kind ſoever, may be cured by this Medicine; and I do adviſe all who love their health, to take a paper of this Powder for three or four Mornings every Moneth; thereby you may root out the Scurvey, the ſeed of which ſecretly lodges in the Blood, in moſt ſeeming healthy perſons, of which (root) moſt Diſeaſes are but branches.

For Seamen that go long Voyages, or others, that Travel by Land, this Medicine is of great uſe, and may ſave life, where at Sea the Doctors Cheſt (or in other places the Shop Medicine) may fail: For at Sea in Calentures, Feavors and Flaxes, many Seamen are loſt, for want of a good Medicine, powerfully to reſiſt Diſeaſes. Now for the cure of theſe, let the Sick take a paper of Powder Morning, Noon, and Night, and none of theſe violent Diſeaſes can long abide.

They are alſo in uſe in Forreign Plantations, where many that eſcape Death, are for ever deprived of the former uſe of their Limbs, and all for want of good Medicine.

Note, That this Medicine will keep its Vertues many years, being ſeparated from thoſe Impurities which cauſe Corruption; and may as well be taken in extream weather

ther as at Spring or Fall, the only ſuppoſed fi: times to take Medicines, *&c.*

WHo hath a moſt excellent Waſh to Beautifie the Face, as many of the greateſt Quality can teſtifie: Its Virtue is to take out all manner of *Wrinckles*, *Freckles*, *Pimples*, *Redneſs*, *Morphew*, *Sun-burn*, *Yellowneſs*, or any other Accident, cauſed too often by *Mercurial* Poyſonous Waſhes: It alſo plumps & ſoftens the Skin, making it ſmooth and tender as a ſucking Child. In a word, the young it keeps always ſo, and the old it makes appear fair and young even to a Miracle: There is nothing of Paint relating to it, neither hath any Perſon the *Secret* but my ſelf, having, with much difficulty, obtained it of a great Lady at *Paris*, which is now dead, who ſold it there to the Queen & Court for above Twenty thouſand Piſtols in one year. You may have from half a Crown to Five Pounds the Bottle. She can furniſh you with all ſorts of delicate Pomatums, Whitepots that cannot be compared with, and alſo an admirable Powder for the Teeth, which makes them as white as Snow, and a Water to waſh the Gums, which preſerves from all Scorbutical Humours, and cures where it is already come. She has alſo an admirable Spirit for the *Scurvy*, which being taken one Spoonful in a Morning, and another at Night, certainly cures it, tho' the Patient were broke out all in *Bloches*, & never ſo far gone. Another excellent Remedy againſt that cruel Diſtemper called the *Stone*, and *Ulceration of the Kidnies*, and a moſt pleaſant Diet-drink, which cures the worſt of *Conſumptions*, tho' the Patient have been left off by others, in a Month or ſix Weeks time at farthеſt. She has alſo great skill in all manner of ſore Eyes, or any cold or hot Rheum, cauſed by the *Small-Pox*, curing the black or white *Cataracts*, tho the Patient have been ſtark blind. And alſo a moſt delicate Oyntment to anoint the Face, ſo ſoon as the *Small pox* begins to dry, which certainly prevents all Scars or Pits; as alſo a moſt excellent Secret to prevent Hair from falling, cauſing it to grow where it is wanting in any part of the Head, and can alter any Red or Gray Hair to a moſt delicate light or dark Brown, which will continue for ever without any ſoil or ſmooting. She alſo ſhapes the Eyebrows, taking off the uneven Hair, and making them perfectly beautiful, without any Pain, and makes low Foreheads as high as you pleaſe, taking off the Hair ſo as it ſhall never come again. You may have in the ſame Houſe all manner of Cordial Waters, and a moſt delicate Paſt to ſmooth and whiten the Hands, with a curious red Pomatum to plump and colour the Lips, which keeps them all the Winter from chopping, and a Plaiſter to take of Hair from any part of the Body. She cures alſo any ſort of *Ague*, removing the cauſe, ſo that the Patient ſhall never need to fear a Relapſe, but will be more healthful all their Life after; with ſeveral other rare Secrets in Phyſick, not fit here to mention; which if any perſon deſire to be ſatisfied in, they may ſpeak with her every Day in the VVeek, from 10 in the Morning, till 8 at Night. She has alſo an excellent Remedy for Barrenneſs in Women.

By his Majesties Authority.

SAlvator Winter, an *Italian* of the City of *Naples*, Aged 98 Years, Yet by the Blessing of God, finds himself in health, and as strong as any one of Fifty, as to the Sensitive part: Which first he attributes to God, and then to his *Elixir Vitæ*, which he alwayes carries in his pocket adayes, and at Night under his pillow; And when he finds himself distemper'd, he taketh a Spoonful or two, according as need requireth. First, It is good for all sorts of Catarrhs, pains in the Head, Lethargy, any sort of Sore Eyes, for dimness of sight, hardness of Hearing, stinking Breath, Scurvy in the Mouth or any other part of the body, Tooth-ach, sore Throat, for all sorts of Coughs, old or new, Consumption, Weakness, and pains in the Back, Oppression of the Heart, Obstructions of the Stomach, Running of the Reins, *French POX* stoppage of the Urine, Palsies, *Sciatica*, all *Burnings* and *Scaldings*, the Gout, the Stone in the Reins or Bladder, *Worms* in Men, Women and Children of any sort whatsoever, Fainting or

Falling

Falling Fits, Fits of the Mother, Convulsion Fits, all Rotten ulcerated *Sores* and *Gangrenes*, although they be never so bad, and have been given over by others, are Cured by me.

Small Pox, *Measles*, *Plague*. It is a present Remedy for the *Griping of the Guts*, Feavers of all sorts, Dropsies, Tympany; *Ruptures* in Old or Young, which have been given over by many, have been cured by me. And in brief, for all other Infirmities incident to Humane Bodies, as well Internal as External; for this *Elixir* hath such force and vigour, that if it were possible it would revive the dead, were it not a *Secret* reserved to God only.

In the Use of this *Soveraign Remedy*, it may seem hot inwardly, or outwardly being applyed, which occasions some persons to say it is too hot; but I will assure you, it is cooling and refreshing in a hot distemper, and warmeth in a cold; having by my long Study and daily Experience, reduced it into such a *Methodical* and *Philosophical* Order, there being *Sixty two ingredients* in the Composition of it, one correcting the other, and in the Circulation they are so exactly tempered, that it makes a most *Incomparable Liquor*: so that it is a general Cure for all Diseases incident to Men, Women and Children, using it according to the Printed Book I give with it.

I need not say much in the praise of it, there being Thousands in divers parts of *Europe*, and particularly of this Kingdome can testifie what *Miraculous Cures* it hath perform'd to great Admiration. For brevity sake, I shall only produce one, The *Most Learned and Honourable*, of *Worthy Memory*, Sir *Kenelm Digby* did highly Commend it, and styling it in his Book, *The Miraculous* Elrxir Vitæ, *which never doth harm, but assuredly doth good*. The Occasion of setting forth these Bills, is, Because a general Report goes, *That I am dead being of so great an Age*: But such Persons as have occasion to make use of me, shall find me at my House at the Sign of St. *Paul's* Head in *New Kings-street*, between *Long-Acre* and St. *Giles in the Fields*, near *Covent-Garden*, *London*.

At the *Boot* and *Spatterdash* next Door but One to the *Vine Tavern* in *Long-Acre*, near *Drury-Lane*, Liveth a *German* Dr. & *Surgeon*.

WHO by the Blessing of GOD on his great Pains, Travels and Experience, hath had wonderful Success in the Cure of the Diseases following.

He carefully, and with great Expedition, Cures all Internal and External Distempers; all Vapours, Giddiness or Swiming of the Head, Fainting Fits, Noise in the Ears, Deafness, Dropsie, Yellow-Jaundice, Scurvy, *Rheumatisms*, Cold Flegmatick Stomachs, windy and tedious Coughs, Flowing of the Gall, *Melancholly*, *Madness*, Plurisie, Wind and Cholick, Palsie, all Pains or Aches of the Limbs, or any part of the Body, Lameness, Shrinking or Contraction of the Nerves or Sinews, Scald Heads and Sore Legs, Bloody-Flux, stoppage of Urine and such as cannot hold their Water, Pains in making of Water, other Distempers not hitherto distinguish'd by Name. He hath Cured such when given over by others as incurable.

He also Cureth the *French-POX*, with all its Accidents, as the Running of the Reins, Shankers, Bubo's or Swellings in the Groin, after a New *Method*, and in a short time, without Baths or Stoves, as also without *Mercury*, which many times prove Destructive to the Patient. And for the Satisfaction of all those who have been Sporting in the Garden of Venus, and in seeking for Pleasure, have meet with a *Clap* or *Gonorrhæa*, if they come to him, he promises to Cure them in *a short time as possible*.

He helpeth Bursten and Broken Bellies, either in *Men*, Women or Children, whether the Ruptures be in the Groin or Navel.

He Cureth all Ulcers in the Throat or *Mouth*, Palate or Nose, though never so bad, and lett off as incurable by others.

I Recover and give Sight to the Blind, by Couching Cataracts.

I Restore Sight in a *Moment*. I Cure Hair-Lips in Six Days, *the Cancer or Noli me Tangere in the Breast, or any other part of the Body*.

If any Person, be troubled with any Distemper whatsoever Incident to the Body, will bring or send him their Urine, he will be very ready and willing to tell them, whether their Distemper be Curable or not.

He Cureth Agues and Feavers, by an inward Application at 3 times taking.

Therefore defer not the Time, but come to him before it is too late, and your Distempers have taken too great Root, and then he doth not question but to Cure you, let your Distempers and *Maladies* be what they will; and shall, *and will be ready, according to the best of his Art and Skill, to assist every one that stand in Need of him in the regaining of their Healths.*

If any Woman be unwilling to ſpeak to me, they may have the conveniency of ſpeaking to my Wife, who is expert in all Womens Diſtempers.

I alſo cure Women and Maids that are ſubject to vomiting, and take from them the quivering and ſhaking occaſion'd by the ſame Infirmity. I alſo cure hard Bellies, ſwell'd as with Child, or, as if troubl'd with the Dropſie. *There is yet another Sort of Sickneſs when the Melancholy is not cleans'd and taken away, which occaſions grief and heavy thoughts; nay, ſometimes Ragings, and an ill Mind towards themſelves and others.* I cure the Piles or Hemorrhoids in the Fundament, all Warts, Excreſcencies, or ſuperfluous Fleſh in the mouth of the Bladder or Womb.

I likewiſe cure all Ruptures or Burſten-Bellies, either in Women or Children, nay, tho' they have had it many years. I take the Stone from Women and Maids without cutting. I have alſo an approv'd Remedy for a pain in the Loins, or ſmall of the back, whether proceeding from Gravel or Child-bearing: as alſo a pain in making Water, or thoſe that cannot hold their Water, but are troubled with a conſtant Leaking or dropping as they go, let it proceed from what cauſe it will. I drive away all Gouty pains in the Joynts, nay, tho' your Arms and Legs were grown crooked, or through Contraction, or ſhrinking of the Sinews, and tho' you have kept your Bed for many Years, (by the Bleſſing of God) I don't doubt but to relieve you. I dare preſume few have arriv'd to the perfection in this cure as my ſelf.

There are many other Cures incident to women: But I ſhall conclude with this, that I correct all Vices in the *Matrix*, and refreſh all the weak Faculties in the Body; by this means rendring a Woman capable of conception that before was *Barren*.

I Cure Out hanging of the *Matrix*; that is, when the Ligaments, or Strings that bind the Mother faſt to the Body, remove from their Place, occaſion'd either by bearing of Children, violent Coughing, heavy work, in 14 or 16 days *I artificially return it to its proper place; which I Challenge any Perſon to do but my ſelf.*

Thoſe who are not able to come to me, let them ſend their Urine, and on ſight thereof I will reſolve them what their Diſtemper is, and if curable, will perform it at a Reaſonable Rate; but if not curable, will plainly and honeſtly tell them, that they may not be defrauded by others.

My Hours are from 9 till 12 in the Morning, and from 2 in the Afternoon till 7 at Night.

DWells a Phyſician, a Graduate in one of our own Univerſities, and a Member of the Colledge of Phyſicians in *London*, who has a Pill prepared with wholſome Ingredients, and is of ſuch great Virtue that it ought not to be concealed, when ſo many dangerous and ſtopping Medicines are daily uſed for the *running of the Reins*, which being neglected or unskilfully managed, occaſions Ulcers in the *Mouth, Throat, Palate, and Noſe, Pains and Breakings out in many Parts of the Body.* This Pill Cures the *running of the Reins* ſafely without leaving any ill Dregs in the Body, and repairs all the Parts and Senſes when they have formerly ſuffer'd Damage, by *poiſonous Medicines* and the uſe of *Mercury*, and prevents much Danger in Men and Women if they are taken two or three Mornings after 'tis feared any Injury has been received, and performs the Cure by expelling the Cauſe and not by ſtopping up the *Venom* in the Body as the Cuſtom of ſome is.

Theſe Pills are in Boxes, from one Shilling and Six-pence the Box to two Shillings and Six-pence the Box, and ſo to five Shillings, and will be deliver'd to any Perſon with a Note of Directions. They may be taken in the hotteſt or coldeſt Weather and hinder no Buſineſs.

I cure ſpeedily and ſafely, Ulcers in the Mouth, Throat, Palate, and Noſe, and Breakings out in the Head and Face, and Pains in the Head and Limbs, with an outward Remedy alone, which is far more effectual than any inward Medicine whatſoever, and perfects the Cure when all things elſe fail.

The Gentlewoman that lived in *Red-Lyon Court*, is removed to *Racket-Court*, near *Fleet-bridge*, the third Door on the Right hand.

WHo hath a moſt Excellent Waſh to Beautifie the Face, as many of the greateſt Quality can teſtifie: Its Vertue is to take out all manner of Wrinckles, Freckles, Pimples, Redneſs, Morphew, Sun-burn, Yellowneſs, or any other Accident, cauſed too often by Mercurial Poyſonous Waſhes: It alſo plumps and ſoftens the Skin, making it ſmooth and tender as a ſucking Child. She has alſo great skill in all manner of ſore Eyes, or any cold or hot Rheum, cauſed by the *Small-pox*, curing the black or white *Cataracts*, tho the Patient have been ſtark blind. She has alſo a never failing Remedy for Barrenneſs in Women.

The Lady *Moor's* DROPS.

Rightly prepar'd by Mr. Wells, *at his Houſe in* Long-Acre, *againſt the* Blew-Bell *near* Drury-Lane: *Being the only One that hath the true Receipt from the Lady's Son, as may be ſeen under his Hand and Seal.*

THE Super-excellent Vertue of theſe moſt famous DROPS, being univerſally known throughout this Kingdom by Perſons of all Ranks, who have us'd the ſame, the great Effects wrought by them has obliged me (for Publick Good) to make them as noted as I can to the World; that thoſe afflicted with certain Diſtempers, commonly incurable by any other Means, may know where to apply themſelves for a Remedy (by Gods bleſſings) that never fails in curing *Conſumptions*, *Dropſies*, all manner of *Coughs*, *Collick*, *Ptiſick*, *Aſhma*, or any *Shortneſs of Breath*; Theſe rare *Drops* cure any inward *Weakneſs*, whether it proceeds from *Defects* of *Nature*, or *Decay* of the *Lungs*; they likewiſe bring down the *Menſtrua*, the Stoppage whereof cauſes People to look Yellow, Black, Green, and of ſeveral other ſickly and unwholſome Colours: But by taking theſe *Drops* they'l look for the future of a young briſk, and lively Complexion. It is a preſent Remedy againſt any inward bleeding, occaſion'd by ſtrains.

So great is the Approbation of theſe balſamick *Drops*, that their never-faling Vertue has ſuggeſted ſeveral ill-meaning Perſons to impoſe ſo much upon People as to Counterfeit the ſame, to the great prejudice of ſuch as uſe them: And in particular, there is a Gentlewoman who pretends to have the true Receipt of theſe inеſtimable *Drops*, and has put out Printed Bills

all

all over the Town, but it is prov'd ſhe never had the true Receipt, as will be teſtify'd by the Lady's Son and others.

The *Drops* are to be taken 5 in the Morning, and faſt an Hour after, and as many at Night, in a Spoonful of *Ale* or *Beer* 9 Days together, then intermit 9 Days and take it again; but for a Child 3 Drops: Eat no ſalt Meats or Milk in the the time of taking. The price one Shilling and ſix Pence *per* Bottle, being known to prevent Counterfeits by my Coat of Arms upon the Bottles; that is, *Vert a Cheveron Ermin* between three *Martlets Argent*.

All that have taken the Drops *according to my Directions, have found great Beneſit thereby.*

To all Ladies and Gentlewomen.

At a Potter's-Shop *in* Ruſſell-Court, *between* Drury-Lane *and* Bridges-ſtreet, *the ſecond door on the Left-hand coming in from* Drury-Lane, *Lives a Gentlewoman, who*

BEing by ſeveral Perſons of Quality invited to *London*, and having by my long Practice and Experience in Phyſick attained a more certain and ſure Method of curing (by the bleſſing of God) all Diſtempers incident to the Female Sex, than any other Practitioner, I thought it convenient to make my ſelf known by this publick way of Bills, that thoſe who lie languiſhing under ſtubborn and chronick Diſtempers might know where to apply themſelves for Relief.

Firſt, I cure white & red Swellings in any part of the Body, Rickets in Children, & all ſorts of ſore Breaſts.

☞ I cure the *Morbus Gallicus*, or *French-POX*, with all its Accidents, with Eaſe, Speed, and Secreſie. And for thoſe that are ſo bad, that their Diſtemper requires a cloſe Confinement, I have Conveniencies at my Houſe to accommodate thoſe that deſire it, and require nothing for Diet, Lodging, or Medicines, till the Cure is performed; which is as much as to ſay,

NO CURE, NO MONEY.

And for delicate Perſons, who will not take Purgatives by the mouth, I have a rich Ointment, which (by anointing the Belly) purges all Humours either upward or downward, as deſired, and deſtroys all ſorts of Worms in Young or Old.

Secondly, I cure all Women or Maids of the Suffocation or riſing of the Mother, which may be occaſioned through any rotten Subſtance, or through a corruption in Nature, or by an Impoſthumation in the Womb, which may eaſily be diſcern'd; for there oftentimes proceeds a great dizzineſs in the Head, anguiſh of Heart, an inclination to Vomit, much riſing and tumbling in the Belly, from whence oftentimes proceeds very fatal Accidents; as Barrenneſs, Impoſthumes, Inflammations of the Lungs, an unuſual Paleneſs, and ſhivering in the Limbs, Colick, Strangury, Obſtructions, Wringings, and Tertians of the Guts, *&c.* I alſo cure the yellow and black Jaundice, and an Impoſthume in

the Nose and Head. I have likewise an infallible Cure for the Rheumatism, and a very fine Medicine that gives Ease in all Pains in the Limbs without hindrance of Business.

Thirdly, I cure out-sinking, down-falling, out-hanging of the Matrix, that is, when the Ligaments or Strings that bind the Mother fast to the Body removes from its place, occasioned either by bearing of Children, violent Coughing, or heavy work, and in 14 or 20 days I artificially return to its proper place, which I challenge any person to do but my self.

I also cure Women or Maids that are subject to *Vomiting*, and take from them the *quivering* and *shaking* occasion'd by the same Infirmity. I also cure *hard Bellies*, swell'd as with Child, or as if troubled with the Dropsie. There is yet another sort of *Sickness*, when the *Melancholy* is not cleans'd and taken away, which occasions *Grief* and *heavy Thoughts*, nay, sometimes *Ragings*, and an *ill Mind* towards themselves and others. I cure the *Piles* or *Hemorrhoids* in the *Fundament*, all *Warts*, *Excrescences*, or *superfluous Flesh in the Mouth of the Bladder* or *Womb*.

I also cure *Ruptures* or *burften Bellies* either in VVomen, or Children; nay, tho they have had it many years. I cure the *stone* in the *Kidnies* or *Bladder*. I have an approved Remedy for a *pain in the Loyns*, or *small of the Back*, whether proceeding from Gravel or Child-bearing; as also a *pain in making water*, proceeding from what cause it will. I drive away all *Gouty pains in the Joynts*, though your Arms and Legs were grown crooked through a contraction or sinking of the Sinews, and though you have kept your Bed for many years, (by the blessing of God) I don't doubt but to relieve you. I cure many sad Accidents in the *Eyes*; as *Spots*, *Specks*, *Pearls*, *Water-sinkings*, *hot and violent Rheums*, and many *more too* tedious here to relate. There are many other Cures incident to VVomen, but I shall conclude with this, That I correct all *Vices* of the *Matrix*, and refresh all the *weak Faculties* of the *Body*, by this means rendring a VVoman capable of *Conception* that before was *Barren*. *I have a powerful Medicine against Miscarriage.*

I have also a delicate *Wash* to beautifie the *Face*, and a curious *Pomatum* which takes *Wrinckles*, *Freckles*, *Redness* or *Morphew out of the Face*. *Likewise a Pomatum to whiten & smooth the hands.*

Those that are not able to come to me, let them but send their *Urine*, and on sight thereof I will resolve them what their Distemper is; and if curable, will perform it at an easie rate; but if not curable, will plainly and honestly tell them, that they may not be defrauded by others.

You are desired to keep this Bill by you, that you may know where to apply your self in the greatest of your Extremities.

My Hours are from Eight in the Morning till Twelve at Noon, and from Two till Nine at Night.

A *Perfect, Safe* and *private Cure* for a *Clap, Pain, Heat, Scalding* in making *Water, Running, &c.* in a few Days; and in 4 or 5 Weeks time for the *French Diſeaſe*, tho' of ſome *Years continuance*, and attended with *Pains* in the *Head, Back, Shoulders, Arms, Legs* or *Night-Pains*; *Sores or Ulcers in the Mouth or Throat*; *Sores, Stubborn Scabs*, or *Breakings-out* in any or all parts of the *Body, Swellings, &c.* By a *Phyſician* at the *Golden Ball* by *Tom's Coffee-Houſe*, in *Half-Moon Court* between the *Old* Bail *and Ludgate* on *Ludgate-Hill*.

At the Golden Ball in *St. Chriſtophers Church-Yard* in *Thread-Needle-ſtreet, near* Stocks Market. You may have

A Certain, Safe and *Private Cure* for any *Venereal* **Pox** or **Clap**, by a *Phyſician*, not us'd to make himſelf Publick, nor had not now, only to oppoſe the *Ignorant*, and prevent the Ruin of ſuch as labour under this Diſaſter. They stop any *Loosness, Lask, Flux*, or *Bloody-flux*, in a day or two at most; they suddenly and strangely *ease Pains* proceeding of *Wind, Cold, Surfets*, or any other cause; they are also very excellent against *Melancholy*, and pains of the Spleen.

3. A BALSAM, which cures Pains, sprains, swellings, Bruises, Burns, scalds, scabs, Wounds, Sores, old Ulcers, Fistulas, and the like: it is very good against Tetters, Ringworms, Morphew, Scruffs, Biting of Mad-Dogs, redness of the Face, Freckles, Sunburning, Scabs, Itch, Pimples, or any other deformity or breaking out whatsoever. It strengthens weak Limbs, helps shrinking of the Sinews and cures any wound in the Head, or other parts. It is very good to anoint with the Palsies, Gouts, Sciatica, and Numbness: it is very good against the Cramp, or any external pain. It ripens Swellings, cleanses Wounds, Ulcers and Apostumes, breeds Flesh, and skins any Sore; not suffering Corruption, Putrifaction or dead Flesh

in

in any Ulcers, Fistula, Kings-evil, or the like. The Price of a Box of pills is 6d of the Drops 6d and of the Balsam 6d.

4 *The way of using them.* The PILLS may either be swallowed down alone, or in the pap of an Apple, or Honey, or a stewed prune, or dissolved in a little Beer, Ale, or Mace, Ale Wine, or Broth, as they like best, and so taken at night going to bed, without observation of any other order. You may give from half a year old to three years, half a Pill, or a pill, from three years of Age to ten, one or two pills; from ten years of age to fifteen give two or three: from 15 to threescore and upward you may safely give four or five.

The DROPS give in Sack, or Ale, or Mace-Ale sweetned, five or ten drops to young Children: from three years old to fifteen give twenty or thirty Drops, from fifteen to threescore and upward, give from a quarter of a spoonful to half a spoonful or more, let them be given at night going to bed: but in *Agues* two or three hours before the fit a whole spoonful.

In using the BALSAM, anoint therewith morning and night, and apply it also plaister-wise to the part afflicted.

5 These *Family-Pills* are of excellent use for all travellers, Seamen, and such persons who live on bad diet, in ill airs, moyst places, and near the sea coast, and of such as are given to excessive drinkings, and who cannot attend upon a cure, but are forced to go about their business; they may take them to Sea with them, (because they keep their vertue many years, nor does the water spoil them) the which will be found to stand them in great stead in all Sea sicknesses, sickly Seasons, Calentures, Feavers, Fluxes, Poysons, Agues, Scurvys, Poxes, &c. which commonly afflict such as go to Sea.

6 They give present ease, relief, and comfort, working gently by Urine and Stool: they strengthen the body, and agree with all constitutions, thereby curing most curable Diseases, taking away all pains, lameness and inward stoppages: They are an excellent head-purge for all diseases in the head, as head-achs megrims giddiness and rhumey eyes, beyond any Medicin ever yet known; and for all such as have spoyled their bodies by heats and colds, or hard-drinking in their young days; more can scarcely be done by any Medicine.

7 They cure the *Scurvy*, when it is grown so bad, as to become Scandalous, so as that many people think it to be the *POX*: for the *Scurvy* often causes great pains in the head and nose, shoulders, and shin bones, with other pains all over the whole body, dulness and heaviness, and redish or blewish spots and breakings out in the skin; weakness in the back and Loyns, a bad stomack, and sometimes loss of appetine, loosness and soreness of the teeth, throat, and mouth, a discoloured skin, with spots, stains, pimples, morphew and Scurf, and a general weakness, and faintness all over the

whole

whole body, insomuch at last that it gets into the bones, and infects the very marrow of them; this cruel disease these *Family-Pills* cure at a few times taking.

8. They purge by stools, flegm, choler, and melancholy: they dispose old Ulcers, Fistula's, running Sores, Sore-breasts Sore-eyes, Scald heads, Kings evil Sores, Tettars ringworms, Salt humors, Scabs, or any other breakings out to a Speedy healing, by purging away the evil humors which feeds them.

9. They are an excellent help for all risings, vapors, cloggings stuffings, knawings or illnesse at the stomach; for such as grow too fat, pursie, sweat or spit much, have costive or hot bodies, and for all such as have lost their complexions by the *Scurvy*, *Faundice*, or *green-sickness*; such as are over taken with lingring Diseases, growing worse and worse every year than other, with Melancholy stoppages in the head and breast, shortnesse of breath, and ill digestion, till such time as they fall into dropsies, the Jaundice, Hectic feavers or deep consumptions, lingring and wasting away with dry coughs, wheesings, faint sweats and the like; these my *Family-Pills* carry off all those diseases the right way, by taking them once twice thrice or four times a month.

10. They are the only Pills now used, in the Cure of all the aforesaid diseases, not only in *England*, but in many forren countries and Kingdoms, being cry'd up, and priz'd above all other medicines whatsoever; insomuch that in some hundreds of families, on most occasions, they are their only Physick (and from hence they came to be called Family Pills) being known to be safe in opperation; and certain in the end proposed: for no person curable troubled with any of the aforesaid diseases, hath failed of Cure, who has continued, (without delaying of time, or taking of other Physick) the use of those Pills according to the directions aforesaid.

11. With these my Familly Pills, I have cured two hundred and twenty persons of the Scurvy; one hundred and twelve of the Dropsy; one hundred eighty six of the green sickness; one hundred twenty five of the Evil; one hundred and fourteen of the Headach; ninety seven of worms; eighty four, of the Jaundice; seventy three of stinking breaths; besides vast numbers of people, (which come dayly to me) of most other distempers: with the drops I cured one hundred and thirty of Consumptions; one hundred fourty two of pain and weakness of the back: and I have sold them and caused them to be given away to about two thousand persons that have had agues, with a promise to all such as bought them, that if they cured them not, they should have their money again, and yet never heard to this day, that ever they mist the cure of one man, woman, or child; although I have used them upwards of 20 years.

By

By using these Pills and drops inwardly, and the balsam outwardly I have cured above one hundred persons of the Gout, some of which had gon on Crutches above a dozen years.

12. They cure the *Gonorrhœa* and sharpnesse of urine, with all manner of *Veneral Diseases*, although of many years standing, all ulcers and stoppages in the reines, bladder and womb; they kill all sorts of worms, cause a good appetite and a strong digestion, taking away all swellings from the belly, Thighs and Legs, being the best remedy known in the world for the dropsy and Gout; taking away all manner of pains from the very bones, when no other meanes whatsoever will do. They dissolve the stone, and bring away slime, sand, and Gravel, causing those to make water plentifully, which could not in many days before; this they have done in several hundreds to admiration. Many bed-rid, and given over to all appearance, have unexpectedly met with a cure almost to a miracle; insomuch that many learned Phisitians, could not but admire at their vertues.

13. The success and safety of these Pills, have brought them into Credit and estimation, almost through the whole world; forasmuch as they that take these, need not go under long, dangerous and chargable courses of Physick, suffer by bad medicins, and be driven time after time from one Physitian to another.

14. Where the disease has been of long Continuance, a perfect cure cannot be expected in 5 or 6 times taking, in those cases take them in the largest dose, and at least ten, fifteen or twenty times, as need requires, omitting them sometimes a day or two, as you see cause.

15. Lastly, They may be taken without confinement to the house, or keeping within doors, nor is there any positive necessity to take broth or posset-drink, or the like with them, as in other Physick, but as the patient pleases, being safe and gentle in their opperation, and fit to be taken by all persons, from half a year old to threescore and upwards, at any time and season of the year.

been thought past Cure by others: It never fails (if curable) to take off the height of the Fever in six Hours, reviving and chearing the Spirits to admiration. *The like no other can produce.*

Those that by way of prevention would secure themselves against the Distempers that usually afflict Mankind, may take 2 or 3 Doses of his *Pills* and *Elixir*, than which, nothing is better.

He gives Judgment on Urines, and all Distempers, and Candidly deals with the Patients in Resolving them, whether Cureable or not.

And for the satisfaction of those that think any Season of the Year improper to take Physick in; it may be adviseable to assure them, that when ever a Distemper seizes, it's then time to seek Relief.

It would be tedious to insert the many Cures he hath performed, and therefore shall trouble the Reader only with these few following, *viz.* The Wife of Mr. *Parker*, Ribbon-Weaver, in *Nicholas-street* in *Shoreditch*, who was in a languishing Condition for 2 Years, with a continual Pain and Tumor in the Womb, and was perswaded for a long time that she was with Child; and given over by many Physicians, some affirming that she had a Devil in her; and by the Blessing of God, she was perfectly restored to Health by him in 3 Months. The Wife of Mr. *John Seal*, Weaver, in *Cock-Alley*, in the same Street, that had been tormented with an Ulcer in the Womb 12 Months, he cured in a little less than 2 Months. Also Mrs. *Jones*, near the *Cock*, in the same Street, had a Quartane Ague 9 Months, and finding no benefit by several Physicians, was cured by him in a Week. Mr. *Roger Combs* in *Salisbury-Court*, who was afflicted with the Dropsy, Yellow-jaundice, and Cholick, he cured in 6 Weeks. Mr. *Green* in *Salisbury-Court*, he cured of a Dropsy in 3 Weeks, *being given over by others.* He cured *John Wooton* of *Puddle-Dock*, Carman, of the Dropsy, in 3 Weeks. The Wife of Mr. *Bradley* Emmery-man in *Salisbury-Court*, he cured of a Fever, Vomiting, and the Obstruction of Urine, in 12 Days, *after given over by others.* Mrs. *Jones*, at the *Cloth-workers Arms* in *Plow-street* in *White-Chappel*, he cured of a virulent Flux, in a Month. Mr. *Fausters* Wife of *Ratclif*, against *School-lane* End, was cured of a Deafness by him in 3 Months. The Son of Mr. *Hunt*, a Tobacco-pipe Maker over against the *Sugar-loaf* in *Salisbury-Court*, had the Rickets and Consumption at 4 Years old, wherewith he became a Cripple, and was perfectly Cured by him in 2 Months.

He could name many Hundred more, (were it proper) that he hath Cured of all the Distempers that afflict Mankind.

He hath convenient Lodgings for any Patient that desires to be private.

In St. Martins Court *in St.* Martins-lane; *at the ſign of the* Golden Heart, *up one pair of Stairs, Liveth* k: 244

A Gentlewoman, who, by the long Experience of her Predeceſſors, as likewiſe from her own Practice for ſeveral Years paſt, hath attained to great Knowledge in things relating to the Female Sex, which ſhe is unwilling to conceal, knowing them far to exceed any thing expoſed by the common Pretenders of this Town: Therefore is perſuaded, by ſeveral Perſons of Quality, to make this general Publication.

1. She hath a moſt incomparable *Waſh* to beautifie the *Face*, agreeable to all manner of *Complexions*, the Virtues of it are ſo great, that it takes off Sunburns, Yellowneſs, Morphew, Redneſs, Pimples, Freckles, or what elſe may obſtruct a fair and lovely Complexion; it ſmooths and plumps the Skin, and makes the Aged appear youthful to a wonder, and leaves ſuch an agreeable Luſtre, that the moſt curious Eye cannot perceive Art to be uſed, but will judge it to be the true product of Nature.

2. She has a moſt delicate *Pomatum*, which is prepared to anſwer the ſame with the *waſh*, and is wonderfully agreeable to be uſed with it; and ſhe dares preſume to ſay, that whoever ſhall make uſe of both theſe, ſhall in a little time find ſuch an Alteration in their Complexions, that they themſelves ſhall ſtand amazed. A Summers day is too ſhort to demonſtrate the full Virtues of both theſe, therefore for brevity's ſake ſhe omits it, and leaves thoſe that make a tryal to ſpeak their Praiſe.

3. She hath red and white *Handkerchiefs*.

4. She hath a fine *Lip-Salve*.

5. She hath all ſorts of delicate *Pearl-Powders* to whiten the Skin.

6. She hath moſt curious *Masks* and *Forehead-cloths*, which take out all Spots, Pits or Scars cauſed by the Small-Pox; and alſo all Wrinckles in the Forehead.

7 She hath a rare *Dentifrice Powder* and *water* for the Teeth, which will make them as White as Ivory. The Water is an infallible Remedy for the Scurvy in the Gums, and preſerves from all Scorbutical Humours.

8. She ſhapeth the Eye-brows, taking off the uneven Hair, and making them perfectly beautiful. *She* likewiſe maketh low Foreheads high, and cuts Hair if required. *She* hath alſo a great *Secret* to prevent Hair from falling, cauſing it to grow where it is wanting.

9. She hath a fine *Ointment* to anoint the Face ſo ſoon as the *Small-Pox* begins to dry, which certainly prevents all *Scars* and Pits

10. *She* hath a *water* highly approved and often experienced for the Cure of *ſore Eyes*, cold or hot *Rheums*, whether cauſed by the Small-pox, or any other way.

11. *She* hath an incomparable *Pill*, which cureth the Scurvy, with all its ſymptoms, altho' never ſo bad, and left off as incurable by others; the Dropſie, yellow-Jaundice, cold and phlegmatick ſtomachs; opens all Obſtructions purges the Head, adds a good Colour to the Face, purifies & ſweetens the whole Maſs of Blood, creates a good ſtomach, and makes the Body able to withſtand Diſeaſes; it is a prevailing Medicine in the Green-ſickneſs: In ſhort, the Virtues of this Pill are too many to be incerted here.

12. *She* hath a *Golden Unction*, which cures all old Ulcers, altho in the Legs, and perfectly heals them, altho of never ſo many Years ſtanding. It likewiſe cures all Scabs or Spots, Ring-worms or Itch, Scald Heads, or any breakings-out of either Head or Body, and anſwers the Patients Expectation to a wonder.

13. *She* hath an excellent *Powder* which kills and deſtroys all ſorts of Worms in Men, Women, & Children, and brings them forth in great Numbers.

She has alſo a great *Secret* to prevent Miſcarriages in Women, which hath been proved with *wonderful* ſucceſs.

She hath likewiſe Medicines to cure Barrenneſs in Women, the like no Perſon hath but her ſelf.

Her Hours are from 8 *till* 12, *and from* 2 *till* 8 *at Night.*

At the ROSE *over against the* Gray-Hound-Tavern *in the* Strand, *there is a Phyſitian.*

WHo has ſuch Tranſcendent Medicines againſt that Tormenting and Raigning Diſeaſe the *Gout*, that if Recent or in Youth, he certainly Cures it, or if Old or Inveterate, gives Eaſe in the moſt Violent pains thereof, and ſo ſubdues the Morbifick Humour, that it never returns by the ſame cauſe. In the Stone, of both Reins and Bladder, Strangury, and all ſtopages of Urine, he gives ſpeedy relief.

The Kings Evil, Leproſie, and the inveterate Scurvey, when ariv'd at the greateſt height of Maligaity, he will engage the Cure of, with much Eaſe and Safety.

The Collick and Iliack Paſſion, all Gripings of the Guts, Vapors, Windineſs of the Stomach, Fitts of the Mother, proceeding from what cauſe ſoever he Cures, giving Eaſe in all thoſe racking Pains, almoſt in a Moment.

All ſorts of Feavers, *Quotidian*, *Tertian* and *Quartaen* Agues, all ſorts of Fluxes or Looſeneſs, as Diſſentery, or Bloody Flux, *Lientery diarrhea*, Dropſies of all ſorts, he engages the Cure of, in a very ſhort time by a Safe and Eaſie method.

All the Diſtempers of the Ears, as Violent Paines, Ulcers, the old or inveterate Deafneſs, with all other curable Diſtempers, if God permit.

He

HE has alſo the moſt Prevailent Remedies, that ever were yet found out, to take away the cauſe of BARRENNESS, by the uſe of which ſeveral Hundreds have Conceived, and brought forth Children, after all hopes of Iſſue has been deſpair'd of for many Years.

He prevents Miſcarriage, and Cures all thoſe grievous Diſeaſes happening to Women with Child; and alſo Eaſing all thoſe Acute Tormenting Pains after the Birth; and has (by Gods Aſſiſtance) found out ſuch a Remedy, which (if taken Fifteen or Twenty days before the time of Travail) ſhall ſo prepare the Body, that their Pain becomes more Eaſie and Gentle; ſeveral Women (to their great comfort) have prov'd the worth of this Medicine, who (in the Birth of their former Children) have very hardly eſcaped with their Lives, by the Bleſſing of God, have found by the taking of it, that their Labour was (Comparatively) Eaſie and Gentle.

This I was reſolv'd to Publiſh, not for any deſire of gain, but in Compaſſion to that Tender Weak Sex, great numbers of which looſe their Lives for the want of ſuch a Preparative.

My Medicines of this kind are both Safe, Pleaſant, and Powerful, Working neither by Vomit, nor Stool, or any other ſenſible Operation, being fitted to the moſt Tender Conſtitutions.

Thoſe that have occaſion may find him at the foremention'd Place, where he will furniſh them with proper Remedies compos'd by himſelf only.
